Circus is coming to Williamston! Pictured above is Mighty Alice, said to be the largest elephant now on tour in America, who will be seen in Williamston Friday, September 20, when Barnett Bros. Big three ring circus will be here for a one-day engagement.

Old-time circus atmosphere will prevail in Williamston, when Barnett Bros. are here, as this show is one of the few on the road today which still clings to the street parade.

The parade in Williamston will leave the show grounds promptly at noon for its trek over the business section of the city. In the line of march will be found all the thrills and features which made the parades of a generation ago such an important part of circus day. They will all be there, from the prancing horses to the screeching calliope.

The performance being presented by Barnett Bros. this season is said to be the most elaborate that this show has attempted in the number of years that it has been on tour in the United States.

Clowns, acrobats, tumblers, trapeze artists, bareback riders, tight-wire walkers, aerialists, gymnasts, cowboys and cowgirls, besides the many trained animals, will perform in the three rings under the circus tent in an almost unending procession of thrills and feats of daring.

Performances will be presented at 2 and 8 p. m. Doors will be opened an hour previous to showing time to allow the public an opportunity to visit the menagerie before being seated in the big top.—adv.

Poultry Scratch Placed In Litter Is Not Sanitary
 The practice of putting poultry scratch feed in the litter is unsanitary and dangerous to the flock from a health standpoint. The litter in the poultry houses, as a general rule, is not changed as often as necessary and thus becomes soiled
