CROP VALUES IN STATE DOUBLED UNDER THE AAA

Nearly 400 Million Dollar Increase Reported In Past Three Years

During the two and a half years of the AAA, the total increase in North Carolina farm income was more than \$416,785,000.

This figure is the sum of the AAA benefit payments plus the increased valuation of farm crops since 1932. In 1932, before the AAA, the value of farm crops in this State was \$104,362,000, said Dean I. O. Schaub, of State College, who had charge of the AAA programs in North Carolina.

With the inauguration of the AAA in 1933, the valuation of farm crops rose to \$194,390,000. The following year it climbed up to \$262,973,000, and in 1935 it was \$246,348,000.

The total increase over 1932 during the next three years amounted to \$390,625,000. In addition, the farmers cooperating in the crop control programs received more than \$26,160,000 in benefit payments. Up to September 30, 1935, the benefit payments had reached a total of \$26,159,193. Since that time other payments have been made, and yet others are now due, the dean pointed out.

The benefit payments, classified by commodities, were distributed to North Carolina farmers thus: tobacco, \$14,515,189; cotton, \$10,689,546; corn-hogs, \$848,005; and wheat, \$97,451.

TELLS OF 4H CLUB WORK IN COUNTY DURING YEAR 1935

Miss Evelyn Everett Has Found Club Valuable She Says In Article Today

By Evelyn Everett
What 4-H Club Work Has Meant To Me

I have been a member of various organizations such as literary, dramatic, health, debating, glee club and 4-H club. If I were asked to choose which club had been of the most service to me I would readily say, "The 4-H club." Were I to attempt to list all the values of this club undoubtedly I would have to write a book. As I am a poor author, I think it would be far better for me to just tell you what the 4-H club has meant to me.

When I first joined the club I was a rough and rowdy tomboy with only one intention, that of having a good time. I joined under Miss Anna Trentham. I didn't want to stay in my classroom while the others were doing anything but trying to sew, so I joined also. Little did I realize that this club would some day be of great value to me. That it would teach me to make my own clothes, to plan and prepare meals, to plan and furnish my room and to lighten the many tiresome burdens of my mother.

In my first year I learned to make aprons and hot dish mats. I also learned to embroider our club emblem, the 4 leaf clover. In my second, third and fourth years I learned to plan meals that would be simple yet appetizing and also contain the needed minerals and vitamins to keep the body healthy. I also learned to help my mother can vegetables and meats in the summer.

In my fifth year I learned how to improve my room. How the furniture should be arranged so as to make the room look balanced. I learned what colors blended and in what rooms they should be used and how. I was taught to make over chairs, wash stands and other old furniture into attractive but simple articles. I also learned the art of picture hanging. In other words, I learned to take an unattractive room and make it into a very attractive room at small cost.

In my sixth, seventh and eighth years I was taught clothing. I learned how to care for my clothes to make me stay fresh looking and last longer. Later I learned how to plan my own wardrobe. To have attractive clothes yet not very expensive, to have the kind of clothes I had always desired but could not make myself. At the time I graduated from high school, I was able to make my school clothes underwear and some of my Sunday clothes.

The 4-H club not only taught me to sew, cook, care for my room, but to mingle with people in general, to make and hold friends. In 1932 I attended camp at Neuse Forest. I was a member of the health group. There I learned to swim, how to acknowledge introductions to strangers and to introduce your friends to others. We were taught the value of cooperation in any division of life, that it is the most important factor in any kind of career. By our loyalty, good sportsmanship and obedience of the rules each member of the health group won a medal.

In 1934, I attended camp again, and was chosen captain of my group. County received a total of \$364,766 in AAA rental and benefit payments. Payments to growers in near-by counties were: Beaufort, \$408,735.18; Bertie, \$266,282.56; Edgecombe, \$799,918.14; Halifax, \$646,714.29 and Pitt, \$1,222,108.61.

which was again winner. We won in the dramatic contest. All of these contests taught me many useful things, such as being a good leader, to be in dramatics and win your way to the hearts of your fellow club members.

Being chosen as the best all-round girl in camp, I was honored with a trip to the State Short course at Raleigh. There I fully realized the real purpose of our beloved 4H club.

The State Short course has meant more to me than any one thing in my life. There I met some of my dearest friends, friends that will remain in my memory forever even though our paths may never cross again. Not only did I make valued friendships, but I learned to take the right kind of recreation, to judge canned products and learned still more about the ways of different people and how to adjust myself to meet the people of the world and to like them as I would have them like me.

The year I spent as a county leader has meant a lot to me to encourage younger club members and impress them with the morals and importance of club work.

My eight years in this club is not packed with the things I should like it to be nor have I won any coveted awards or been of so much use to the club as I could have been, but I do clearly see how much it could have meant to me had I entered into the spirit of it sooner.

May every girl in the Old North State come to love the 4-H club as I do and to really mean it when she says:
I pledge my head to clearer thinking
My heart to greater loyalty
My hands to larger service,
And my health to better living for my club, community and country.

Morrison Award Is Won by Iredell Boy

Henry Vanstoy, 17-year-old 4-H club member of Charles, Iredell County, has been awarded the four-year scholarship to State College offered by Senator and Mrs. Cameron Morrison for the dairy calf club member making the best record with Jersey cattle over two or more years. L. B. Harrill, club leader at the college, has announced. Henry began his Jersey work with one grade animal. He now has a fine herd in which the grades have been replaced with registered Jerseys which have won heavily at the various cattle shows and fairs. Henry also has completed projects with turkeys, colts, garden and corn, all under the supervision of County Agent A. R. Morrow.
