Processing Tax on Cotton Is Paid by the Consumer
 The processing tax on cotton is paid by the consumer when any product manufactured from cotton is purchased. It is added to the manufactured article before it is sold to the retail merchant. The rate is 4.2 cents a pound net weight of cotton used in the manufactured article. The average amount paid by the consumer is about 8 cents on sheets; 3-1-2 cents on a work shirt; 8-1-4 cents on a pair of overalls, and about one cent per yard on unbleached muslin.

Built Up Strength By Taking Cardui
 Here's her own account of how Mrs. T. W. Hardin, of Greer, S. C., was benefited by taking Cardui: "I suffered a great deal from weakness in my back and pains in my side and felt so miserable," she writes. "I read of Cardui and decided to try it. I felt better after I took my first bottle, so kept on taking it as I felt such a need of strength, and it helped me so much."
 Thousands of women testify Cardui benefited them. If it does not benefit YOU, consult a physician.

FUNERAL IS HELD SUNDAY FOR MRS. M. R. LEGGETT, 95

Died at Home of Son Here Friday; Complication of Diseases Cause

Plymouth, N. C., January 11.—Funeral services were held Sunday afternoon for Mrs. Margaret Roberson Leggett, 95, who died at the home here of her son, John Leggett, a United States Commissioner, Friday evening, of a complication of diseases brought on by the infirmities of old age.

The funeral was held in the Baptist church, with interment being made in the Methodist cemetery. Rev. Richard Lucas, Baptist minister, officiated, assisted by Rev. Sidney J. Matthews, of the Grace Episcopal church, Rev. Nixon A. Taylor, of the Christian church, and Rev. J. E. Davall, of the Methodist church.

Her husband, Andrew J. Leggett, preceded her to the grave 34 years ago. Mrs. Leggett was born in Martin County, but moved here 40 years ago. She was one of the oldest women in the county and was the oldest living member of the Baptist church and one of the last few Confederate widows in the county.

Surviving are only three of her nine children: John Leggett, Plymouth; Joseph Leggett, Baltimore, Md.; Vannie Leggett Blount, Hagerstown, Md.

son farm in Williamston Township, adjoining the lands of H. L. Barnhill, J. G. Staton and others, containing 20 acres.

Notice - 103 Shares MATURED!

THE MARTIN COUNTY BUILDING AND LOAN ASSOCIATION has just matured its twenty-third series, 103 shares of stock.

This represents \$10,300.00 of cash and cancelled mortgages on homes of men, women and children of this county. It means that this number has by sacrifice and thrift earned profits of \$1,751.00; it means that a large number of men, women, and children can boast of a home free and clear of mortgages or a large sum of cash. We are very pleased to say that it is the intention of most of these shareholders, and probably all of them, to subscribe for shares in our March 1st series.

Won't you allow us the privilege and the pleasure of explaining the Building and Loan Plan of saving to you at any time it is convenient?

Swift's Red Steer FERTILIZER
 NON-ACID FORMING
 (Physiologically Neutral, With Added Calcium and Magnesium)

As to Acid

Fertilizers should not produce unfavorable soil reaction in the root zone, which is distinctly harmful to most crops. Under most soil conditions, this can be avoided by a properly mixed Non-Acid Forming Fertilizer. Previously the mixed fertilizers used in the United States, with few exceptions, were acid forming. Acid-forming fertilizers have influence on soils and their continued use without some neutralizing element, makes the soil more acid and lowers its productivity. Acid-forming fertilizers have been used over a period of years, the results of many experiments show crop yields are related to the acid-forming properties of the fertilizer.
