

Italy Likely To Get Out of War Before She Is Knocked Out

(Continued from page one) idly, and only suicide awaits the enemy choosing to fight it out. In the air, the Allies are still working on targets on the continent. They were over battered Hamburg last night with 2,000 tons of bombs, the raid being the seventh in six days.

Thirty-Four Men In Walk-Out At Local Plant Last Tuesday

(Continued from page one) else. There was little or no appeal from that order. Today, the laborer has a right to appeal and be heard, but the striker does not stand a chance because his case will not be heard by the federal authorities as long as he is on strike. There was some complaint about the holding tax.

There are only a few of the millions who are paying the tax. Possibly some of them are paying less under the present tax program than they did under the five per cent victory tax plan.

While the strike may have met with approval in some quarters, it came as a surprise to others who are finding it difficult to make both ends meet and yet who continue to do their best because they have fighting sons and brothers on the battlefronts.

Anxious to settle the strike, the company has not called in any conciliator, but the work stoppage will be reported to the authorities if it lasts through next Monday, and then action will be entirely up to them.

It may not seem fair, but any man who returns to work and lies down on the job is to be denied a statement of availability or a release after a hearing is held before a designated authority.

These facts are reviewed here as they relate to the Wage Stabilization Act, and are separate from vagrancy laws and new emergency powers proposed by the State of North Carolina.

When the strike was called last Tuesday, the following workers walked out of the local plant: Booker T. Bridges, David Jones, Charlie Duncan, William Smallwood, Brinkley Bond, George H. Rogers, Austin Cherry, Freeman Bazemore, Lazarus Williams, Moses Smallwood, Jas. S. Bond, Willie Barfield, George Williams, Noah Purvis, Albert Askeew, Paul Griffin, Percy Peel, Joe James, Edgar Miller, Roland Thompson, Sam Latham, Handsome Ebron, John Bond, James B. Williams, Ed Purvis, Tom Rascoe, C. C. Berry, Sam Scott, Matthew Bond, Sam Joyner, Barthonia Bennett, Eugene Bond, John Jones.

In addition to those men ten were absentees when the strike was called. In fairness to the above men, it must be said that all of them did not want to strike, that Geo. Williams, a man who is over 65 and eligible for a pension from the same government that passed the Wage Stabilization Law and who continued to contribute his effort to the war on the home front, and Sam Latham, Barthonia Bennett, Elijah Mitchell, Lazarus "Dummy" Williams and Charlie Freeman reported to the plant this morning and listened attentively to the representative of the Manpower Commission explain the terms of the Wage Stabilization Law.

Disinterested parties, recognizing the prevailing peace that has existed so long here among employer and employee, sincerely trust that all concerned will exercise reason and their best judgment in meeting a situation that can prove serious during these perilous times.

McMillan Addresses Local Defense Corps In Special Meeting

(Continued from page one) "Our hearts are with those boys in New Georgia, in Sicily and on the other far-flung fronts. They are depending on us, and any man who fails to do his full duty at home, in civilian defense, in the shop, on the farm, is betraying those men who are sent to fight. The soldier is like a man who is sent to the bottom of a mine to hold their end of the rope. We must hold our end of the rope in this war, put in a day's work and work a little more and a little harder.

"The Japs swore they would write the peace in the White House, and they came near doing it. The story is different now, but there is yet much to be done. The battlefront extends through the home and to every individual. I feel confident that you in Martin County and this district will not slacken the traces, that you as the ballplayers on third base would fight all the harder to reach home. Remember, it is important to hasten the end for every day of war costs lives and who are we to place a value on human life?"

Mr. McMillan painted gruesome pictures of the horrors, starvation and death in Greece. "Those people are beckoning to us through prison bars," he said, adding that the depressed are raising their heads and saying, "Behold the clouds are now lifting." Is America the righteous nation that will bring peace and justice to those people? Every individual has a part in this war. Rations are not at stake, it is life or death, freedom or slavery, and for myself and my son with the Marines in the South Pacific, I say give me life or give me death."

The director urged the individual to carry on to final victory and to help make sure a lasting peace, for America will have to answer if the peace is lost.

In conclusion, the speaker said, "There is no dividing line between the battle and the home front. All are for one, and one for all and all for final victory and unconditional liamston.

surrender. And when that victory comes if you do your part on the home front you can look back and say I did my best."

Commander John L. Goff was in charge of the meeting and Hugh G. Horton introduced the speaker.

OUR SPECIAL WARTIME TUNE-UP PREVENTS GAS WASTE IN TODAY'S KIND OF DRIVING

GASOLINE is too precious to waste these days. Yet millions of motorists unknowingly are wasting it every mile they drive.

You may be one of them. If your car still is adjusted for high speed driving, or if it hasn't been tuned lately at all, you may be spending too many coupons, too many gallons of scarce gasoline, for the mileage you are getting.

Have it tuned right away for today's kind of driving. Let our factory-trained mechanics adjust it for maximum economy at speeds of "35 and under." Let them check it over thoroughly, from radiator to brakes, to make sure that every factor affecting gas mileage is in perfect condition.

This gas-saving service is available on all makes of cars. It is inexpensive. It's the economical thing to do. And it's the patriotic thing these days when so much depends on our getting all the essential transportation we can for every gas coupon we spend.

Are you doing everything you can for America? Couldn't you buy at least one extra War Bond this month?

IT'S PEOPLE WHO WILL WIN THIS WAR!

IT'S people, flesh and blood, muscle and nerve, men and women joining the armed forces, working on the farms and in the factories and shipyards. It's people, Free People, who will win this war. Mrs. Jones in Bigtown is making the ammunition; Bill Smith in Norfolk is building the ships that will carry that ammunition to Johnny Yank on the firing line. Our mighty tools of war are made by human skills and used so effectively by Ivan and Cedric and Ed and Johnny.

All over America, people are waiting to be taken where their skill and loyalty will help America win this war. It's the job of transportation companies to get them there. Trailways is proud of its share in this job . . . proud of the people it carries . . . proud that it is an important factor in providing wartime transportation.

In 1942 . . . 71,591,588 passengers depended on Trailways for transportation, and 2,822 Trailways buses operated over 171,517,017 miles as Trailways' share of getting people where they're needed to help win this war.

Whatever your skill or ability — great or small — if you are not doing war work, register at your nearest U. S. Employment Service Office — join the PEOPLE who will win this war.
