

### Boycott Of Japanese Goods Is Advancing Steadily In World

#### 300,000,000 People Taking Part To Advance Peace Cause

Nearly six months have passed since a consumer's boycott was urged as a means not only of ultimately stopping Japan's aggression against China, but of lessening the threat of another world war. The movement, while sporadic at first, showed steady advance as the weeks passed. With the sinking of the Panay and the showing of the films depicting the attack, the boycott of Japanese goods has become nationwide. The pictures brought the realities of the situation graphically to the minds of the American people. They saw, in the act of the Japanese militarists, not a mistake in identifying the vessels attacked, but a deliberate, deadly affront, done to feel out the temper of the American people.

Within the past three weeks the largest chain stores, including the S. S. Kresge, McCrory's, S. H. Kress, F. W. Woolworth, National Dollar and the F. and W. Grand Stores, have announced that they are not placing additional orders for Japanese-manufactured articles.

Although the chain stores have been more open in their announcements not to purchase from Japanese manufacturers—at least until public sentiment can be more accurately determined.

About the middle of December, it was announced by the manufacturers of silk hosiery, who use an important part of Japanese products, that they would be compelled to consider a mid-winter curtailment of production in their lines.

A feature of the boycott is the remarkable increase in the manufacture of lisle stockings, the production of which has greatly increased in this country within the past three months. This increased production of lisle stockings, it was pointed out, should go far toward compensating the Southern cotton growers, if Japan retaliates by decreasing their purchase of cotton, much of which goes into the manufacture of war materials.

Reports show that a number of national organizations have endorsed the boycott. Among these are the Committee for Industrial Organization, the American Federation of Labor, the American Negro Congress and the American Student Union. In addition to these well-known national organizations, individual units of other national organizations have recommended the boycott.

The effect of the showing of the films of the attack on the Panay and the murder of Chinese women and children by the Japanese army was recently reflected in the action of children in the slums of New York who, when given Japanese toys as Christmas presents, returned them indignantly to the settlement house.

### Martin Quint Wins One And Loses One

The Martins have batted 500 in their last two contests. Invading Elizabeth City Wednesday night for a return game with the Cardinals, the locals were turned back by a 31-25 score in a rather listless game. The teams played on even terms during the first half, the period ending with the score deadlocked at 10-all. During the early part of the second half the Cardinals found their range and spurred away to a 20-11 lead which the Martins were never able to overcome. The locals were paced by Wallace with 12 points while Morrisette led the winners with an even dozen. Williamston rallied in the latter part of the game but could come within only four points of a tie.

Returning to the home court here last night, the Martins snapped out of their previous night's slump and went on a scoring rampage to defeat an outclassed team of Roanoke Rapids. Ovals to the tune of 74-10. Again the locals found their shooting eye and with the aid of some nice passing, they scored almost a twill Grant Jefferson led the victorious Martins with 26 points, 22 of them coming in the first half, while Oscar Anderson ran a close second with 20. All members of the Martin squad played during the contest and their offense clicked perfect with each combination.

Next Monday the Martins will play Ayden Aces there and on Wednesday night at eight o'clock in the local gym, they will meet the strong APCO Aces of Elizabeth City in what promises to be a close contest.

### Agents Should Work With 4-H Club Members

Work with 4-H club members is the most important job for the county home and farm agent at the present time, says Dr. C. W. Warburton, national director of extension work.

Numerous reports of the boycott by other groups are being made, but the extent of them in this country is, of course, not known. It is hoped that the boycott movement will result in an uprising of the common people of the world against war and the aggression of Fascist powers.

### NO RACE SUICIDE IN THIS FAMILY

Charlie A. Daniels, R. F. D. 1, Hookerton, North Carolina, a patron of the Wheat Swamp Consolidated school, and Mrs. Daniels with their nine children under sixteen years of age, compose one of the largest families in the rapidly growing membership of the Hospital Saving Association of North Carolina. This non-profit organization with a mem-

bership of nearly 55,000 sponsors of the widely known "Two Cents a Day Plan" for paying hospital bills, will enroll the head of a family and his wife and all children under 16 years of age for a membership fee of only \$1.00 per month. For once, as Mr. Daniels' case well illustrates, it is cheaper to have a large family. This family can spend 231 out of the 365 days in this year in the hospital with

the Hospital Saving Association paying the bill. Next year they can spend as many as 30 days each. Benefits for dependents are identical with those for certificate holders. Their names are as follows: Back Row, left to right, Hazel, Horace M., Clifford W.; Front Row, left to right, Hilda, Charlie A., Jr., Mrs. Daniels, Curtis R. (baby), Robert D., Mr. Daniels, Franklin C., and Lucy Mae.

### Local Basketeers Split With Tarboro

Two exciting basketball games were played in the local gymnasium last Tuesday night when teams of the local high school engaged the Tarboro boys and girls. In the first game, the local girls with Marie Hardison and Ray Leggett shooting accurately piled up fourteen points during the first period while the close guarding of Bernice Ward and Rachel Keel was limiting Tarboro to two points. In the second half, play was reversed with Tarboro outplaying the local girls to score eleven points while the Williamston girls were able to connect for three points by way of a field goal and a foul. The final score was: Williamston, 17; Tarboro, 13.

In the boys' game which Tarboro won by a score of 16-15, the local boys furnished the fireworks in a whirlwind finish. Tarboro dominated play in the opening period 8 to 5, but the Williamston boys made a determined bid for victory in the closing minutes of the last period when Arthur Anderson sank a difficult shot which cut Tarboro's lead to one point. No other points were made, however, as several long shots rolled off the backboard and the game ended 16-15. Guard play of Hall and Roberson was outstanding for Williamston.

Wednesday night in the Bertie capital both teams of the local high school were victorious. The girls won by a safe margin of 17 to 5 and the boys weathered a stormy finish and came out with the large end of a 21-20 score.

### Officers Arrest Two Men At Distilleries

Centering their activities in the Bear Grass section on two days this week, officers led by Enforcement Officer J. H. Roebuck, captured two men and wrecked three illicit liquor plants.

James Phippen and John Wiley Ruffin, young colored men, were arrested at a steam plant late last Tuesday afternoon and placed in the county jail. They are awaiting trial. Six hundred gallons of beer were turned out and the officers wrecked the plant, after conducting chases of 500 yards or more for their men. Yesterday, the officers wrecked two large plants in the same district. One of the plants was of the steam type and its operation was being delayed until 2,100 gallons of beer were ready for the heat. The second plant with its 100-gallon capacity copper kettle, had not cooled when the officers reached it, the operators having completed their work for the day just a short while before the raid was made. After pouring out about 800 gallons of beer, the officers wrecked the manufacturing equipment.

Assisting in the raids were Deputy Bill Haislip and Warren Roebuck.

### Is Fined \$10 In Mayor's Court For Brutal Assault

Mack Peterson, local colored man, was fined \$10 and taxed with the costs for an alleged brutal assault on Earl Holliday, also colored, in Mayor J. L. Hassell's court last Tuesday night. Peterson is alleged to have beaten Holliday badly.

### Rodents Are Exterminated On Western Grazing Lands

Jackrabbits, prairie dogs, gophers and kangaroo rats have been practically destroyed on over five million acres of the public domain in nine Western states, set aside by the Taylor Grazing act for conservation purposes. The extermination work has been carried on through the cooperation of the Civilian Conservation corps enrollees, according to a report of Director F. R. Carpenter, of the Division of Grazing, to Secretary Harold L. Ickes, of the U. S. Department of the Interior. The work will be continued in a minor way to keep these sections of the range free from the roving pests, the report states.

Scientific studies indicate that 80 kangaroo rats or gophers will eat more than a 750-pound cow or three sheep, and that in one invasion of the grazing land areas in Arizona, the pests destroyed 80 per cent of the blue grass crop, the principal source of forage in that section.

### Farm Leaders To Speak To Farm Meeting Here

Lloyd T. Weeks, former assistant Martin County farm agent who is now head of the tobacco division for the State Extension department, and Dr. Luther Sitaw, pathologist, will address a meeting of Martin farmers in the agricultural building here next Tuesday night.

Mr. Weeks will review tobacco experiments carried on in the state last season. Dr. Sitaw will offer suggestions for control of diseases in tobacco. The meeting offers much valuable information to growers, and all Martin farmers are urged to attend.

### Elbert S. Peel Will Speak At Williams Chapel Sunday

The friends of Christian Education are invited to hear an address by Attorney Elbert S. Peel, Sunday, January 30th, 3 p. m., at Williams Chapel, A. M. E. Zion church, Rhodes Street, Williamston, N. C. Special music and program in addition to the address by Mr. Peel will be rendered by the Alumni of Livingstone College. Seats will be reserved for white friends. Both white and colored citizens cordially invited to attend. S. R. Walker, pastor.

### Wind Storm Delays Work On Line In Cross Roads

Construction work on a four-mile rural electric line in Cross Roads Township was delayed this week when winds of gale force swept this section and damaged properties of the V. E. P. system. Line forces were called to Scotland Neck and other points to replace poles that fell before the wind.

Very little damage was caused in this section by the wind which was described as one of the strongest experienced during the month of January in many years.

The construction forces of the company will start work on the project as soon as necessary repairs to other lines are completed.

### Mercury Drops To New Low Level For Season

Dropping to 20 degrees, the mercury reached a new low level for the season here today. Warmer weather is promised for tomorrow.

### Load Five Tons Of Poultry In County

Operating a first cooperative poultry car in the county this week, the Farmers Exchange loaded nearly five tons of chickens in Jamesville and Williamston Wednesday and Thursday, according to a preliminary report released this morning by the office of County Agent T. B. Brandon.

Farmers delivered to the cooperative car at Jamesville on Wednesday 1,498 pounds of chickens. Yesterday, the car handled 7,561 pounds at this point. The loading activities were interrupted by train schedules here early yesterday afternoon, County Agent Brandon stating that he believed a thousand additional pounds would have been handled during the remainder of the day. Efforts will be made to effect better schedules for the next loading which will likely be made some time during February.

Loadings are being made in Robersonville today, and tomorrow the car will make a last stop in the county at Oak City.

### Tri-county Conference To Meet At Training School

A large number of farmers and their friends from Pitt, Edgecombe and Martin counties, will gather in conference at the Parmelee training school, Friday, February 4th, at ten o'clock. The conference is sponsored by the state department of agriculture and prominent specialists in the various fields of agriculture will address the meeting. More money and better living on the farm; food and feed supplies; planning the farm home; financing the farm; cooperation on the part of tenant with his landlord are among the subjects coming up for discussion.

There will be morning and afternoon sessions.

**NATCHEL, SONNY, NATCHEL!**

From the new 1938 Natural Chilean Calendar  
Natural balance! That's the secret.  
Uncle Natchel says that's everything in Sonny's learning to ride his mule.  
And be sure of natural balance in your nitrate, too!  
Chilean Nitrate of Soda is natural—the only natural nitrate. For over 100 years it's been a dependable source of nitrogen for nearly every crop that's grown. Now we're learning the importance of its other vital elements, such as iodine, boron, calcium, magnesium, manganese, potash, zinc, iron, copper and many others. Chilean Nitrate of Soda carries these vital elements in Nature's balance and blend.  
"Folks," says Uncle Natchel, "dat's de secret, Natchel balance an' blend—dat's whut counts."  
BOTH GUARANTEED 16% NITROGEN  
**NATURAL CHILEAN NITRATE OF SODA**  
ON YOUR RADIO! Enjoy the Uncle Natchel program every Saturday night on WSH and WSM and every Sunday afternoon on WIS, WPTT, WBT, KWKH, WJDX, WRVA, and WMC.
