Colored Man Found Guilty Of Reckless Driving Here

William Bowser, colored, was found guilty of reckless driving in the case originating the 19th of last month, when the man ran a Ford car into and

killed two mules on the Hamilton road at the Everett farm. Judgment of the court was suspended upon the payment of the costs. Bowser was driving the car for Mr. M. P. Gallop, of Elizabeth City, employee of a land bank, when the acci-

dent happened.

According to unofficial reports, civil action will be brought by the owner of the mules, Harrell Everett, to recover damages.

TO MAKE CHECK OF LAND RENTED BY CONTRACTS

Growers Who Overplanted Must Reduce Acreage or Cancel Contracts

Cotton and tobacco growers who are under reduction contracts are being cautioned by Charles A. Sheffield of State College to make careful measurements of their planted and rented acres.

He is also urging them to designate which acres have been set aside from cotton or tobacco production so that the committeemen who will make a check of the acreage can do so as rapidly as possible.

It will be to the farmers' advantage, he said, to have their production as nearly in line as possible. Growers who have planted more than their contracts allow will be required to reduce their acreage or cancel their contracts and refund any rental payments they have received.

After the committeemen have made their check, government surveyors will make a recheck of a few farms chosen at random to determine the accuracy with which the first check was made. Corrections will be made when necessary.

The check will also be made to determine whether the growers have retired from production land which is of good average fertility and whether they have planted on the rented acres crops which are prohibited under the

contracts.

Farmers who are not complying with their contracts in every way will be given a chance to do so. If they do not bring their farms into compliance, their contracts will be forfeited.

Due to drought conditions in the middle west, the contracts have been modified so that a grower can plant forage and feed crops on all the rented acres. He may also grow for

Ten Million People HELPED TO BUILD THE TIRE SENSATION of '34!

Beyond Comparison in Quality, Construction, Appearance and Price With Any First Quality Tire Made

THE way to create a TIRE SENSATION is to give the people what they want, and Firestone has done this with the new Firestone Century Progress Tire.

As millions of people visited the Firestone Factory at the World's Fair last year, we asked this question—"What do you value most in a tire?" They answered—"Give us Blowout Protection, Non-Skid Safety, and Long Wear, at a moderate price." This was a big order, but Firestone has a habit of giving car owners what they want when they want it.

We knew there was only one way to build Quality and Value into a tire at a moderate price, and that was by volume production. We built the greatest tire ever made to sell at these low prices. Car owners are profiting because we found out what they wanted and found the way to give it to them.

The new Firestone Century Progress Tire IS EQUAL OR SUPERIOR to any first quality tire built, regardless of name, brand, by whom manufactured, or at what price offered for sale.

CHECK THESE AMAZING VALUES

Come in and equip your car with this marvel of tire construction, at the lowest price we have ever been able to make on a tire of this high quality and construction, carrying a Triple Guarantee.
