Attends June German
Mrs. W. B. Watts attended the June German and the Gallopade in Rocky Mount last Friday and Saturday.

Narrative Report of Home Agent's Work During Past Month

Mrs. J. D. Griffin and Mrs. C. H. Ange Winners in Garden Contest

By LORA E. SLEEPER
The agent spent 16 days in the field and 10 days in the office. One day was taken for a legal holiday. Two contests were held during the month. Due contest came to a close during the month.

Garden Contest: 11 women sent in complete garden records to the state office and competed in the State Fall and Winter Garden Contest, which was put on in cooperation with the State office and the Chilean Nitrate of Soda people. This contest was held only in consideration that the Chilean Nitrate of Soda people would not in any way try to advertise their product. They contributed all money to the prize list and we were very glad to have Mrs. J. D. Griffin win first prize and Mrs. C. H. Ange win second prize. This gave the contestants \$5 as the first prize and \$2.50 as the second prize.

Doll Dress Contest: The doll dress contest which has been running in the 4-H clubs came to a close the 13th when 14 girls entered dolls outfits in the contest. There were three pieces in the dolls outfit, dress hat, and slip. Patterns were secured for girls from ten to 14 years of age. The girl winning first place was Miss Eva Gurganus, she receives money to go to camp with.

No Guess Work Will Be Tolerated in Measuring Land To Various Crops

Supervisors who are checking farmers' compliance with AAA crop adjustment contracts have been instructed to measure the fields with all possible accuracy.

No guesswork will be tolerated, said H. M. Ellis, state compliance supervisor at State College, and a careful note will be made of any excess acreage planted.

Where a farmer is found to have overplanted his acreage allotment, Ellis stated, he will be asked to remove the excess from cultivation, or else forfeit his contract and all benefit payments he has received.

The measurements are being made with tapes and other equipment designed to insure accuracy. The work will also be checked by experts to make sure that no mistakes are made, he added.

Five recheck engineers will go out from the college soon, he said, to aid county supervisors check over the work done by the township supervisors. In cases of dispute, fields will be measured again if necessary.

To satisfy the farmers that the work is being done properly, he continued, they are asked to accompany the supervisors when the field measurements are made.

The county organizations, consisting of the farm agent, county supervisor, and as many township supervisors as are needed—have been set up in practically all of the counties. Where the work has not started already, Ellis stated, it will begin in the near future.

4-H Club Health Contest: In March health examinations were given 4-H club girls over 14 years of age. A health score furnished by the state extension office was used as a basis for judging girls of the various clubs, and in selecting the healthiest girl in each club. We should have had 8 girls coming in to enter the county contest representing Bear Grass, Jamesville, Robersonville, Hamilton, Oak City, Everetts and Farm Life. Five girls entered the county contest here in Williamston and Dr. J. H. Saunders, Dr. W. C. Mercer and Dr. J. C. Sawyer gave their time free to examine the five girls interested enough to come in. The girls entering the county contest represented the club at Bear Grass, Williamston, Robersonville, and Everetts. Kathleen Taylor was selected as the healthiest girl to report in to represent the county in the district contest which will be held some time previous to the girls' short course.

Food and Nutrition: Leaders School Miss Mary E. Thomas, extension nutritionist returned to the county for the second time this year to conduct the third Leaders School. Twenty women representing 9 clubs were in attendance at this meeting. The demonstration for the day centered around the making of light bread, and the making of liquid yeast, using Irish potatoes as the medium for leavening as the yeast used in all breads. Each woman in attendance received a cup of liquid yeast to be used in making light bread at home. Miss Thomas demonstrated whole-wheat rolls and white rolls, and showed how to make cinnamon rolls, plain rolls and pocketbook rolls. The training received at this time will culminate in a Bread Contest which will be held in August. Each club woman is expected to put on an exhibit of bread in August and Miss Thomas will return at this time and assist with the judging.

Food and Nutrition Meetings: 11 meetings were held with organized Home Demonstration Clubs during the month in foods and nutrition. The subject of the meetings for this month was the making of salads. The method of cottage cheese was taught to nearly all clubs. Many of the women had never used their clubber in this manner before and were very interested in having this, and it was given as a salad foundation. Congealed salad was taught the women and an egg salad.

Girls: The work with girls this month has been largely checking home records and work. Instead of holding meetings the agent has called on the girls and some of the older girls have been of valuable help in assisting with the work in the county. The girls were required to complete three pieces of work and their record books before signing up for camp. There are approximately twenty girls who have returned completed records and have shown their work. These girls are looking forward to going to camp scheduled this year at Camp Leach.

Poultry: One day was spent in checking poultry flocks of the Poultry Demonstrators. As a result of records kept by demonstrators, there has been an increased interest in a finer type of poultry. This has shown up in records kept up over over a year. One plans to increase her flock, build new buildings. This has come about as a result of records kept by demonstrators.

Plymouth, at Liverman's Drug Store Thursday, July 25th.
Eyes Examined - Glasses Fitted - At Tarboro Every Friday and Saturday

Pig Will Eat 424 Pounds of Feed In Fourteen Weeks

A fifty pound pig will, under normal conditions, eat 424 pounds of feed in fourteen weeks and will put on about 122 pounds of weight in that time. To get this gain, however, the ration must be balanced and should consist of 36 pounds of fish meal or tankage, 136 pounds of corn meal, 40 pounds of wheat shorts, and 212 pounds of corn. Extension Circular No. 143 gives the amount and kind of feed for different weights of growing pigs together with the amount of expected gains. Copies of this circular will be sent free upon application to the Agricultural Editor, State College.

YOU SHARE IN OUR REWARDS

The rewards, in a business such as ours, often take the form of intangible qualities. In experience, services which we alone are able to offer the community, and in the respect of those who deal with us, we find satisfaction. In these, as well as in the more concrete results of saving and good management our clients are always expected to share.
