traitors of the century, outclassing Benedict Arnold by manyfold.

Mr. Bost goes on to say that this type of campaign will continue for 30 days and political leaders claim it has never failed yet. Of course, this is a matter worthy of consideration, and it has gotten many people much disturbed. The blow the McDonald campaign has struck is centered in Raleigh, where it has scared some of the officeholders white in the gills. In fact, Raleigh looks like it has been struck by a hookworm epidemic, there are so many pale, anemic-looking officeholders there, but their disease is probably just pure fright.

North Carolina voters want nothing but a fair deal and a fair share of the burdens and blessings of government—no special favors.

Where Credit Is Due

As a community citizen, we would like to commend the town authorities for permitting the little street waifs to carry around their boxes for the purpose of shining shoes on the streets and earning a few nickles. Any person trying to earn money honestly needs encouragement, and when we consider that these boys own no land and have no opportunities to look forward to except those granted by the grace of others. We know that the boys ask several times a day if they may "shine 'em up" but it does not cause much disturbance or annoyance.

And while we are on the subject, we would be glad to know why the parties who complain about the shine boys have not raised any objection to several white men who get drunk and go about the streets and public places of the town reeling and rocking, cursing and "slobbering," making themselves nuisances by begging and arguing, to the disgrace of the town? It seems to us that since we have a good jail, there is no reason why such characters should not be taken care of in a way that would relieve the public of undergoing such indignities. The proper thing to do is to lay aside our fear and favoritism and take things as they come, little, big, old, and young.

Security

Watauga Democrat.

The talk revolving about various forms of social security legislation, from the Townsend \$200 a month proposal down to the enacted legislation, involving perhaps 10 per cent of the expenditure, brings to the attention with unusual clarity the actual figures as to what chance a man has of gaining for himself an independent old age.

Out of every 100 men 65 years or older, 5 have independent incomes of sufficient size to enable them to retire and live comfortably.

Twenty-eight out of the hundred must go on working for an existence, well knowing that a few years will have ended their period of earning power.

Twenty-eight out of the hundred are dependents. Their relatives, friends or charity must support them.

Pity is that the men who fail in many instances are no less able, aggressive or honorable than those who succeed. Unforeseen emergency expenditures, illness, unsound investment and poor management all contribute to their fiscal undoing. That a conservative effort is being made to partially even up the economic score between the aged is gratifying. A security program which is reasonably successful in its working would perhaps be the greatest economic and social achievement of the age.

"People Who Live in Glass Houses—"

Nothing quite so ridiculous has come out of the gubernatorial campaign, so far as our observation goes, as the charge Sandy Graham thrust at Clyde Hoye by saying that Hoye was at the south end of a telephone line and Max Gardner was directing his campaign from Washington.

We are not running the Hoye campaign, though we doubt the truth of the Graham statement. We do not intend to carry his charge to court to prove or deny it, yet we are frank in saying that we cannot understand how any telephone conversation can have as much influence as a friendly handclasp and a sweet mouth-to-ear conversation and a friendly corporation embrace. Perhaps Graham has forgotten the old safety first adage: "Those who live in glass houses should not throw stones."

Tom Bost Reads the Signs

Tom Bost, the Raleigh correspondent of the Greensboro Daily News, has discovered a small dent in McDonald's lead, which he interprets as evidence that the Doctor's armor is cracking. While Mr. Bost, in the past, has been regarded as a fairly good interpreter of political signs, it now seems that he may be making his calculations from shadows cast by false beacons.

He takes courage in the fact that when Al Smith was running for President, the work which saved the county of Wake to Smith was done by citizens who were not officeholders and, neither were any of the members of their families. He says the same work is now being done by individuals who have no machine connections. (Say, Mr. Bost, is there a machine? And if there is, who comprises it and who are its missionaries?)

We would like to know if there is any one in Wake County who is not a bit sorry that they pulled their coats off and hurried for Al Smith, who—it has since been found—has proved to be one of the arch-

Lady's Painful Trouble

Helped By Cardui

Why do so many women take Cardui for the relief of functional pains at monthly times? The answer is that they want results such as Mrs. Herbert W. Hunt, of Hallsville, Texas, describes. She writes: "My health wasn't good. I suffered from cramping. My pain would be so intense it would nauseate me. I would just drug around, so sluggish and 'do-less.' My mother decided to give me Cardui. I began to mend. That tired, sluggish feeling was gone and the pains disappeared. I can't praise Cardui too highly because I know it helped me." If Cardui does not help YOU, consult a physician.

The successful bidder at this sale will be required to make a deposit of ten per cent (10) at said sale. This the 5th day of May, 1936. JOHN LEGGETT, Trustee. m8 2tw

We urge you to know for yourself the "feel" of Ford V-8 engine performance—the almost effortless ease of handling—the remarkable stability under all road conditions—the true fine-car riding comfort—which have "taken hold" so quickly and convincingly with the hardest-buying audience that ever tested America's cars.
