

Herbert C. Bonner Praises The Great Loyalty of Friends

Congressman Says He Feels Grateful for Enormous Vote Given Him

Washington, N. C.—"I feel most humble and grateful for the enormous vote of confidence given me in Saturday's primary," Congressman Herbert C. Bonner said Monday, on his departure for Washington, to catch up with the business of his office at the Capitol.

"I wish I could see everyone who helped me, and shake their hands," he said. "But since I cannot, I will do the next best thing and thank them through their home papers." "I shall never forget the loyalty of the many friends in all the counties who did such fine work for me."

"I want to see everyone of them personally and to thank them for the great effort they made for me. All that was done for me was done through friendship, which makes it all the more dear to me. And it is something to make me strive the more to do my level best, and I pledge to every county and every section my wholehearted efforts in their behalf."

Community Raises \$119.79 For Cancer Control Movement

Judge Robt. Coburn Calls Seven Cases In The County's Court

(Continued from page one)

90 days, the court suspending the road term upon the condition that the defendant pay a \$50 fine and the case costs. The court also ordered that no driver's license be issued the defendant for one year from date. Notice of appeal to the higher court was given and bond in the sum of \$100 was required by the court.

The 25th Week Of The War

(Continued from page one)

The War Front

A Navy communique reported U. S. submarines in Far Eastern waters sank two Japanese cargo ships, probably sank a third, and damaged one heavy cruiser. The Navy also announced the U. S. Destroyer Blakely reached an undisclosed port with 10 of her crew missing and six injured after being torpedoed in the Caribbean area.

During the week the Navy reported one large, 11 medium-sized and four small United Nations merchant vessels (11 of U. S. Registry) and a U. S. trawler were torpedoed or sunk by shellfire in the Atlantic and Caribbean areas. Survivors were landed at East Coast and Caribbean ports. The State Department said the U. S. is abiding by the rules of the Geneva Prisoners of War Convention, and the German, Italian and Japanese governments are apparently doing the same.

Civilian Supply

The WPB reported more than 400,000 scrapped automobiles from auto graveyards yielded 350,000 tons of scrap metal during April approximately 200,000 tons more than the average monthly yield for 1941. The Board said American motorists have in the tires and the works of their automobiles a rubber reserve of about 1,200,000 tons.

The WPB said a Victory Safety razor with a plastic handle, a zinc cap, and a zinc or plastic guard will go into production in a few months and will be offered to the public when the present supply is used up. The Board announced it invites specific inquiries from manufacturers as to how they may employ casein, a basic chemical made from skimmed milk, as a substitute product for scarce chemicals. Production of all musical instruments except violins, cellos and some guitars was halted. Piano manufacturers will turn out gliders, organ factories will make blowers for link gliders used in ground training of pilots, and factories which made French horns, trombones, trumpets, etc., will manufacture precision instruments for airplanes.

Rationing

Price Administrator Henderson said there will be more rationing of essential articles, but the country is a long way from a complete rationing system. He said there will be additional shortages in power, fuel reserves and transportation. WPB Automotive Division Chief Kanzler reported nationwide rationing of gasoline would help relieve potential rubber and automotive replacement parts shortages. Board Chairman Nelson said administrative difficulties will make it impossible to institute such gasoline rationing before July 1. The OPA reported the June ration quota for new passenger automobiles is 40,000 plus carryover of unused quotas from March, April or May.

War Bond Sales

The Treasury said war bond sales from May 1 to May 29 totaled \$615 million, while the quota for the month was \$600 million. April sales were \$536 million. The June quota is \$800 million and the goal will be raised to \$1,000 million in July. The Treasury said 1,000,000 retailers throughout the country are being asked to sell war bonds and stamps equaling the value of four per cent of total merchandise sales in July, or approximately \$160 million worth.

Labor Supply

The War Manpower Commission said it is considering a plan to bind management in critical labor areas to hire workers with certain skills through the U. S. Employment Service, in order to eliminate "priced" areas in such areas. The Commission also said if workers refuse to accept suitable employment in war industries, "without reasonable cause," the circumstances will be referred to the Selective Service System for consideration in connection with any request for occupational deferment.

War Shipping Board Confers on Victory Ships

C. P. Phonphoto

Using ship models to explain their points, members of the War Shipping Board are shown as they conferred in the office of the Board's Administrator in Washington. Left to right: Lewis W. Douglas, deputy administrator; Rear Admiral Howard L. Diskery, deputy administrator and vice chairman of the Maritime Commission, and Emory S. Land, administrator, and chairman of the Maritime Commission.

PRIVATE PEANUT GOES TO WAR

I'm Private Peanut and I'm plenty tough! My hitting power is in terms of oil. From 12,000 pounds of peanut oil, can be made 3,000 pounds of soap and enough nitro-glycerine to fire a 16-inch gun on a battleship. One blast from that gun sure could mess up a lot of Japs! Many other things needed by our fighting men and civilians can also be made from peanut oil, such as cooking fats and oleomargarine. Huge supplies of these things will give the United Nations the power to lary the hatchet—in the Axis' neck. Uncle Sam has asked farmers to mobilize five million acres of boys like me. And they're doing it!

Large Number Boys And Girls Graduate In County's Schools

Farm Life—Boys: Verlin Griffin, B. F. Lilley, Jr., E. H. Manning, Jr., Alton Peale. Girls: Hazel Corey, Della Lee Lilley, Elizabeth Manning, Faresse Manning, Mary Manning, Martha Roberson.

Oak City—Boys: H. P. Flemming, Burnice Wynn, Leroy Roberson, William Mallory, James Hardy Council, Rufus Manning, Zesley Bryan Haislip, Earl Miller Harrell, Heber Smith, Jr., Bill Tyson, Spencer Harrell. Girls: Marie Davis, Sarah Grimes, Dorothy Briley, Pauline Smith, Sally Bett Rawls, Virginia Stevenson, Eloise Christenberry, Edna Alexo, Joyce Stokes, Edna Earle Warren, Mary Hux, Ruby Pitt, Mildred Cannon, Irene Davenport, Margaret L. Hux.

Strict System For Rationing Gasoline Scheduled for July

(Continued from page one)

porary rationing plan, "C" cards will have 96 coupons. Holders of "C" cards will also get an "A" card. A new classification is set up for trucks. Light trucks will be classified as "S-1" and will be entitled to 96 coupons. Heavy trucks will be "S-2" and will get 387 coupons. There may be an expiration date also on the cards covering these two classifications.

Before cards are awarded, motorists will be required to answer an extensive questionnaire on which their future supply of gasoline will be determined. Registration is expected to take place the latter part of June at the nation's schoolhouses.

In 1918 Marines fought against the Germans at Belleau Wood and Chateau Thierry.

Tops in Field

Official U. S. Army Signal Corps Photo
Burt L. Richards, 25, of Dallas, Tex., who has been seven years in the U. S. Army, has reached the point where he can go no higher in non-commissioned rank. He is a warrant officer stationed with the Caribbean Defense Command in the Panama Canal Zone. Richards has been secretary to five generals.

Mosquitoes Plague Local Residents

The town's mosquito control program while marked by progress in some quarters is far from complete, local residents declaring that the pests are still swarming in great numbers.

Prolonged dry weather has been favorable for breeding, and the workers have not had time to extend the control program to every nook and corner. Many breeding places have been eliminated, but in some cases the task is too large for the present program to include. Many property owners have cooperated in the work, but there are some who have not cleaned out their drains or cleared their lots of weeds, brush and rubbish.

Wednesday afternoon the brush cut down on a lot just off White Street by the mosquito workers was fired by Leo Purvis, the size of the fire reflecting the work that had been done. The fire threatened one or two small outbuildings and a home on White Street. The fire department was called when the smoke blocked traffic.

Bins
The WPB order freezing all sales and deliveries of mill stocks of soft-wood construction lumber during the next 60 days means that farmers must depend on lumber now in the hands of dealers.

Ford Bombers Have Buick-Built Engines

Detroit—When Ford bombers leave the assembly lines of the Willow Run plant, they are powered by Buick-built aircraft engines.

This instance of collaboration in the mass production of war material by two of the greatest producers in the automobile industry, was disclosed today by sources close to both companies.

The information was approved for publication by the War Department as an example of the extent to which the car manufacturers have gotten together in the mighty industrial program to beat Hitler.

No indication of output has been made by either organization. Buick recently announced it is a year ahead of production schedules and shipping engines in trainload lots to several plane manufacturers, including Ford.

One of these, a leading West Coast aircraft manufacturer, late reported exceptional performance tests on the Buick engines which exceeded the standards set and elated the test pilots.

Five County Men Are Disqualified By Army

At least five Martin County young white men were physically disqualified for military service at an Army induction center this week. No official report has been received, but five young men reporting for duty earlier this week returned last evening. In the group returning were William Watson, Walter, Jr., of Jamesville; George Harrison, Jr., and Benjamin Barber, of Williamsville; George W. Taylor, Everetts, and William Clarence Taylor, of Robertsonville.

NYA School Graduates Local Girl This Week

Miss Eleanor Brown, local girl, was graduated with honors from an NYA technical school in Charlotte this week. Studying radio code, Miss Brown completed her examinations a few days ago and is now spending a few days here with her parents, Mr. and Mrs. Robert B. Brown, before going to Fort Monmouth, New Jersey, to continue her studies under the supervision of the Army. She plans to leave for her new post next Monday.

Major Naval Battle Reported Raging In Pacific Off Midway

(Continued from page one)

against English objects. In Libya action has been interrupted by sand storms, but General Rommel and his German forces have met with serious reverses, one report stating that he is trying to withdraw.

The defense of India has been bolstered, the British announcing that one of the largest convoys ever to reach India had arrived there safely.

While life and death struggles still rage in the far-flung battlefields, this country is still wrangling over gasoline rationing. President Roosevelt is holding a conference today in an effort to iron out the rationing problem, but during the meantime 100 obstinate congressmen have formed a block to oppose nation-wide rationing.

Two more Allied merchant ships were reported lost today. Two young British sailors, one 15 and the other 17, were survivors of two sinkings. After their ships had been sunk they were picked up by a Dutch vessel and later than ship was sunk, but they survived both attacks.

Things To Watch For In The Future

A coffee-maker of the drip type in which hot water goes up via the handle instead of a center tube... A reverse periscope for cooking ranges, so a housewife can peek on roasts and bakings without opening a stove door... A "shellacless" material suitable for making phonograph records... A special long-handled shovel for fighting incendiary bombs, with a supply of sand packed inside the handle and quickly releasable.

Jeeps Will Turn To Farming After War

An ultra-modern version of the "swords into plowshares" philosophy is the expected post-war conversion of the Army's versatile "Jeep" or quarter-ton reconnaissance car to farming tasks. The U. S. Department of Agriculture has been putting it through its paces in Georgia and Alabama, manufacturers of the rough-and-ready buzz wagon, have received reports from practical farmers who've given it some work-outs. Dr. Carl S. Mundy, of Toledo, used one in a variety of test jobs, including the complete soil treatment of 112 acres, and he reported a gasoline consumption of as low as a half-gallon per acre.

Navy aircraft carriers are the fastest of any big ships, and almost as fast as destroyers.

Bound Over To County Court In Assault Case

Arrested in Rocky Mount yesterday, Willie Moore, colored, was bound over to the county court for trial next Monday by Justice J. L. Hassell here this morning in the case charging the defendant with assaulting Ben Wilson, colored, with a deadly weapon here on last April 4th. Unable to post bond in the sum of \$300, Moore was placed in jail.

Said to have been the climax to a drunken brawl, the knife attack almost cost Wilson his life. The victim is now able to be out.

Fort Bragg, America's largest post, has ten motion picture theatres maintained by the War Department with a combined seating capacity of over 10,000, which present a total of 160 performances a week.
