

**Fire Damages Roof Of Main Street Home Here**

Started by a spark from a defective flue, fire did considerable damage to the roof of the Charlie Edwards and Charlie Herring home on West Main Street at 10 o'clock yesterday morning. A large hole was burned in the roof and the flue was torn down. Very little damage was done to other parts of the house. The fire company used a single water line from the truck to bring the fire under control.

**New Chevrolet On Display Next Week**

The finest Chevrolets in the company's quarter-century of automobile manufacture will make their bow here and throughout the country on November 7. Mr. J. H. Edwards of the Roanoke-Crevolet Company, local Chevrolet dealers, announced this week, upon his return from Charlotte where one thousand dealers, sales managers and salesmen from North Carolina obtained official news of the new product from Mr. T. D. Hunter, manager of the Charlotte zone, and members of his staff. Mr. Hunter has just returned from

Detroit, where 1,000 members of Chevrolet's wholesale organization from coast to coast spent four days inspecting and driving the new car and reviewing with factory executives the program to be followed in presenting it. The new models adhere closely to time-tried Chevrolet engineering principles, he reported, but combine greater power, economy, safety and durability with striking new beauty and grace. Mr. M. E. Coyle, president and general manager of Chevrolet, announced during the convention that the company had shattered all previous records during 1936, selling more cars and more trucks than in any previous year in its history, and leading the world in sales for the seventh time in the last 10 years. The total for the year will exceed 1,125,000 units, he said, and the objective for 1937 is 1,200,000.

**AGENTS RECEIVE AAA APPLICATION FORMS FOR CASH**

**Require Several Weeks To Prepare Papers For Soil Payments**

Forms on which North Carolina farmers will apply for payments under the soil-improvement program have been distributed to county agents over the State, said J. F. Criswell, of State College. Some agents have already started preparing the forms for signature, others will start as soon as all the necessary data are available, he pointed out. When the forms are ready, the agents will notify the growers. It will be several weeks or more before all the forms are prepared, Criswell added in urging all farmers to wait until they receive notice before they go to their agent's office to sign. He also pointed out that on each form will be required the signature of every tenant who will share in the payments to be made. Data to be placed on the application blanks will be assembled from information gathered in the recent check made on growers' compliance with provisions of the program. Since the checking of compliance has been practically completed in every county, Criswell stated, growers sowing winter legumes during October, or after their farms have been checked, should notify their county agents so they will receive credit for these seedings. After the applications have been signed, the payments will be distributed as rapidly as possible. In the East Central Region, which includes North Carolina, the initial payments will be on a basis of 90 percent to avoid the possibility of a deficit in the AAA treasury. Later, if it is found that sufficient funds are available, payments to all growers will be increased accordingly, Criswell stated.

**DuPonts Give Huge Sums To G.O.P. Campaign Fund**

New York—Senator Joseph T. Guffey, chairman of the Democratic senatorial campaign committee, said today the duPont family and their business associates had contributed a total of \$383,000 to the Republican national campaign up to September 30th. Senator Guffey said the list of duPont contributions was prepared by him after an "extensive investigation from all available records" made by investigators retained by him as chairman of the senatorial campaign committee. "On the basis of my investigation," Guffey said, "I feel safe in saying the duPont contributions to the Republican campaign will total more than three-quarters of a million dollars by election time." At the head of the list of duPont contributions as given out by Guffey was Lamont duPont with a contribution of \$105,000. The remainder of the list included: Irene duPont, \$95,000, and Pierre S. duPont, \$84,000.

**Pulp Mill Officials Ask Prices on Materials Here**

Although no definite site has been selected as far as it could be learned today, officials of the Kieckhefer Container Company were here this week seeking information in connection with the proposed location of a large pulp mill in this section. Prices on large daily shipments of materials to this point were asked, but the representatives did not disclose any information in connection with the location of the plant.

**Excellent Sweet Potato Crop In Columbus County**

Columbus County growers report an excellent crop of sweet potatoes this fall. The season has been unusually favorable for the sweets, they say. Increased acre yields of cotton by reason of better stands are reported by those men who treated their seed last spring.

**Treated Seed Makes For Increased Cotton Yield**

Increased acre yields of cotton by reason of better stands are reported by those men who treated their seed last spring.

**Fertilizer for the Winter Crop Is Recommended**

It is customary in many sections to sow fall crops after corn, cotton or tobacco without fertilization under the supposition that there is enough fertilizer left from the spring application for these fall crops. It is true that some of the fertilizer is still in the soil, but it is also true that the crop will respond well to a special application. For the Coastal Plain soils 400 pounds of an 8-4-4 mixture is recommended. However, a good coat of stable manure may be applied during the winter instead of the commercial fertilizer.

**Campaign Fund In County Nears Goal**

As the drive draws to a close this week, canvassers for the Roosevelt re-election campaign fund stated today that the goal had nearly been reached in this county. Not including donations made several weeks ago by leaders of the party, county officers and a few others, the fund now stands at \$918.50 or just \$81.50 short of the \$1,000 goal. The funds are being rushed to headquarters for use in buying radio time for the President and other prominent party speakers. Donations not including \$45.50 raised in Robersonville a few days ago and those not previously acknowledged are, as follows: Five dollar donations made by J. Dawson Lilley and A. S. Roberson, \$2 donations by W. S. White, and C. C. Miller; \$1 donations by Jno. R. Peel, Miss Katherine Faison, J. T. Smithwick, J. E. White, O. R. Roberson and J. R. Todd.
