Friday, July 12, 1935

It would be a sad day on earth if only the great could be happy.

Happiness is for everyone who seeks it, and not for a few. We realize exactly the things we reach out for despite the disappointments that cast deep shadows over life.

### Cotton Mills Do Not State the Facts

The cotton mills do not state the facts, according to the findings of the Institute of Pacific Relations. The American mills seem to want the American government to remove the cotton processing tax and raise the tariff on foreign cotton goods. The mill owners claim that the tax is ruining America's foreign trade, which statement is false according to the findings of the institute.

The claim advanced by the cotton mills will cut the price of the farmer's cotton about one-third in value, and give the American factory a world monopoly. Foreign countries can't buy our cotton unless they can sell their manufactured goods. And if we bar them by a tariff higher than the present one, the American cotton farmer will suffer and the American people will not be able to buy goods any cheaper.

We are unwilling to see the producer of raw materials grow poorer day by day, and the user of the manufactured product grow poorer in every way while the manufacturer stuffs his coffers to overflowing.

### Greed Rampant

The lions always eat the lambs because they are more greedy and more powerful.

The very same principle applies to men and nations, except that the spirit of many is much meager than that of the lion.

Men have the gift of enlightenment, which should produce truth and honor, which, in turn, should be a protection to a weaker brother.

Today we see China, in its weakness, being slaughtered and torn by the small, avaricious, greedy nation of Japan. Italy is trying to take Ethiopia through the same spirit of greed.

China has the oldest, and perhaps the safest and fairest government of any nation on earth. It is certainly more free of avarice and greed than any of the other nations of the world. It wants no war, but peace. If Japan finally takes all China, it will be made a nation of slaves working to support a great fighting unit for Japan. The same thing will apply to Ethiopia. With a few big nations of slaves to support her, Italy will at once attempt to be master of the world, just as ancient Rome was.

We certainly need some kind of a system to cut the profits out of war. When we get that, war will be no more.

### CARD OF THANKS

We wish to express our sincere thanks to the many neighbors and other friends who were so kind, helpful and sympathetic to us during the recent illness and death of our husband and father, Hannibal J. Haislip. We also thank those contributing the beautiful floral offering—Mrs. H. J. Haislip and children.

### Labor Gets Little

The University News Letter gives some rather interesting figures on the industrial data of a number of the most prosperous manufacturing counties of the state in a recent issue.

Durham County figures show that the value of manufactured products there in 1929 was \$138,224,445; in 1934 the value was \$160,336,003—a gain of more than \$22,000,000. According to the figures, labor got just \$5,779,954, while the factory got a net gain of \$22,000,000. This shows the cost of labor to be a negligible factor in the cost of manufacturing.

### The Happiest People on Earth

#### The Uplift

Who are the happiest people on earth? This question was asked by an English newspaper, and prizes were offered for the best answers. There were four prize-winning answers:

"A craftsman or artist whistling over a job well done."

"A little child building air castles."

"A mother after a busy day bathing her baby."

"A doctor who has finished a difficult and dangerous operation and saved a human life."

There are neither kings, emperors, riches nor rank mentioned in the list of answers. The things that make happiness are honest toil, and the consciousness of making a success of any and every job undertaken.

### Lady Took Cardui When Weak, Nervous

"I can't say enough for Cardui if I talked all day," enthusiastically writes Mrs. L. H. Caldwell, of Statesville, N. C. "I have used Cardui at intervals for twenty-five years," she adds. "My trouble in the beginning was weakness and nervousness. I read of Cardui in a newspaper and decided right then to try it. It seemed before I had taken half a bottle of Cardui I was stronger and was soon up and around." Thousands of women testify Cardui benefited them. If it does not benefit YOU, consult a physician.

- Big, positive brakes with 12" drums and more braking surface per pound of car weight than any other car under \$1000.
- 4 hydraulic double-acting automatic shock absorbers.
- 17 plate battery.
- 6.00 x 16" air-bulloon tires.
- Safety Glass all 'round.

LOW FIRST COST • LOW MAINTENANCE • HIGH RESALE VALUE

FORDS have always been built to stand up under the hard use and long service demanded by the farmer. You will find a great many modern, fine car features in the 1935 Ford V-8: New riding comfort, new handling ease, big car roominess—the only V-8 engine in a car selling for less than \$2300—but you will find the same sturdiness, dependability and economy that have always been characteristic of Ford cars.

The Ford V-8 meets the needs of the farmer today even better than the four cylinder models of the past—it costs even less to own and operate—for Henry Ford believes in building cars and trucks the farmer can afford to own and afford to run.

The Ford V-8 is the best Ford ever built and the biggest dollar value ever offered by the Ford Motor Company. Come in and let us explain how you can own the Ford V-8 today and arrange to pay for it out of your new crop money. We can give you a better trade on your old car right now than later when crops come in. Drive the Ford V-8 and, like your neighbor, you will find that you can't beat a Ford for the farm.
