Leaders School Held; Club Members Furnish Dinner To County Board

The third leaders' school in the Food and Nutrition project was held the first of this month with 16 in attendance. This will be the last leaders' school to be held during the spring months, but the work will be resumed in the fall. The leaders have done splendid work in assisting in their local clubs, in spreading the gospel in variety of foods, meals better planned and foods better cooked.

The first of the month, volunteers from the Macedonia club gave the county commissioners a dinner, using dishes in the menu which they had learned to prepare at their club meetings. One of the club women recently reported that since she had been enrolled as a club member this year she was feeling much better. She was trying nearly all the recipes obtained through the club meetings, and was following the daily food essentials sheet, which says that every member in the family should have milk to drink, children one quart each, and adults one pint each, one serving of meat, one serving of whole grain cereals, 3 servings of vegetables, one a green leafy vegetable and if possible a raw vegetable during the day, a fresh or canned fruit and water to drink. This blank known as the daily food essentials blank is used by all women to help plan their meals. One club woman stated as a result of this food work that she had cut down some of the meat and that her husband had reported he was feeling much better. She had gained weight, when before she was underweight, until now she is within two pounds of her normal weight. This is only one club family. I am sure there are others that can say about the same thing. One other woman, suffering with arthritis, had to be put on a diet recently consisting of many of the foods mentioned under the daily food essentials blank. Club women as a

MY POSITION
I am no politician
And don't desire to be,
But when it comes to voting
Fair play I'd like to see.

I have two friends that's running
For clerkship of the court,
And how my heart is burning
Because I can't support
Both of these loyal gentlemen
On the thirtieth day of June,
But this is just as certain
As the rising of the moon:
That one must get defeated,
While the other will climb the hill.
Now, voters, get to thinking
Which man will fill the bill.

Of course, I have a feeling
That "Lilly" is the man,
I ask you to consider
And help him all you can.

You owe it to your county
And also to your Lord,
So kindly give him your support
And reap a great reward.
Now, to make the subject short,
I ask you don't act silly,
But march up bravely to the polls
And vote for John D. Lilly.

11th By W. C. GARDNER.

result of the nutrition work this year have become more health minded than ever before.

The Home Agent traveled 1,029 miles, spent 20 1-2 days in the field, and 5 1-2 days in the office, wrote 120 individual letters, distributed 55 bulletins, held eleven adult meetings, and ten for girls, held one county council meeting, and visited twenty-five different homes during the month.

The agent visited the Durham curb market during the month, which, according to the Raleigh office, is headed toward being the leading market in the State. The market is held in the Mutual Exchange building there, and the sellers remain all day, paying five cents per yard for space. As a result of the visit, the home agent has been able to secure addresses of wholesale companies where curb market materials can be purchased at a lower price than we can get them here.

The total curb market sales for the month here were \$108.96. Cakes again took the lead at \$37.39; poultry came second at \$24.58; dairy products, \$16.71; vegetables, \$13.91; eggs, \$10.87; miscellaneous, \$2.25; meats, \$1.60; flowers, 50 cents; canned products, 95 cents, and fruits and berries, 20 cents.

NATURE YOUR BEST FRIEND

She gives you your soil . . . Your seed, and Chilean Natural Nitrate

WHAT a friend old Mother Nature is to every man who makes a crop. Your land—Nature created it. The seed you plant—Nature creates it. Sun and rain—gifts from Nature, too. And Chilean Natural Nitrate—this magic plant food is one of Nature's miracles. Into Chilean she put the vital "impurities", each one a plant food in itself. They are all essential to your crop.

Chilean Natural Nitrate is the ideal side-dresser—proved by over 100 years of use on Southern crops.

Two kinds of Chilean—both are genuine, Champion Brand (granulated) and Old Style.

Protect yourself. The way to be sure you get what you want is to say Champion Chilean or Old Style Chilean when you order. Play safe.

Chilean NATURAL NITRATE

THE ONLY NITROGEN THAT COMES FROM THE GROUND; THE GENUINE ORIGINAL "SODA"
