STANDINGS Individual Batting Marks

Birch Douglass was the sparkplug of the Martin batting splurge dur ng the past seven games that raised the team batting mark from a meas ey .258 to a more reasonable .277. And while Douglass was providing the inspiration for the other hitters he was doing himself no harm, as he raised his own percentage from .200 to top the regular batting order with .362. Slim Gardner went to the head of the list with .417. Gaylord is up from 320 a week ago to .328; and is still leading in total hits, two-baggers and stolen bases. Fred Walters dropped from 308 to 304, but he now leads he squad in runs scored and runs batted in, his two homers bringing him nto a tie with Black, each having 6. Corbitt is up from .263 to .297; Black aised his mark from .234 to .270; and Ferrell jumped from .279 to .286 Henry House hit well over .300 for the week, but his earlier slump is still holding his average down to .218. Earp is out of the game on account of injuries and there is little change in his standing. Bragan, who came in Saturday to play third, got two doubles out of his first 8 appearances and is hitting 250. Livengood and Dean collected their first hits of the season and finally get something in the last column besides ciphers. Here are

MODERN Electric Ranges, like modern auto-mobiles, trains and planes, are fast! And for the same reasons: New developments in the design and construction.

Snap the switch! In a jiffy you have glowing heat—intense heat, as clean and as pure as sunshine—thanks to the up-to-the-minute refinements and improvements in electric ranges.

Modern Electric Ranges have brought the speed of electricity to cooking. This speed enables you to cook quick breakfasts and hasty luncheons in a few minutes.

Speed? Of course—all the speed you want. Yet, speed is but one of the many advantages of cooking electrically! Electric cooking is cool, clean, economical, safe and modern! Get all the facts about this modern electric servant today—including the low price and easy terms!
