

Register Of Deeds Issues 23 Licenses To Wed Last Month

Thanksgiving Period Rush Holds Number to Moderate Level

Register of Deeds J. Sam Geisinger issued 23 marriage licenses in this county last month, the number being small compared with the issuance of 34 in November a year ago. A big rush at Thanksgiving time kept the number from sagging to a low level, but not low to the issuance recorded during the depression six or seven years ago when there were fewer than a dozen marriages in the county in the month of November. The number of licenses issued to white couples last month led the issuance to colored couples for the fourth time this year.

Licenses last month were issued to 12 white and 11 colored couples, as follows:

White

Tommie Allgood and Margaret Tetterton, both of Beaufort County. Jasper Williams and Ella Elizabeth Latham, both of this county. James D. Wilder, of Tuscaloosa, Alabama, and Sybil Williams, of Plymouth.

Julius M. Manning, of this county, and Audrey C. Hodges, of Beaufort County. James Henry Dixon and Virginia Dare Simpson, both of Jamesville. Alvah P. Wheaton, of Plymouth, and Lottie Brinson, of Morehead City.

Peter Bellflower and Sidney Elizabeth Downs, both of this county. Ernest L. Etheridge, of Williamston, and Frances Elizabeth House, of Robersonville.

David Simpson and Lois Danson, both of Martin County. James Edisson Gardner and Myrtle Wells, both of this county. James Daniel Ambrose, of Berkeley Virginia, and Lillie Bell Gardner, of Jamesville.

Geo. David Grimes, jr., of Williamston, and Matilda Gray Peel, of Griffiths.

Colored

William Brown and Laura Whiteley, both of Williamston. Oscar White, of Suffolk, Va., and Martha Davenport, of Plymouth. Ben Fleming and Hattie Little, of Martin County. Thurston Purvis and Malissa Brown, both of this county. Herrou Lattie and Ernestine Page, both of Parmele. Willie Briley and Velania Collier, both of Martin County. Willie Williams and Venus Andrews, both of Williamston. Calvin Halsey and Alma Collins, both of Edenton. William Bridges and Emily Lynch, both of this county. Elvin May and Caroline Stokes, both of Martin County. Theodore Roosevelt Pittman and Alonza Spruill, both of Martin County.

Many Claims Are Yet To Be Filed

Rocky Mount—The number of workers who have reached 65 or relatives of workers who have died since January 1, 1937, filing claims is much smaller than the number anticipated, Mr. George N. Adams, manager of the Rocky Mount, North Carolina Field office of the Social Security Board, said today.

Title II of the Social Security act provides that a lump sum payment of 2 1/2 per cent of the total wages earned since January 1, 1937, shall be paid to those workers reaching the age of 65 after January 1 and to the relatives of such workers who die.

"The number of claims filed in Region IV up to November 26 was 3,636; 2,376 of these claims have been certified to the United States Treasury for payment. The balance are in the process of being adjudicated," Mr. Adams said. Region IV comprises North Carolina, Virginia, West Virginia, District of Columbia, and Maryland.

The Social Security Board now has 323 field offices open to serve local communities. One of the major purposes of these field offices is to assist prospective claimants in obtaining the money that is rightfully due them. The Social Security board has made it very simple for those entitled to these lump-sum cash payments to make their claims, which are being paid now.

Thirty-five million, three hundred and sixty-six thousand, eight hundred and sixty-five applications have been filed for Social Security Account Numbers as of October 30, 1937. In the State of North Carolina there have been 765,023 of employees who have filed for a Social Security Account Number.

Every Dairy Cow Likes Good Rations

Even the humblest dairy cow has her own ideas about what she likes to eat, and only palatable feed will tempt her to eat enough to maintain a full milk flow.

A good dairy cow has a tremendous capacity for converting feed into milk, said John A. Arey, of State College, and to make full use of this capacity, she should be induced to eat all she can.

A healthy cow relishes a grain mixture containing several different feeds, but she usually gets tired of a ration containing only one or two kinds of grain.

Variety in the grain mixture not only makes it more palatable, Arey pointed out, it also insures against a shortage of minerals and provides needed proteins.

The grain mixture should not be too concentrated. If it weighs about one pound per quart, it has the right amount of bulk.

Such feeds as wheat bran, ground oats, ground barley, and beet pulp are often used to add bulk and variety to the mixture.

But grain is only a supplementary feed, Arey emphasized. Cows need plenty of good pasture when it is available and a full feed of silage and legume hay in winter.

Dairymen who buy feed for their cattle will get better results if they purchase only feed in which the percentage of nutrients is fairly high. When the percentage of crude fiber runs high.

Game Head Urges Waterfowlers To Aid Duck Return

Refuge Movement Will Be Extended to Canadian Provinces

New York—An appeal to duck hunters of every state to unite in "vastly increasing" the comeback of wild ducks by extending into Canada the successful duck-breeding refuge movement was issued today by Dr. John A. Hartwell, national president of "Ducks Unlimited."

"Uncounted—millions of—federal, state and private funds have been spent in a dramatic and productive movement to create a great system of waterfowl sanctuaries throughout the country," Dr. Hartwell declared. "Coupled with these practical efforts to increase wild duck production have been more regulatory restrictions on duck hunting than at any other period in conservation history."

"Results of these initial efforts to bring back the waterfowl are plainly apparent this season in the largest crop of wild ducks in recent years. But further increase and any future liberalization of hunting restrictions must depend upon extension of the refuge movement into Canada which today furnishes over 80 per cent of our wildfowl."

Pointing out that waterfowl restoration work thus far has been confined almost entirely to the comparatively minor duck-producing areas of this country, Dr. Hartwell continues: "Progress already made in bringing back the birds in the United States is only a sample of what could be done in Canada."

"In sections of Manitoba, Saskatchewan and Alberta, where duck-breeding conditions are the best on the continent, waterfowl can be increased at a fraction of the cost here in the United States. But federal funds cannot be spent in Canada. That is why 'Ducks Unlimited,' the first national organization of duck hunters, appeals to every wildfowler to unite in carrying forward this refuge movement."

Amount Of Fertilizer Needed On Tobacco Beds

Regarding the amount of fertilizer need for tobacco beds, two hundred pounds of 4-8-3 mixture for each 100 yards of bed is sufficient. However, if a lower grade fertilizer is used it should be supplemented with from 50 to 100 pounds of cottonseed meal provided the meal is thoroughly mixed with the soil. Broadcast the fertilizer and thoroughly mix it with the upper three or four inches of soil. If manure is used be sure that it contains no tobacco leaves, stalks, or roots and do not place any tobacco trash on the beds as this will carry diseases such as mosaic, black root rot, and Granville wilt.

and at the request of the owner of the said note, the undersigned trustee will, on Monday, the 3rd day of January, 1937, at twelve o'clock noon in front of the courthouse door in the town of Williamston, offer for sale to the highest bidder for cash, the following described real estate, to wit:

Beware Coughs from common colds That Hang On

No matter how many medicines you have tried for your cough, chest cold, or bronchial irritation, you can get relief now with Creomulsion. Serious trouble may be brewing and you cannot afford to take a chance with any remedy less potent than Creomulsion, which goes right to the seat of the trouble and aids nature to soothe and heal the inflamed mucous membranes and to loosen and expel the germ-laden phlegm.

Even if other remedies have failed, don't be discouraged, try Creomulsion. Your druggist is authorized to refund your money if you are not thoroughly satisfied with the benefits obtained from the very first bottle. Creomulsion is one word—not two, and it has no hyphen in it. Ask for it plainly, see that the name on the bottle is Creomulsion, and you'll get the genuine product and the relief you want. (Adv.)

Irma Lee Rogers, Lula Mae James, Clester Wiggins and husband, Shellie Wiggins, Eliza James Smith and husband, Curtis Smith, and William James, above named, will take notice that an action entitled as above has been commenced in the Superior Court of Martin County, North Carolina, to sell the lands of George James and to allot to Jefferson E. James his part of the lands devised to him in the last will and testament of George James, deceased, and the said defendants will further take notice that they are required to appear within ten days after the completion of service of summons by publication herein, in the office of the Clerk of the Superior Court of Martin County and answer or demur to the petition of the plaintiff, or the plaintiff will apply to the Court for the relief demanded in said petition. This the 6th day of November, 1937. L. B. WYNNE, Clerk Superior Court. c29-8t

WHAT THE HOME FOLKS SAY

North Carolinians are evidencing in a forceful way their faith and confidence in the Registered Policy Plan of Life Insurance offered by the Security Life and Trust Company.

Last year the Company showed a greater increase in ordinary insurance in force on the lives of North Carolina people than any of the other seventy-seven (77) life companies operating in the State. (Source of State Insurance Dept.)

Such generous endorsement of SECURITY protection by the people of our State is most gratifying, while it brings to us a keen sense of responsibility from the knowledge that we are but trustees of the funds of our policyholders. For this reason the facilities of this Company are dedicated to serve most efficiently our ever-increasing host of policyholders and beneficiaries.

Through the third quarter of this year the Company's increase in insurance in force is more than 10 per cent. in excess of that for the entire year 1936.

Our steadily increasing volume of business from other states is but further endorsement of What the Home Folks Say.
