

Williamston "Martins" Open Basketball Season Here On Sunday With Sanford Spins

Initial Affray Will Begin At Three on Sunday Afternoon

Both Quints Expected To Present High-Scoring Attacks

The 1941-42 basketball season will get underway with a bang on Sunday afternoon when a revamped Williamston Martin team will tangle with a strong Sanford squad in the local high school gymnasium. The affray is scheduled to begin promptly at three o'clock.

The Spinners will bring a squad studded with outstanding stars here Sunday afternoon. Long recognized as a power in their section of the State, their roster includes Wayne Harris, former High Point College athlete, whose deadly eye and superb guarding placed him on All-Southern teams for three years. Continuing in the semi-pro ranks, Harris is the sparkplug of the visitors and has rated much mention by the sportswriters of that section.

Included on the Spinner roster are four former N. C. State College court stars, and also Charlie Ruark, who played with the University of Georgia, and Cooper, of Elon. John and Sam Womble along with a set of high-scoring twins, Joe and Jim Mills, virtually "set the world afire" during their playing days at State College, and are now even better to give their team unlimited strength in the scoring department. All of these men are stand-outs in semi-pro basketball and will offer the Martins one of their stiffest games of the current season.

The Martin line-up lists four of last year's regulars, with the addition of three others who are expected to bolster their attack both on offense and defense. "Pappy" Diem, Fenner Wallace, "Big Leaguer" Beard and Jack Manning are back in harness, while Hack Gaylord, Oscar Bie and "Shorty" Corey, Jamesville's clown of the court, are the newcomers.

Lil Artie Diem, with his accurate and lightning-like passing, will probably pair up with the "Big Leaguer" to offer fans of this community an exhibition in tricky ball handling which will compare with the best traveling teams. Oscar Bie, well-over six feet, has already proven that he meant business in retrieving rebounds, which has been the Martins' greatest weakness in the past. Hack Gaylord, who can give a good showing in any sort of athletic contest, returns to the Martin fold, after playing with the Windsor Rebels last year, and along with the ever-steady Fenner Wallace, is expected to give the sterling brand of ball during the entire season. Rounding out the squad, Shorty Corey and reliable Jack Manning will see plenty of action.

RED HEAD

Basketball fans of this section are in for a big treat when the Martins will entertain the All-American Red Heads here on Christmas day. This road team has the reputation of being the best girls' team in the country, and lists a number of nationally known stars.

Miss Beth Lively, pictured above, is beginning her second season with the Red Heads. She hails from Oklahoma, is five feet eleven inches, and is rated an unusually fancy ball handler. Not bad on the eyes, either!

Arms Production Is Taking Big Percent

One-fifth of the total current output of U. S. goods, it is estimated, is now accounted for by armaments production; and the proportion is rising. The Federal Reserve Board's over-all index of industrial production for October stood at 164—almost two-thirds again as much as the 1935-39 average (taken as "100"). Thus, even if one subtracts all the arms production, the nation's activity in turning out peacetime consumers' goods—despite multiplying curtailments—would rate around 132 per cent of that 1935-39 average. One year ago the over-all index stood at 130.

A. C. C. Quint Will Play Here Monday

In the first meeting between the Martins and Sanford, which was held there last Wednesday night, the Spinners came out on the big end of a wild and woolly contest, 80 to 50.

Neither of the teams stressed guarding in any degree, and, despite the fact, an unusual number of sensational shots were made by both. Shorty Corey, usually offering his opinion of a high-pressure "clown," evidently took the night off, as he led the Martin attack with fifteen points, while Pappy Diem followed with an even dozen. For Sanford, Jim and Joe Mills, were the leaders. The twins who are former State College stars, scored 42 of the 80 points, Joe counting 23 and Jim getting 19.

Martins Lose To Spinners, 80 to 50

On Monday night at 8:00 o'clock in the local high school gym, the Williamston Martins will mix it up with Atlantic Christian College, of Wilson.

Always ranked high in college circles, the A.C.C. quint will bring a formidable outfit here and the Martins will have to display a sparkling attack to hold these collegians in tow.

First "Colorized" Autos Are Made

Ever since the 1942 model cars began blossoming forth early this fall, most of them dolled up with even more shiny chrome trim than they sported the year before, motorists have been wondering what would happen when the inevitable OPM ban on "bright work" was handed down. The ban doesn't go into effect until December 15th, but the first answer to this question came last week in Toledo, where the nation's first "colorized" but chromeless cars rolled off assembly lines. After months of experimentation, company engineers had found a way to replace chromium on grilles, hubcaps, trim and door handles with color that contrasts with that of the body panels. Manufacturers heartily approved the bright work ban, and predicted that use of color instead of the more glittering varieties of decoration would have a profound influence for the better on future automobile design.

Wool

Because of a smaller carry-over and an estimated increase in domestic consumption, the 1941-42 Argentine wool export surplus is expected to drop 10 per cent under 1940-41.

Navy's Sidelights Uncovered on the "North Carolina"

One Salvo from the Battleship Guns Costs Only a Mere \$23,750.00

(Written on the U.S.S. North Carolina, Somewhere at Sea and reprinted by permission from the Daily Mirror.)

That no matter what you think about the superior officer who barks a command at you—you will never get into trouble if you remember the most important word in any tar's dictionary, to wit: "Obey" . . . And the "proverb" every officer or enlisted man has on the tip of his fangs: "Growl you may—but go you must!" . . . The Navy never calls newcomers "rookies" . . . They are "Boots" . . . The Navy has jilted its long famous recruiting poster slogan, "Join the Navy and See the World" . . . It is now: "Join the Navy and Serve Your Country" . . . The reason they call a battleship "she": Because she carries a lot of paint to keep up her appearance, she always has a crowd of sailors around her and she makes a heluva lotta noise in an argument" . . . Secretary of the Navy Knox (he is 67) is the first secretary to guide a submarine while it was submerged.

Our sailors like their women tall and willowy. They are not fussy whether they are blondes, brunettes or redheads—according to a recent poll. . . . American sailors' pay is said to be the highest in the world. Some have heard that Brazilian officers are paid taller wages than any navy's. The Navy code books are bound in lead covers so that in event of capture by an enemy—the books can be tossed overboard and sunk . . . Sailors call Naval Reserve Officers "met-almen" because "they have silver in their hair, gold on their sleeves and lead in their pants!" (Who me?)

There are sixteen American Indians in the U. S. Navy . . . The reason the Navy is reluctant about accepting draftees is that it takes more than a year, sometimes two, to train landlubbers for naval warfare . . . A recruit is given an outfit free. It costs the Navy \$118 . . . After that outfit wears out the sailor has to pay . . . The legend that sailors pay from five to eight cents per pack for ciggies is true only when their ship is on the seas . . . Midshipmen at Annapolis are not permitted to chew gum . . . And not only that, but get this . . . When they enter the Naval Academy—they are handed a condensed version of Emily Post's book of etiquette, and they have to study it . . . What! No duking? Fevensakes.

The over-age destroyers we gave England had the modern bunks instead of the old fashioned hammocks. But the British put back the hammocks because the bunks made them seasick! . . . Tip to newspapermen and other writers: Sailors, tars, seamen and bluejackets will like you a lot more if you call them anything but gobs . . . Just as policemen prefer being called officers instead of cops . . . California, New York and Texas contribute more men to the Navy than the rest of the nation.

Doctors on board are always called surgeons . . . The church colors are the only colors that may be flown over the national ensign . . . That 19-gun salvo (every gun on the ship) costs Uncle Samson a mere \$23,750 . . . The great battleship, like a real champion—didn't blink longer than half-a-second and then proceeded on its graceful way . . . Captain O. M. Hustvedt and his Executive Officer, Commander A. S. Shepard, are exactly the kind of American naval officers you always imagined—dignified and distinguished gentlemen.

NOTICE OF SALE

Under and by virtue of the power of sale contained in that certain deed of trust executed by S. R. Bullock and wife, Martha Bullock, to the undersigned Trustees, dated the 10th of April, 1939, and of record in the Register of Deeds Office in Book X-3 at page 288, to secure certain notes of even date therewith and the stipulations in said deed of trust not having been complied with and at the request of the holder of said

GOPHER GIANT - - - By Jack Sords

URBAN ODSON GIANT TACKLE OF THE MINNESOTA GOPHERS

ODSON IS SIX FEET, THREE INCHES AND WEIGHS 247

notes the undersigned Trustees will on Saturday, December 20th, offer for sale to the highest bidder for cash in front of the Courthouse door of Martin County at 12 o'clock Noon, the following described land:

A certain tract of land in Martin County, Williamston Township, North Carolina, adjoining the lands of G. W. Blount and others and described as follows: A tract of land in Williamston Township, Martin County, N. C., on the Northeast side of the McCasky Road, adjoining the lands

of George W. Blount, Mrs. Bettie C. Gurganus, the Hassell land, Will Jones, Eli Ray and the McCasky Road, containing seventy (70) acres more or less, and being the same land deeded to John D. Simpson by deed of record in the Public Registry of Martin County and to which deed reference is hereby made for a more definite description. It being the same premises now accepted by S. R. Bullock and wife, Martha Bullock, and conveyed to Martha Bullock by H. G. Horton and Wheeler

Martin, Trustees. This the 17th day of Nov., 1941. WHEELER MARTIN, Trustee, n21-4t H. G. HORTON, Trustee.

NOTICE OF SERVICE BY PUBLICATION

North Carolina Martin County. In The Superior Court. Before the Clerk.

Millie Barrow White and husband, D. W. White; Sudie Barrow Moore and husband, John Moore; Madeline Barrow Jones and husband, March Jones; Flora Barrow Overton and husband, Irving Overton; Bessie Barrow Brooks and husband, Aldustus Brooks; Nicodemus Barrow, single; and Mary Barrow, widow, vs. Annie Barrow Gordon.

The defendant above named will take notice that a special proceedings entitled as above has been commenced in the Superior Court of Martin County for the purpose of partitioning the lands of the late J. K. Barrow in Martin County, in which the defendant owns an interest, and the said defendant will further take notice that she is required to appear before the Clerk of the Superior Court of Martin County, in Williamston, N. C., within ten (10) days after the completion of this notice, and answer or demur to the complaint or petition in this action, or the plaintiffs will apply to the Court for the relief demanded in the petition.

This the 4th day of Nov., 1941.

L. B. WYNNE,

Clerk Superior Court Martin County.

HELP LIVER BILE FLOW FASTER —

For the next 30 days follow this simple recipe to stir up the flow of these important digestion-aiding bile juices and see if you too—after you have finished the first bottle—cannot say that you "feel ever so much better."

Here's all you do: Get a bottle of Kruschen Salts (a famous blend of six salts—not just one) and take half a level teaspoonful in a glass of water (hot or cold) half an hour before breakfast. This rouses the flow of bile with its gentle bowel action. Keep this up for 30 days and you too may shake off that "all-in", sour feeling, sick headaches, so-called Biliousness, Poor Digestion and most probably Constipation. But don't start unless you are willing to keep it up for 30 days. If then you do not get a real "kick"—feel 100% better—get your money back. Clark's Pharmacy.

THIS CHRISTMAS, GO ELECTRIC . . .

---but early!

THE CHRISTMAS gifts you give this year . . . will they be loved in May as they are in December? You know they will if you Go Electricity!

For Electric Gifts are presents with a future . . . their beauty and economy fit them to a gift list that must be grand on a budget that's not! Day in and day out they'll garner praise instead of gathering dust. Their usefulness and saving ways will keep your Christmas wishes fresh!

But here's a further word to the wise. Because many Electrical Appliances use the same strategic raw materials vital to national defense, there exists the possibility of a shortage in Electrical Appliances.

This possibility means two things. First, that it's prudent to select your Electrical Gifts NOW while assortments are complete. Second, there may be an extra reason they'll be cherished possessions!

SAVE 10 TO 15% ON GAS! WITH GENERAL MOTORS' PROVED

NO CLUTCH TO PRESS!

NO GEARS TO SHIFT!

*Optional at Extra Cost

MOST EVERYONE knows Hydra-Matic Drive* is a work saver. But few realize that it's a gas saver, too. Here are the facts: Hydra-Matic is engineered with four speeds forward. That permits slower engine speeds. In fourth speed, for example, 1,000 engine revolutions will propel your Olds Hydra-Matic 2,130 feet as against 1,700 feet for a similar car with standard transmission. Hence, you get more mileage on gas—or, conversely, save gas on any given trip. Then, too, Hydra-Matic's automatic shifting prevents lags and consequent waste of fuel. The net result—gasoline savings of 10 to 15 per cent. Why not drive the easy Hydra-Matic way—in a new Olds B-44—and be money ahead on gas!

DEFENSE COMES FIRST WITH OLDSMOBILE!

Oldsmobile's great productive capacities are devoted first to the manufacture of artillery shell and airplane cannon. Remaining facilities are employed in producing, in limited number, Oldsmobile's new B-44—a car that's sparsely-styled and stamens-built. Thus, Oldsmobile contributes both munitions and materials to national defense.

B-44 BETTER LOOKING, BETTER LASTING, BETTER BUILT THAN ANY OLDS IN 44 YEARS!

YOU CAN ALWAYS COUNT ON OLDSMOBILE IT'S QUALITY-BUILT TO LAST!
