False Rulers-Leaders

The better class of people seem to have lost out in the governing of the world. We find many rulers who are scarcely above common murderers. They press their autocratic power on weaker nations claiming they are justified because they are doing God's work by knocking and shooting the savagery out of the ignorant and helpless people when the truth is they are shooting the life out of them in order that they may steal their homes and loot their property.

Perhaps the gang of fellows called the Liberty Leaguers, are the most brazen ever sent out in America to fool the people. They deserve less respect than even the ordinary gangsters, for they try to destroy by falsehoods while the gangster shoots his own way. We choose the gangster of the two, and it is a safe choice compared with what the other group would do.

Wild Life in Politics

Jay N. Darling, former chief of the Federal Biological Survey at Washington, says wild life must enter politics if it ever gets anywhere. Of course, the beasts and the birds may just as well submit themselves to the politician, because the politician has already grabbed everything else, and he will naturally pick the birds and skin the beasts just as soon as he finds them fat enough.

Who Pays Twice?

Elkin Tribune. In a long editorial the Gastonia Gazette asks the question, "Is Uncle Sam Trying to Ruin the Textile Industry?" and comes to the conclusion that it is. The editor quotes Dr. Claudius T. Murchison, head of the Cotton Textile Institute, whose process of reasoning naturally coincides with the high salary he receives for looking after the textile interests, and who professes deep concern over the fact that the government seeks to recapture the processing tax through retroactive collection.

The Gazette, which moves and has its being in the center of textile activities, agrees with Dr. Murchison that this will mean bankruptcy for a number of cotton mills throughout the country. "It will be impossible for them to pay this tax twice," says the Gazette, "for that is what it will mean, because much of this tax that has been ordered back to the mills will go to the customers and converters who have been protected by the 90-day clause."

What does the Gazette mean when it says the mills will pay twice? They have collected from the customers, their customers have collected from the consumer, and it is the latter that has done the paying—and it is the consumer who will receive none of it back. Nor will the mills pay again, for in the Gazette's own words "if these taxes go back on the processor, the prices of cotton goods, meat and flour will again go out of sight." If these processing taxes are made retroactive, if they are collected the second time, the consumer, not the mills, will be paying.

The Gazette declares that it is this sort of legislation that has caused opposition among the textile interests to the present administration, and calls it "enough to estrange the textile industry for all time to come." It all depends upon whose ox is gored. These same textile to a man would oppose the elimination of the general sales tax in North Carolina, which the merchants are compelled to collect and pay. They have benefited through the elimination of the 15-cent property levy, and bear practically none of the replacement.

which said George D. Burroughs is grantee; and the said George D. Burroughs will further take notice that he is required to appear before the clerk of the superior court of Martin County within thirty (30) days and answer or demur to the complaint in said action, or the plaintiff will apply to the court for the relief demanded in said complaint. This the 6th day of February, 1936. L. B. WYNNE, Clerk Superior Court, Martin County.

Standard Fertilizer Is Made for Martin County Crops

This is not a fertilizer mixture prepared away off yonder somewhere by a chemist who never heard of Martin County. It's mixed right here at home, by men who know your soil and what it needs. And only the best materials and time-tested formulas are used.

Don't take our word for it. Ask your neighbor who uses GRO-MORE. Here's a letter right here from one of them:

Standard Fertilizer Co., Williamston, N. C. Oak City, N. C., Nov. 5th, 1935. Gentlemen: I have used several different brands of fertilizer under my crops for the past ten years; out of these I find that Standard's Gro-More is outstanding.
