An Outmoded Constitution

When the Supreme Court of the United States upheld a clause of the Constitution in its decision on the constitutionality of the NRA, it evidently upheld the word and letter of the Constitution as written.

Yet, when we consider the purpose for which this clause of the Constitution was written, we believe the writers took no thought that they were legalizing monopolies and protecting them rather than leaving a document that would protect the liberties of the people.

In stead of protecting men generally, the Constitution has enabled less than 100 men to so manipulate the business of the nation that they now own more than the other 125,000,000 people. Instead of guaranteeing full business freedom, we find that the 100 have been permitted to grab more than half of the wealth they own by the very terms of an old, delapidated and worn-out Constitution, and that this small

group is still able to manipulate and annul the very purpose of the Constitution.

When the Constitution was written, we had a sparsely settled, free and open country where every man stood on equal terms with every other man. None of the wisest men of that day even had any dream that the power of electricity would some day drive heavy machinery a thousand miles away or throw a man's voice many times around the earth. They did not know that railroad trains would run through the land with thousands of passengers and thousands of tons of freight.

Nor did they suspect that a small group of men would ever be able to sit around a small table on a small street and dictate the price of every man's wages in the United States, every grain of corn, all the wheat and other commodities; the price we must pay to talk to our neighbor a mile away or a thousand miles away, as the case may be.

This Constitution has crowned business king, and left the citizens which it was designed to protect to grope through life in darkness, in poverty, and without much hope for ever being any better off.

A Constitution that crushes humanity and exalts wealth should be changed quickly.

Pure Impudence

The United States Chamber of Commerce has worked unceasingly for a long time trying to discredit the New Deal in general, and section 7a of the National Recovery Act in particular. Now, it comes in like a penitent defrauder and urges business to continue the principles of the NRA.

This was evidently done in a spirit of impudence—a thing that no honest citizenship should respect. Watch the United States Chamber of Commerce. It is nothing but a clearing house for big business to fool the folks. Its change of clothes does not change its nature. It is the same old wolf and will discard its sheep's clothing when it considers the time is ripe.

Words And Actions

Lots of office holders are speaking at school closings here and there these days. They are generally good speakers, of course, and are able to give some good advice. But they should be watched not only for what they say but also for what they do. Watch their votes as well.

●This season more crops than for many a year will be side-dressed with Natural Chilean Soda. It came from the ground; now it's going back to the ground to give health and vigor to your crops.

Once we believed crops needed only phosphate, potash and nitrogen. Now we know they require many other elements. Once we thought of the old-time natural fertilizers only as sources of phosphate, potash and nitrogen. Now we know they contain other equally necessary elements.

All these years we have been following Nature's laws—and only realized what that meant after trying substitute materials. There was a difference. Crops showed it.

They did not seem to get what they needed—what the old-time natural fertilizers supplied.

What is the difference? Some people think it is the extra elements—the "vital impurities." Others believe it is the natural origin, the centuries of blending and curing. Probably it is both. The main point is that the difference is there, and it means much to you.

Be sure to say "Chilean" when ordering your side dresser. Just that one word—but what a difference!

See your dealer for Chilean Natural Nitrate. Two kinds—Champion (granulated), Old Style (crystals). They are both genuine. Both are natural. And both give to your crops those vital impurities.

Chilean Natural Nitrate—the only nitrogen that comes from the ground—the ideal side dresser for your crops.
