Vote Your Convictions

The political prophets are busy day and night telling who the results will favor in the fall elections and pointing out the great blessings the election of one candidate will bring and the calamities that will follow the election of the other candidate. Hunger for office truly makes for many political prophets.

The most unreasonable prophecy we have heard was a prediction that Landon and Knox would be elected. We need to be prepared in politics as in war. Trust no mistakes; go vote. Roosevelt not only will be elected, but he must be elected by the people. The Liberty leaguers will not elect him.

Beast or Human Life Most Valuable

The question of whether a raging and charging elephant is a murderer when he kills a man is now in the court of California for consideration. The big elephant that killed his keeper in San Francisco recently was condemned to be shot by the civil authorities. Before the animal was killed, however, a lawyer procured a writ restraining the killing on the grounds that he was a lover of animals. Of course, the elephant may never have gone on another rampage. However animal trainers fear that since he has killed one man that he will grow mor frolicious and become more dangerous with age, endangering the lives of many.

Human life is not considered the most valuable of all life in the minds of some people, and it is rather sad to see some people think more of their dogs than they do of a neighbor's child.

Should Back Amendment

Senator Benson, of Minnesota, has introduced a bill in Congress to change the constitution of the United States: giving Congress full power to pass laws affecting social legislation, and to acquire and operate industry. All citizens interested in rule by the people rather than by a biased supreme court should back such an amendment.

Landon and the Gold Standard

Three years ago Candidate Alf M. Landon wanted the government to inflate the currency in the sum of \$7,000,000,000. Since that time he has been tickled in the ribs by the great interests until he has grown so gentle that he is hollering gold.

Say what you will about the Kansas candidate, but you will have to admit he knows which way the

ROBERSONVILLE, N. C. A special meeting of the Mayor and Board of Commissioners of the Town of Robersonville, being the governing body of the said town, was held in the office of the City Clerk, the regular place of meeting, at 8 o'clock p. m., on June 24th, 1936. Present: Mayor C. M. Hurst and Commissioners Eli Rodgers, V. L. Roberson, J. C. Keel, A. R. Osborne, and R. L. Smith. Absent: None. V. L. Roberson introduced the following resolution: Whereas, the increased traffic and use of the streets of said Town of

streams of gold flow, and that is why he won the nomination as standard bearer for the Republican Party.

A Gathering of Real Democrats

The Democratic national convention is now getting underway at Philadelphia.

In many respects, it is unlike most other Democratic conventions of past years.

This time the special interests forces will have to take a seat in the back row. In 1924 Morgan & Company dominated the show and gave us John W. Davis as a candidate. In 1928 Raskob and his gang of Democrat radicals dominated and gave us desecration. In prior years we had James M. Cox, Alton B. Parker, and some other of that type.

Now, it is doubly good that we are to have a convention made up in the most part of real Democrats.

Bailey as a New Dealer

Some politicians say that they were astounded that Fountain retained his vote-getting power in the primary, which is hardly the correct analysis of the contest. Most people claim that it was not really so much Fountain's strength that figured in the primary as it was Bailey's weakness. For it was hard to find a voter who really relished or cherished Mr. Bailey as a good New Dealer.

Their Acts Belie the Charge

Roxboro Courier.

The United States Chamber of Commerce and big business have been declaring from the housetop that this new deal debt will sink us when pay day comes, and that Uncle Sam is headed for bankruptcy. Yet, when he offers another batch of bonds the same big business rushes in to get a share of the bonds. Now, if they really thought the country was headed for bankruptcy do you think they would be breaking their necks to get bonds issued by a bankrupt nation? Hardly.

While it is admitted by all that possibly the Government has been spending money too freely, all this talk about bankruptcy is purely for political effect, and the country is safe and sound, and is a long ways from the rocks, as evidenced by the sale of its bonds. When you begin to talk about extravagance remember for what most of this money has been spent, and think about the millions who would have suffered, yea, possibly have starved, but for the assistance of the Government, and you will, if you have a heart, commend the expenditure. And further, all of the money spent was not in the nature of a gift, but was a loan, millions to railroads, banks and private individuals, most of which will eventually be paid back. Yes, truly the New Deal has been a godsend to this country, and the people are grateful for what it has done, as evidenced by the fact that the chances are largely in favor of four years more of the same deal.

Another Contrast

Sampson Independent.

A majority of parents of moderate incomes find it a struggle to support and educate their children, but we read of one case where a child finds it a struggle to spend the \$70,000 a year which she is supposed to spend. Gloria Vanderbilt, 12 years old, was left an estate of \$4,000,000, with a provision that she is to spend \$70,000 annually for living expenses. In one sense, that sounds good and looks good, but lot of less fortunate children, financially, is more to be desired than that of Gloria. Already there has been a bitter legal tilt between Gloria's mother and her aunt as to the custody of the child. And chances are that is just a beginner. We doubt that Gloria, with all her financial inheritance, will get as much pleasure out of life as those children whose parents have to struggle and sacrifice in order to provide for them the necessities of life.

Lafayette, don't expect us.—Brunswick (Ga.) Pilot.

Robersonville make it necessary to improve the streets hereafter designated by surfacing, paving, or otherwise.

And whereas, petitions have been duly filed requesting said paving and improvements, which have been duly signed by a majority in number of owners who represent a majority of all the lands abutting upon the streets to be improved; and whereas, the said petitions have been duly investigated as to the sufficiency thereof by the Clerk of said Town of Robersonville and by him found to be sufficient and in accordance with the provisions of the statute and the same hereby duly approved by the Mayor and Board of Commissioners constituting the governing body of the Town of Robersonville, N. C.

Now, therefore, be it resolved by the Mayor and Board of Commissioners of the Town of Robersonville, being the governing body of the said town:

First: That Third Street from Main to Grimes Street and Grimes Street and Grimes Street Extended from Third to Academy Street and U. S. Highway No. 64, Green Street from Main Street to Outerbridge Street, both North and South Railroad Streets from Main Street to Grimes Street and Second Street from Grimes Street to Broad Street be and the same are hereby ordered improved and paved.

Second: And the abutting property owners and property abutting on both sides of said streets be and the same are hereby assessed, charged with and levied upon for the payment of one-fourth (1-4) of the cost of said paving and improvements, that is to say, the property owners and abutting property on each side of said streets shall bear one-fourth (1-4) of the cost of the said paving and improvements, making a total of one-half (1-2) of the total cost of the construction of said paving and improvements to be paid by abutting land owners and abutting property and the total cost thereof at the aforesaid proportions to be assessed and levied upon and against the abutting property as aforesaid as by Statute provided, being Sections 2706 and 2707 of Chapter 56 of the Consolidated Statutes of North Carolina and the terms and manner of payment being as follows: In ten (10) equal annual installments, beginning November First, 1936, and each year thereafter on November First, together with 6 per cent interest payable annually.

Third: That this resolution will take effect immediately upon its passage.

And thereupon, Commissioner V. L. Roberson introduced and moved the adoption of the foregoing resolution.

Commissioner Eli Rogers seconded the motion to adopt the foregoing resolution and after discussion said resolution was voted on and declared unanimously adopted.
