

# Patronize Your Home Market

MR. FARMER, THE BUSINESS AND PROFESSIONAL MEN OF WILLIAMSTON EXTEND  
YOU A MOST CORDIAL AND SINCERE INVITATION TO

**Sell Your Tobacco on the Williamston**

You'll have to admit that it is convenient, and you'll also agree that a larger tobacco market for Williamston will mean a larger town. A larger town means a better market for all farm products. Mr. Tobacco Grower, it will even increase the value of your land and help reduce county taxes.

Do your duty. Patronize your local market. The Williamston market will average just as much, according to the Government figures (and that is the only authentic news issued in connection with a tobacco market) as the larger markets, even though some of the local farmers dump their trash on the local markets and haul the cream of their crop to the big markets.

The Williamston market is a Martin County institution, built and created for the convenience of Bertie and Martin Counties; thousands of dollars have been spent to give you a convenient, accessible place to sell your tobacco. Modern warehouses, experienced tobacco men, all conveniences, and ample banking facilities are at your disposal.

Sell your entire crop of tobacco on the Williamston Market and reap the benefit in dollars and time. 100 per cent cooperation of all the growers of this section can make the Williamston Market one of the section's largest.
