

THE LETTER-BOX

HOW TO BUILD A HOSPITAL
 To the editor of The Enterprise:
 Referring to your editorial column of the 9th inst. under caption of "County Needs a Hospital," and you state that we pay many times more than the cost of same is spent in baseball, football and basketball, and you further suggest that each farmer contribute one acre in tobacco towards financing the hospital.
 Why not have our representative in the coming legislature introduce and pass a bill levying a tax of 50 cents on each ticket sold or on each person entering the scene of a ball game of any description, either baseball, football, or basketball.
 It seems to me that this would be the proper way to raise the desired amount to build and equip a hospital, as the farmers are already taxed to death to pay for school buildings and public halls for use for various amusements.
 Respectfully,
 A TAXPAYER OF
 MARTIN COUNTY.

START PROGRAM FOR CONTROL OF '34 PEANUT CROP

Will Provide Payments of More Than \$4,000,000 To Growers

A peanut adjustment program that will provide benefit payments of more than \$4,000,000 to peanut growers has been announced by the Agricultural Adjustment Administration.

The purpose of the program is to limit the size of the 1935 crop and to raise the price of peanuts this fall by diverting from the usual markets a part of the 1934 crop and using it for oil or livestock feed, said Lean I. O. Schaub, of State College.

Growers who sign to reduce their 1935 crop will get benefit payments on the 1934 crop. If they divert up to 20 percent of their 1934 crop to use as feed or oil manufacture, they will also get diversion payments according to the amount of the crop diverted and the type of peanuts in the crop.

The diversion payments will be \$20 a ton on Virginia type peanuts, \$15 a ton on Spanish, and \$10 a ton on runner types. The benefit payments will be at the rate of \$8 a ton on the quantity of peanuts harvested in 1934. This is one reason why the dean is urging all growers to keep accurate records of their 1934 harvest.

To encourage oil manufacturers to buy farmers' stock peanuts, the administration will give the manufacturers payments on all peanuts bought direct from the farmers and used in oil manufacture. The payments will be \$16 a ton on Virginia peanuts, \$12 a ton on Spanish peanuts, and \$8 a ton on runner-type peanuts.

Some People Say:

the country is on the toboggan, with bad getting worse.
 But records show the U. S. Treasury running 50 per cent ahead of last year and 150 per cent ahead of 1932-33 in "pick-up" in revenue. Since July 1st, RFC receipts through repayments of loans have exceeded new outlays by \$135,000,000. 42 per cent of private loans having been repaid, much in advance of due dates. Wilson, of Babson Reports, say general business is now 33 1-3 per cent better than in March, 1933. And a prominent British economist has just published a book, "The Coming American Boom."

However you may interpret these facts, a savings account is indicated. If times get worse, you can use your savings for a rainy day; if better, for the sunny days of opportunity.
