NEW PLYMOUTH NOW ON DISPLAY

Being Shown at Plymouth Sales and Service Show Room in Robersonville

Embracing all the new features and latest creations in automobile transport, the New 1935 Plymouth went on display at the showrooms of the Plymouth Sales and Service show room in Robersonville this week.

Though the new car is of the air-flow type, its streamlining is not as radical as those on some cars. Included in the marked changes are improved braking, a new transmission, new clutch, and a steadiness in steering that of itself is a positive thrill.

In the 1935 Plymouth, front springs and rear springs carry approximately the same weight, have the same frequency and all parts of the chassis ride the same. Front-end bounce is controlled by double-acting shock absorbers. The sway eliminator acts as a third spring and keeps the car on an even keel in making turns.

Miss Sleeper had about thirty-five ladies present, and they gave us a very interesting program on food values with the main theme being "Food Values Needed by One Person for One Year."

The following clubs took part in the program: Everetts, Macedonia, Holly Springs, Parnells, Poplar Chapel and Poplar Point.

The posters were so interesting and educational that Mrs. J. W. Watts suggested that this program be presented to the different high schools in the county.

Mrs. Fannie C. Staton offered a first prize of \$1, second prize 75 cents and third prize 50 cents to the school turning in the best copy by one of its pupils of these posters, between now and July 1.

Delicious sandwiches, date bars and tea were served.—Reported.
