Natives Of County Return For Visit

Mr. and Mrs. J. R. Roebuck, of Helena, Ark., arrived here last week to spend a month in the county visiting friends and relatives.

Mr. Roebuck went to Arkansas 36 years ago at the suggestion of his uncle, Mr. George Roebuck. He became interested in the lumber and logging business in that State and made his home there. This is his first visit home in 11 years.

Mr. Roebuck said conditions in Arkansas were only fair. "Most of the timber has been cut in that state and as cotton is our chief money crop, we cannot hope for any unusual prosperity," Mr. Roebuck said. However, he did make it plain that it was a fine country to live in.

ed was continued under prayer for judgment.

Pleading not guilty in the case charging him with disposing of mortgaged property, Dennis Holliday was adjudged not guilty.

Garfield Manning, charged with removing crops without due notice, was sentenced to the roads for a term of two months. The road sentence was suspended upon payment of a \$25 fine and the costs of the case. Manning appealed and bond in the sum of \$100 was required.

Entering a plea of guilty through his attorney, James Newsome, of Durham, in the case charging him with drunken driving, F. G. Morgan was fined \$75, taxed with the costs and had his driver's license revoked for one year.

Charged with non-support, Joseph Harrell was directed to pay the sum of \$8 a month during the next six months for the benefit of his child, and reappear at the end of that period for further judgment.

In a civil action, Slade-Rhodes and Company against W. A. Burnett, the court granted a judgment in the sum of \$162.88 with interest from June 1, 1938, to the plaintiff. In a second case against Burnett, the plaintiff, Slade-Rhodes and Company, was granted a judgment in the sum of \$51.03 with interest from June 1, 1938.

Mass "Peanut Push" Planned For Latter Part of January

Without benefit of circuses or baseball games, Uncle Sam's 30,000 peanut growers expect during the week of January 23-29 to entice American consumers into eating 250,000 tons of peanuts—approximately five pounds to every man, woman and child in the nation. This mass "peanut push"—officially known as National Peanut Week—is designed to move the largest crop ever produced—over 1,611,600,000 pounds. Main force in moving this mountain of

lieved in some quarters that she will not be allowed to do so.

British airmen this morning staged one of the most intensive air raids of the war against invasion points along the Channel, the explosions jarring the land across the water. The RAF airmen are now believed on a daring mission to strategic points in Italy, and losses in the Ruhr Valley and at other important centers have been admitted by the Germans. Heavy blows have been dealt the Italian fleet this week, and Britain is apparently gaining strength in the battle of the air. The wrecking of one of the largest munition factories in Czechoslovakia on Christmas Eve has been admitted by Germany.

In Libya, the British, meeting with no stubborn resistance by the Italians, are continuing their drive against Tobruk, main Italian port. A high spot in the news in Washington as it relates to the war was announced today when it was proposed to permit British warships to enter American shipyards for repairs.
