

DEMOCRATS PLAN STRONG SUPPORT FOR ROOSEVELT

Partys Precinct-by-Precinct Organization To Be Most Complete In History

The Democratic party's precinct-by-precinct organization this fall will be the most complete in the history of North Carolina politics, if plans of State Chairman J. Wallace Winborne are carried through.

"So far we have made more progress toward a complete organization than we have ever made this early in the campaign," said the chairman.

"There are three reasons for this. First there is North Carolina's great admiration for President Roosevelt and its determination to give him a record majority. Second, progressive men and women throughout the State realize that with Roosevelt and Hoey heading the federal and state governments, and with prosperity returning, we may expect four years of unprecedented advance along lines of education, social legislation and material advance. And, finally, we are receiving the closest cooperation from the county chairmen and other party leaders."

"Know your precinct," is the text the Chairman has preached on at each of the district meetings, at which he conferred with the local officers of the party. He has urged that the precinct chairmen take a house-to-house poll of the precinct to discover the potential Democratic strength, check the Democratic names against the poll books to see that everybody is registered, and make plans to get out the entire vote on election day.

Mrs. J. B. Spilman, the State-Vice Chairman, has called upon all the Democratic women workers of the State to join in the organization work. "Women are just as capable as men, perhaps more so, in doing this sort of work," she said. "The plan of organization calls for at least one woman on every precinct committee."

If the precinct chairman calls on these women to help with their canvasses and with checking the registration books, they will get the organization work done sooner than ever before, I believe women are noted for their thoroughness and, as most men already know, the more work you give a woman to do, the greater will be her enthusiasm."

Just recently the Democratic campaign spotlight turned from the western half of the State, where the first six rallies were held, to the

East. The first district rally was held at Ahsokie on Friday, September 25. Others will follow in the next few weeks.

"I know that the West, where I now live, would go down the line," said the chairman, "and I am delighted to find the fighting spirit in my native East."

"I realize, of course, that in the great majority of Eastern counties there is so little Republican opposition that it is difficult to work the Democrats up to the point of intensive organization and a drive to get out the full vote. However, I find a determination among our eastern chairmen to do just that this fall. They feel that the East owes an overwhelming majority to the President and to the whole Democratic party."

Should Dig Potatoes Before Frost Strikes And Kills the Vines

Potatoes Keep Better And Sell for More Money If Properly Handled

Don't leave sweet potatoes in the ground until frost nips them, warns L. P. Watson, extension-horticulturist at State College.

They are sensitive to cold and will be damaged by frosty weather, he stated. Cold-damaged potatoes will not keep as well as those which are protected.

If an unexpected frost should kill the vines, he added, cut them off and dig the potatoes at once.

Watson also urged growers to be careful not to bruise or cut the potatoes in digging, hauling, or storing. Blemishes decrease their market value and increase their susceptibility to disease.

A large two-horse turn plow with a rolling coultter attached to the beam and adjusted so as not to cut the potatoes is a good implement for digging. Or a "middle buster" may be used if the rows are barred off.

Don't throw potatoes from one row to another. Three rows may be piled together, since potatoes from the two outside rows may be laid over in the middle row without throwing.

When picking up the tubers, place the different grades in separate piles. This saves trouble later. Leave the culls in the field.

Allow the potatoes to remain in the field long enough for the surface to dry so that the roots will be freed from clinging soil. This also avoids carrying excess moisture into the storage house.

Do not fill hampers or crates too

NOT TOO LATE TO PLANT CROPS TO CONSERVE SOILS

All Farmers Have Chance To Meet Requirements And Get Payments

Winter legumes sown in October may be counted as soil-conserving crops under the 1936 soil-improvement program, according to J. F. Criswell, of State College.

The time allowed for seeding conserving crops has been extended to October 31, since many farmers have been handicapped by dry weather, he explained.

He urged growers to take advantage of the time extension and sow enough conserving crops to qualify for the maximum payments possible for them to receive.

A change in the regulations, he added, now permits growers to meet their minimum conserving crop acreage requirements by sowing winter legumes on fields where depleting crops were harvested earlier in the year.

The minimum acreage of conserving crops required is equal to 20 percent of the base cotton, tobacco,

and or peanut acreage plus 15 percent of the base acreage of other depleting crops.

This is the minimum amount of conserving crops a farmer must grow to participate in the soil-improvement program.

Conserving crops may also be grown for another purpose: to make a grower eligible to receive payment for carrying out soil-building practices. When grown for this purpose, the conserving crop must not be placed on land where depleting crops have been raised this year.

Since the work of checking growers' compliance with provisions of the soil-improvement program has been completed in most counties, Criswell stated, growers who seed conserving crops in October should report it to their county agents so they will get credit for the later seedings.

NOTICE

North Carolina, Martin County. In the Superior Court.

Mary Belle Williams vs. George Williams

The defendant above named will take notice that an action entitled as above has been commenced in the Superior Court of Martin County, North Carolina, to secure an absolute divorce based upon two years' separation; and the defendant will

notice, or this notice will be pleaded in bar of any recovery.

All persons indebted to said estate will please make immediate payment.

This the 26th day of September, 1936.

Mrs. J. S. PEEL.
