

4-H CLUBS WILL HOLD COURSE THIS SUMMER

Meet in Raleigh July 25 to 30 Marks 25th Anniversary of Club Work

The annual 4-H club short course will be held at State College, Raleigh, this summer from July 25 to 30, inclusive, with about 500 selected club members in attendance.

"We were compelled to defer holding our annual short course last summer due to the emergency canning and cotton campaigns but since this year is the twenty-fifth anniversary of the starting of club work in the State, we shall have the short course this summer," says L. R. Harrill, state club leader. "The boys and girls have begun to select those who will represent them at the event and we are expecting to have a successful gathering."

A new departure this year will be the holding of the short course over a week-end. Mr. Harrill said this plan had been tried in some of the other states with excellent results. Special Sunday services will be held on the campus and will be under the direction of competent religious workers.

Mr. Harrill said the club members will be given class room instruction during the morning hours with the afternoons devoted to demonstrations, competitive games, and sight-seeing trips about Raleigh. Each evening, vesper services will be held on the athletic field under the direction of various club groups. One-act plays, song contests, and inspirational talks will feature these evening gatherings.

Miss Ruth Current will have charge of the program for the girls and will be assisted by selected home demonstration workers and home agents. Extension specialists, college teachers and county agents will aid Mr. Harrill in the program for the boys.

PLENTY WOOD FOR PULP MILL

Number Ideal Locations in Coastal Plain Belt for Pulp Makers

There are a number of ideal locations in North Carolina for the establishment of wood pulp and paper mills, says R. W. Graeber, extension forester at State College.

In the lower Piedmont region and the coastal plain particularly, he said, there is an abundance of second-growth pine, excellent water supply, and ideal transportation facilities by rail and water.

In view of the interest shown by the recent meeting at Asheville of the Southern Newspaper Publisher's Association in the establishment of mills for manufacturing newspaper from southern pines, Graeber said: "Through the cooperation of newspapers, railroads, power companies, timber owners and producers, manufacturers, and capitalists, such a newspaper mill could be brought to North Carolina. Will North Carolinians sit by supinely and let this opportunity slip while some other state reaps the harvest?"

A recently survey conducted by Graeber's office shows the vast amount of pulp wood that is available. At one suggested point, there are 7,500,000 cords of pine timber of pulp wood size within a radius of 50 miles of the site and 1,500,000 within 75 miles. This could be harvested without injury to the basic supply or capital stock of growing trees, he said.

ADVANTAGES OF LOCAL MARKET

(Continued from page one)

450,000 and 500,000 pounds daily and these splendid warehousemen have strong hopes of selling around that quantity daily, from the opening of the market until Thanksgiving. The operators of the three sales warehouses here known as the Farmers, the Roanoke-Dixie and the Planters, are as follows:

The Farmers: Messrs. I. H. Barnhill, W. R. Ingram and C. H. Phaup, proprietors.
The Roanoke-Dixie: Messrs. Jim-

DR. W. C. MERCER DENTIST

Announces the opening of the office formerly occupied by Dr. P. B. Cone for the practice of dentistry.

mie B. Taylor and S. Claude Griffin, proprietors.

The Planters: Messrs. J. J. Corart, G. W. Foxworth and Carlyle Langley, proprietors.

These warehousemen have engaged as their helpers, auctioneers who would shine as stars on any market. Bookmen, clipmen, tag markers, floor managers and other helpers, unexcelled anywhere. In every department trained men will be found, courteous and polite to every seller and to every purchaser. These are the kind of men who will be found at "The Farmers," "The Roanoke-Dixie" and "The Planters" warehouses.

All indications point to one of the biggest years in the history of the Williamston tobacco market, although the history of the market runs back to August 2, 1902, many yet remembering that day as one of the high spots in the economic life of the town. "The older residents even at this late date still remember the brilliant address of the late H. W. Stubbs,

one of the greatest orators of this section, on the opening day.

Williamston's Re-drying Plant

One of the most modern re-drying plants in the South is that of the W. I. Skinner and Company, Inc. It has a capacity of more than 75,000 pounds daily, making a day and night capacity of 150,000 pounds. The plant has a large storage capacity and it's equipped with Proctor re-drying machines and Meechen blending machines. It was first built in 1907, but since remodelled so that hardly a piece of the old machinery remains in the present plant.

This progressive concern numbers among its clients many of the leading dealers of America, Continental Europe, and all parts of the old world. Its officers are: Mr. J. E. King, president; Mr. W. I. Skinner, treasurer, and Mr. F. W. Hoyt, secretary. These men can "read tobacco."

Buying Companies

All of the buying companies have their buyers on the Williamston market. Many of these buyers have been

coming here for years and they are well liked by the farmers.

Williamston's Tobacco Trade Body

Like all well regulated markets, all tobacco sold under the warehouse floors is sold under the rules and regulations of a trade body. In Williamston this trade body is known as "The Williamston Tobacco Association." Its officers are: W. R. Ingram, president; N. K. Harrison, secretary-treasurer, and Robert W. McFarland, sales director. The various committees will on the opening day be appointed by the president. These gentlemen are well known to the tobacco world. They all pledge themselves to endeavor to make of Williamston one of the best and cleanest markets in the bright leaf belt.

Williamston's mercantile establishments would do credit to a town of 20,000 people. It has the fullness of metropolitan ideas, but yet the Old South with its chivalry and hospitality. It's not a mirage or a pot of gold upon the end of a rainbow. It

is real. Carolina sunshine with a most toneful breeze.

Williamston—the best town in the State—with its splendid tobacco market, fine and courteous business men and last, but by no means least, "God's last best gift to man," beautiful women, possessing to a marked degree culture and refinement with an inbred touch of dear old Dixie's supreme enchantment and allurements.

Millions NOW WANT THE NEW Firestone CENTURY PROGRESS TIRE

THAT TEN MILLION PEOPLE HELPED TO BUILD

EQUAL OR SUPERIOR TO ANY FIRST QUALITY TIRE BUILT REGARDLESS OF NAME, BRAND, BY WHOM MANUFACTURED OR AT WHAT PRICE OFFERED FOR SALE

MASSIVE, FLAT TREAD
DEEP CUT NON-SKID
GUM-DIPPED CORDS
BROAD HUSKY SHOULDERS

THE immediate and enthusiastic acceptance of the new Firestone Century Progress Tire started a tremendous wave of buying that is keeping the Firestone factories running twenty-four hours a day to meet this huge demand.

We knew that car owners would replace their thin-worn, dangerous tires if they could get what they wanted in a tire at the price they wanted to pay. We found the answer through ten million visitors to the Firestone Factory at the World's Fair last year. We asked them — "What do you value most in a tire?" — and their answer was — "Give us Blowout Protection, Non-Skid Safety, and Long Wear, at a moderate price."

Drive in to the Firestone Service Dealer or Service Store today! Equip your car with these new Firestone Century Progress Tires, with the massive flat tread, deep-cut non-skid, broad-husky shoulders, and Gum-Dipped cords. Tire prices probably never again will be as low as they are today. At these unusually low prices for first grade tires, we make it easy for you to buy not only one tire, but a complete set.

And Remember—with every tire you are protected by the new Firestone Triple Guarantee—
—for Unequaled Performance Records
—for Life Against All Defects
—for 12 Months Against All Road Hazards*
(*Six Months in Commercial Service)
