The wedding took place at the home of the bride's parents.

The house was decorated in evergreen. The improvised altar, arranged before the mantel, was banked with evergreens and ferns.

Mrs. Wheeler M. Martin, of Williamston, played the wedding music. Mr. L. Bruce Wynne and Mrs. James H. Smith, of Williamston, sang as a duet, "Love Here Is My Heart," and Mrs. Smith sang "Because." The veil of illusion was draped from a coronet of seed pearls forming orange blossoms. She carried an arm bouquet of roses and orchids. The ceremony was performed by the pastor of the bride, Rev. Millard R. Brown.

Mrs. Early, mother of the bride, wore a blue dress trimmed with sequins, with a shoulder corsage of pink roses. Mrs. Critcher, mother of the groom, wore a blue dress with nail head ornaments, with a shoulder corsage of Talisman roses.

HINTS FOR HOMEMAKERS

By Irene James, Home Service Director, Virginia Electric And Power Company

BEGIN THE NEW YEAR WITH FOOD CONSERVATION

"Happy New Year" can still be the greeting as we hang the "1942" calendar upon the wall.

We should rejoice that we are Americans and resolve that not one day in the entire year will we be guilty of any waste, particularly in foods and those health giving substances with which they are possessed.

After the Holiday Feasts the storage of leftovers will be many. The turkey platter must be looking rather forlorn but if you have been careful to salvage the scraps of meat and stuffing much favor will be won by carefully disguising them into delicious croquettes and individual meat loaves, or pies.

From some of the carefully saved slices of ham and poultry the following is tempting:

Plantation Shortcake

Cover bottom of shallow baking dish with freshly made corn bread cut in triangular pieces. Then cover closely with a layer of cold sliced cooked ham and a layer of poultry. Pour over this one can of undiluted mushroom soup or thick white sauce. Place in a 400° oven until boiling hot.

Corn Cake

1-4 c butter
1-4 c sugar
1-1-3 c milk
1-1-4 c yellow corn meal
1-1-4 c flour
4 tsp baking powder
1 tsp salt
3 egg whites
Cream butter, add sugar gradually; add milk alternating with dry ingredients mixed and sifted. Beat thoroughly; add egg whites beaten stiffly. Bake in two greased shallow pans. Bake 375°—30 minutes.

New Turkey Pie With Cheese

3 tsp butter
2 tsp chopped onion
1-2 c sliced mushrooms
3 tsp flour
1-8 tsp pepper
1-2 tsp salt
2 c canned chicken broth
2 c diced cooked turkey
2 c cooked vegetables
Melt butter, add chopped onions, sliced mushrooms and cook 5 minutes. Stir in flour, salt and pepper and when well blended add chicken broth, stirring constantly over low heat until mixture thickens. Add turkey and cooked vegetables. Pour into a 1-1-2 quart casserole and cover with cheese nut pastry pressing edges to the rim of the dish. Bake 450°—15 to 20 minutes (until crust is brown).

Cheese Pastry

1 c sifted flour
1 tsp baking powder
1 tsp salt
1 c ground nuts (Brazil preferred)
1 c grated American Cheese
1-4 c milk
Sift flour, baking powder and salt. Stir in the nuts and grated cheese. Moisten with milk. Roll out on floured board cutting in desired shape for topping pie.

Chicken or Turkey Ring

2 tsp gelatin
1-2 c cold water
2 c boiling water
1-2 c sugar
1 tsp salt
1-2 c diluted vinegar
1 lemon, juice
2 pimientos, shredded
2 c chicken, diced
3 hard cooked eggs
Soak gelatin in cold water, 10 minutes. Dissolve this in boiling water. Add sugar, salt, vinegar, lemon. Stir until thoroughly dissolved. Cool. Add pimientos, chicken, egg. Pour into buttered mold. Chill 6 to 12 hours. Serve with head lettuce and French dressing.

Kingdom Invaded

The Rance of Sarawak listens to the radio for the latest war bulletins. Japanese troops are reported to have gained a foothold in at least two areas in the oil-rich protectorate of Sarawak on Borneo Island. British forces blew up oil wells before withdrawing from these points. The Rance is living in New York at present.

Anti-Knock Gas Properties Lower

Anti-knock properties of gas you buy at the filling stations may be somewhat lower, because military machines, especially airplanes, come first in tetra-ethyl priorities. They need high and super-high-octane fuels; that for planes runs up to 100-octane. Refineries have agreed to a voluntary plan for lowering their regular 75-octane brands to about 72 1-2, though oil industry technicians claimed that reducing it to 70, as first proposed by OPA, would mean a considerable reduction in miles-per-gallon, besides less knock-protection. In line with the general emphasis on careful use of money and materials of all "strategic" kinds is the tip to motorists to keep a closer check on car mileage and knock performance, and have the garage man make the simple adjustments in ignition timing that may be needed to get maximum performance out of the kind of fuel that's available.
