"DADDY, HOLD MY HAND"

"A close, sultry night had followed a hot day in August. We had retired for the night and tried vainly to fall asleep as the children had done previously. A flash of lightning stabbed the darkness and thunder rolled in the distance. The storm swept closer and soon was overhead. Amid the crash of thunder I heard a small voice, 'Daddy, hold my hand.' I pulled the cot close to me and held his little hand and soon, even amid the thunder's noise and the lightning's flash his little eyes closed again and were fast in sleep."

All mothers and fathers have had the above experience. At some time or another when we, too, were small, we felt the need of holding mother's hand or daddy's hand. How consoling and comforting the touch of their hands was. How lumpy and courageous it made us feel.

I am just wondering if we parents are as quick to meet the needs of our children today, by holding their hands and guiding them safely through their periods of danger, as parents used to be? At heart our children are just like all other children. There are times when they want us to hold their hands. There are times when they need for us to hold their hands. They need us to hold their hands in their play, in their study, in their work, and in their worship.

Make your children happy Sunday morning by taking them by the hand and walking with them to Sunday school and to Church.

Sunday School, Too!

BAPTIST
Memorial Baptist Church

A Three Days' Cough Is Your Danger Signal

A cough, chest cold or bronchial irritation today may lead to serious trouble tomorrow. You can relieve them now with Creomulsion, an emulsified Creosote that is pleasant to take. Creomulsion is a medical discovery that aids nature to soothe and heal the infected membranes and to relieve the irritation and inflammation as the germ-laden phlegm is loosened and expelled. Medical authorities have for many years recognized the wonderful effects of Beechwood Creosote for treating coughs, chest colds and bronchial irritations. A chemist worked out a special process of blending Creosote with other ingredients so that now in Creomulsion you get a real dose of Beechwood Creosote which is palatable and can even be taken frequently and continuously by adults and children. Thousands of doctors now use Creomulsion in their own families and practice, and druggists rank Creomulsion top because in this genuine, original product you can get a real dose of Creosote so emulsified that it goes to the very seat of the trouble to help loosen and expel germ-laden phlegm. Creomulsion is guaranteed satisfactory in the treatment of coughs, chest colds and bronchial troubles, especially those that start with a common cold and hang on and on. Get a bottle of Creomulsion right now from your druggist, use it all up as directed and if you fail to get satisfactory relief, he is authorized to refund every cent of your money. Get Creomulsion right now. (Adv.)

STOP THAT COUGH

What Is in the Bag?
Mr. Farmer—When buying your fertilizer, do you ever consider what is in the bag?
What you need to know is: Does it contain high-grade materials? Are they correctly proportioned? Do they contain the necessary plant food to start the crop quickly, feed it over the growing period, and then have left in reserve that which is necessary to hold and aid in natural maturity? When you use—
Royster Fertilizer
You have the assurance that your fertilizer will not only meet the above requirements but many others as well.
