

# IT'S OUR CHALLENGE FOLKS OF MARTIN COUNTY

Hundreds of our flesh and blood are in the armed forces, and more are going every day. It is estimated that nearly 800 Martin County men are now in the Army, Navy, Marine Corps and Coast Guard. RUBBER is desperately needed to properly equip them with planes, guns, tanks and ships they must have to defeat the Axis.

## Rubber Is Badly Needed—Collect and Sell All in Your Possession

What you can do is very simple: Collect all the old rubber you can find anywhere in your home or around the farm; take it to your nearest filling station or junk dealer, who will pay you 1c per pound for it; and this rubber will go to build planes which will bomb Berlin and Tokyo. Every kind of old rubber is wanted: Old tires, rubber raincoats, old gloves, shoes, old tires and tubes, bathing caps, toys, balls, or anything else made of rubber. This campaign closes on June 30th, when an inventory of the collection will be made. If the amount of rubber turned in is large enough, it may mean some new tires for civilian use but most of all the rubber is needed for the protection of our armed forces. It is our duty to see that the boys of Martin County who go into battle are adequately prepared.

## Save Every Scrap of Old Rubber!

DELIVER YOUR RUBBER TO YOUR NEAREST FILLING STATION OR JUNK DEALER BEFORE JUNE 30TH. EVERY POUND WILL MEAN SOMETHING TO THE BOYS WHO ARE GIVING THEIR ALL FOR US. WE CANNOT EMPHASIZE TOO STRONGLY HOW IMPORTANT IT IS FOR EVERYONE TO DO HIS PART IN THIS DRIVE. THE PRESIDENT REQUESTS IT . . . YOUR FUTURE DEMANDS IT!

## Rubber Is Badly Needed to Win This War — Do Your Part
