very little attention. Actually the court has been in session hardly four there were only four persons in the audience, but the bar was fairly crowded with litigants and witnesses.

Proceedings not previously reported follow:

Based on two years' separation, a divorce was granted Josie Howell in her case against Eli Howell.

A divorce was also granted Rufus Edwards against Ruby Edwards on similar grounds.

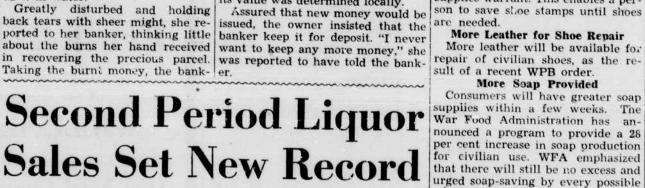

After granting a divorce to Blonzie P. Harrell in her suit against Francis S. Harrell, the court granted the custody of their five-year-old daughter to its mother. The court stipulated, however, that the father could see the child from time to time either at the home of Mrs. J. H. Hopkins or at the home of E. N. Harrell for as long as a day and night at the time, but the plaintiff must have at least two days' notice to have the child ready for the visit. Cost of the action was taxed against the plaintiff, "and the cause retained for further orders relative to support and welfare of the child," the court ruled.

In the case of James E. Smithwick against Josie M. Smithwick, now Mrs. Josie M. Montgomery, the plaintiff asked part-time custody of their child. The defendant was awarded custody of the child, but the plaintiff was given right to visit the child at its home in Wilmington or elsewhere where the defendant may be living at such times as will not cause interference. It was also ordered by the court that the plaintiff is to have custody of the child Local Market Reach coholic Beverages Control Board. Four Districts Over the Top And Several Others Nearing Their Goals

Making a semi-final but incomplete report, D. V. Clayton, county chairman of the Third War Loan drive, stated that a total of \$827,-624.75 of the \$918,000 campaign quota had been subscribed, leaving \$91,-000 to be raised between now and Saturday night of this week. It was pointed out that the period for completing the drive had been extended two days, but the chairman is ar.xious to complete the work within the time first allotted, and he is per cent increase in soap production men and canvassers to exert every effort in the final drive to reach and pass the goal. Allied drives are gaining more momentum in Russia, Italy and in the Pacific, late reports stating that the enemies are withdrawing to points almost unbelievably distant before even considering making a stand

In Italy, the important air base across the boot from Naples, has fallen to the British Eighth Army giving the Allies an ideal opportunity to rush down and overpower Naples. During the meantime, General Clark's Fifth Army has been sweeping the enemy back on its march toward Naples.

In Russia, the Red Army has just about gained its summer objective with no great let-down immediately in sight. The Russians have already crossed the Dnieper at several points, penetrating the western approaches as many as ten miles in some sectors. It was the opinion of military ebservers that the Germans would offer a stand at the Dnieper, but apparently such action will hardly be taken until the Polish border is reached. More than two-thirds of the territor ycaptured and ravished by the Germans is back in Russian hands, but not until great cities were devastated. Few Minor Charges Are Heard By Mayor

A few minor cases were heard by Trial Justice J. L. Hassell in his court here last week.

Charged with being drunk and disorderly, the following defendants were taxed with costs designated: Luther William Respass \$7.50: James J. Neal, \$8.50; Deaton Godard, \$8.50; M. A. Glisson, \$7.50; W. A. Perkins, \$7.50.

Lear Ryan, charged with violating the unemployment compensation act, was sentenced to jail for thirty days, the court suspending the sentence upon the repayment of \$8.50 and \$5.59 costs. A similar case brought against Lilly M. Brown was nol
