

Canada Takes Steps To Curb Inflation And Create Bonuses

People Must Face Problem of Sharing What Is Scarce

Ottawa, Canada — "All goods and services sold in Canada are to be placed under a general price ceiling beginning November 17th, Prime Minister Mackenzie King announced recently. Wages are also to be stabilized. "Henceforward no employer in Canadian industry or commerce may, without permission, increase his present basic wage rates," the Prime Minister said. And after November 15 a cost-of-living bonus must be paid by all employers. This bonus is to be in accordance with terms specified by the government order and adjusted to the prevailing cost-of-living index.

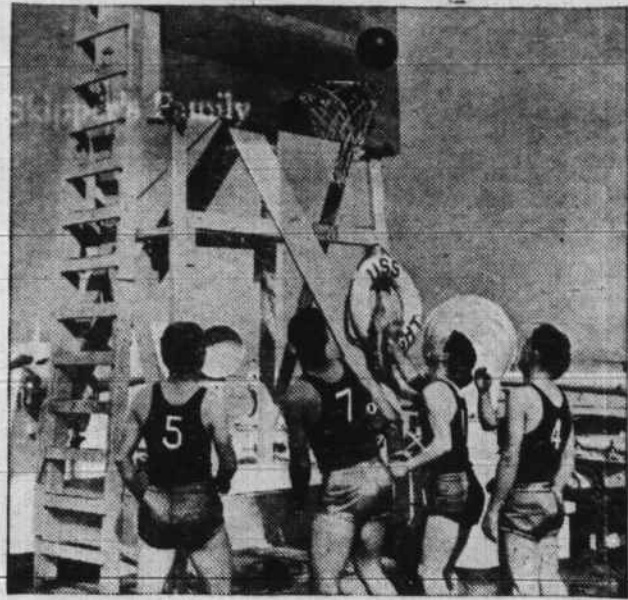

The price control plan will be administered by the Wartime Prices and Trade Board. The wage control plan will be administered by the National War Labor Board. The plan was described by the Prime Minister as "an experiment hitherto untried on this continent and perhaps, having regard to its breadth and variety, hitherto untried by the will and consent of any free people anywhere."

"In the present struggle," the Prime Minister said, "we expect this year to be devoting some 40 per cent of the national income to the prosecution of the war. It stands to reason that all the goods and services we are accustomed to enjoy in peacetime cannot be provided when only a little more than half our energies can be spared to provide them. Most goods and services are becoming increasingly scarce and will become scarcer still. We must face the problem of sharing what is scarce. If we let prices rise unduly, we know what will happen."

The Prime Minister pointed out that rising prices unless controlled impose an unfair hardship on those with small incomes and endanger the economic war effort by creating confusion and uncertainty in industry and trade. They also, he said, tend to produce inflation with all its disastrous wartime and post-war consequences. For all these reasons, he said, "the Government has decided that hereafter prices must be controlled more vigorously than they have been during the first two years of the war." The policy of controlling the prices of individual commodities when and where necessary which was followed during the first two years of the war, is no longer considered adequate to meet "the needs of today."

"The upward trend of prices," the Prime Minister said, "has become too widespread and powerful to be checked adequately by controlling the prices of a few commodities. To continue to attempt to control the rise in prices piecemeal, might only serve to augment the very evil it is desired to avoid, by occasioning through fear of the future, a precipitate rise in the prices of those commodities which are not already controlled. The problem is a general

NAVY COURTMEN PRACTICE BASKETBALL ON SHIPBOARD

Perfect physical fitness is required of sailors in the U. S. Navy and Naval Reserve. Excellent athletic facilities are provided both afloat and ashore.

Pictured above are bluejackets on the aircraft tender U.S.S. Wright holding basketball practice on shipboard. Almost every ship in the U. S. Navy has its own basketball team. Rivalry among

the crews of the various craft runs high. In addition to basketball—football, baseball, boxing, bowling, wrestling and tennis all rank high as sports with Uncle Sam's sailors. Organized intrafleet competitions are held for most sports. Trophies and individual awards usually are presented to the championship winning teams and players.

This Week In Defense

Air

The War Department announced the present 54-group combat plane program is being expanded to provide organization of 84 combat groups—a virtual doubling of Army air strength. The new program calls for an increase in Air Force enlisted personnel to 400,000 by next July.

Navy, Army

The Navy launched the submarine Haddock and commissioned for active service the aircraft carrier Hornet and the destroyer Bristol. OGD Director LaGuardia made available through local defense councils a description of the entire Naval program in a report "The Progress of the Navy."

The Army awarded contracts for the construction of 56 more USO recreation buildings, bringing the number under Contract to 107. Deputy OGD Director Gill issued a report to local defense councils—"The Progress of the Army"—giving detailed information on all phases of the Army defense program.

Selective Service

Selective Service Headquarters completed arrangements to classify Army men with mechanical skills before they are discharged so they may be immediately employed in defense industry. "Referral offices" operated by the U. S. Employment Service in each camp will interview each man to give him specific advice as to where he can find work.

problem and it calls for general treatment. It has spread just as the war has spread."

Full details of the policy are to be made public later, the Prime Minister said. He concluded, "The policy of control as it affects industry, commerce, agriculture and labor, demands a degree of restriction to which Canadians, hitherto, have been quite unaccustomed. It will demand qualities of self-discipline and self-control. It will need, as it deserves, the whole-hearted support of everyone who has the well-being of his fellow-citizens at heart. . . . By its policy the government hopes to avoid the fears, the sense of insecurity, the suffering and the profiteering which the inflation of prices inevitably brings in its train. The measures now being announced should help, in the facilitating of the war, and after the war, finance recovery and reconstruction."

Parents Are Urged To Care for Health Of Their Children

Hundreds of Children Found To Have Defects That Can Be Remedied

By JOHN W. WILLIAMS
County Health Officer

In the examinations of pre-school and school children made by members of the Martin County Health Department hundreds of children have been found with remedial defects every one of which, in our opinion, is or will affect the well being of the child so afflicted in his school work or general health.

A written notice has been sent the parents of these children calling their attention to these defects. In the majority of the cases nurses have called at the homes to explain the case in detail.

Up to this fall a great many of the parents have given lack of finances as the excuse for not remedying the condition and promised that when able they would act.

This fall we have been lucky to have tobacco sell for forty cents; cotton for sixteen; peanuts for four, and cotton seed fifty dollars a ton.

Most every farmer interviewed states that he has paid debts and has some over. Why not give the children crippled with defects that can be corrected a chance? Why tolerate eye strain when glasses will save eye sight, school days and even health? Why allow tonsils full of pus to continue to poison the entire system? Why not save those teeth that can be saved? If eye, throat and teeth conditions are responsible for more than fifty per cent of the army rejections, isn't that a pretty good sign that the condition existed for some time before he reached the draft age. To prove it all you have to do is to examine our children in the first three grades in school.

We believe it is money well invested to have the family physician examine the child to see if he agrees with our diagnosis. That will cost about two dollars. If tonsils have to be removed it will cost from \$10 to \$25. In cases of teeth and eyes we do not believe the cost will run so high. So you will see we are not talking in thousands of dollars; we are talking in less than fifties and we believe the children are worth it and while we are able, now is the time to act—See your doctor now!

The trend in settling life insurance policies is away from lump sum payments in favor of payments to the beneficiary over a period of years. More than one-third of a billion dollars of 1940 insurance death benefits were settled in this way, four times the total of only 10 years ago.

Thanksgiving, Hmml!

Little Kay Custer makes sure of her Thanksgiving dinner by clung tightly to a hefty Rockingham turkey, one of the half million birds being glorified in the annual Rockingham Turkey Festival at Harrisonburg, Va.

One of the most frequent instructions a sailor in Uncle Sam's Navy receives is the command, "Write to your parents often, at least once a week."

EXECUTOR'S NOTICE

Having qualified as executor of the last will and testament of Alexander Peele, deceased, late of Martin County, North Carolina, this is to notify all persons having claims against the estate of the said deceased, to exhibit them to the undersigned of Williamston, N. C., R.F.D., on or before the 24th day of October, 1941, or this notice will be pleaded in bar of their recovery.

All persons indebted to the said estate will please make immediate payment.

This the 24th day of October, 1941.
EPHRAIM PEELE,
Executor.

Clarence W. Griffin, Atty. o24-6t

AFTER 40—TO ENJOY LIFE MORE GIVE LIVER BILE FLOW A BOOST

Start Tomorrow Morning and Keep This Up For 30 Days

Normally the liver should discharge about a quart of digestion-aids bile juices a day. If doesn't—a scanty flow—may mean Sick Headaches, so-called Biliousness, Poor Digestion, with that half-sick, tired, all-gone feeling and most probably Constipation.

There's no need to take Calomel or other risky drugs, just take a little daily dose of that world-famous Kruschen Salts—half a level teaspoonful in a glass of hot or cold water about half an hour before breakfast. This rouses the flow of bile with its gentle bowel action. Try it for 30 days and you too may shake off that "run-down" feeling and get a real "lift". But don't start unless you are willing to keep it up for 30 days. If then you do not feel 100% better get your money back. Clark's Pharmacy.

NOTICE of TOWN TAX SALES

I, L. U. James, tax collector for the town of Williamston, County of Martin, State of North Carolina, have this day levied on the following tracts of land, and will sell same at public auction, for cash, at the courthouse door in Williamston, North Carolina, on Monday, November 10, 1941, at 12 o'clock noon, for taxes due and unpaid for the year, 1940, unless said taxes, penalty and costs are paid on or before that date. A charge of \$1.50 to care for costs in handling the sale are to be added to each of the amounts shown.

This the 7th day of October, 1941.
L. U. JAMES, Tax Collector.
Town of Williamston.
