

### Superior Court In Final Session Here Thursday Afternoon

(Continued from page one)

Williamston Lumber Company against the VanDyke Furniture Company was settled by agreement, the plaintiff receiving \$1,500.

The case in which J. J. Johnson and Jasper Jones were suing W. R. Banks, taxi owner, and Lloyd Vick, taxi operator, took an unusual turn and was settled by agreement of the plaintiffs receiving \$100 for a dog run down and killed by the defendants' taxi. Defendant Vick repeatedly said anybody owed the plaintiffs anything it was the insurance company. Defense counsel made a motion for the recall of a jury and a mistrial, but the motion was denied and the issues were compromised.

In the case of Guilford Brown against Cherry Johnson, a settlement was noted, the plaintiff being declared owner of certain property. It was also provided in the judgment that the plaintiff was to recover rent in the amount of \$25 up to September 30 and \$5 a week up until December 1, 1945, when the defendant is to vacate the property.

In the case of Ed Hardison against

William Moore, the court ruled that the plaintiff was entitled to possession of certain property, and that the defendant was indebted to the plaintiff in the sum of \$50. The defendant was allowed to remain in possession of the property for sixty days on the condition that he pay \$15 monthly rent.

In the case of Guaranty Bank and Trust Company against Willie Modlin, a motion by the plaintiff for a non-suit was granted.

### Ten County Young White Men Called For Examinations

(Continued from page one)

men has been received for October, and the size of the call for colored men is small. No colored men were called for final induction this month. A fairly large pre-induction call for colored men next month is expected, and a larger pre-induction call for white men is fairly certain, according to unofficial reports heard this week.

#### Spend Week-End Here

Mr. and Mrs. Sam Whitehurst of Bethel spent the week-end here with Mr. and Mrs. Dennis Leggett.

### THE RECORD SPEAKS . . .

The 38th week of travel on the highways in the county this year was without accident, but the 39th, scheduled for review soon, will show a gloomy picture. A year ago, there were five accidents in the county, but they were not very costly ones for human limb and life.

The following tabulations offer a comparison of the accident trend: first, by corresponding weeks in this year and last and for each year to the present time.

Thirty-Eighth Week				
Accidents	Inj'd	Killed	Damage	\$
1945	0	0	0	0
1944	5	1	1	850
Comparisons To Date				
1945	45	23	5	8650
1944	50	24	1	8500

### County Boy Gives Graphic Account Of Arrival In Japan

(Continued from page one)

the big cranes and every thing is destroyed. Our planes have done enough destruction to make it look like there hasn't been any one there in several years. All the dry docks are empty. I think they stopped building ships and started building more midge submarines. I have seen several dozen completed and dozens of others started.

They have very few ships here of any kind. There is one heavy battleship here but the superstructure is a complete wreck. There are several destroyers and landing ships and dozens of tugs. Most of their ships are coal burners. We have three of their subs tied up along side of our repair ships. Two of them are the largest subs in the world.

The few Japs that are left here to clean up seem to have that "so sorry, please," attitude. They work pretty good and salute everyone that passes or bow very low if they are inside a building. When they are working together they act like a bunch of kids frolicking. One of them can take a cart and pull as big a load as a mule.

They tell us we will be here for three or four months and then home. But I don't depend on that too much. I do know it will be wonderful to get back to see the people at home.

#### Firemen Called To River Last Tuesday Afternoon

Local volunteer firemen were called to the oil storage plants near the river last Tuesday afternoon at 5 o'clock when a fence caught fire and burned rapidly in the direction of the Harrison Oil Company pumping station. Employees at the Standard Oil plant saw the fire and they helped bring it under control with three extinguisher charges.

Going down the hill, firemen saw black smoke rising near the oil plants, and were almost certain they had a job on their hands. They learned, however, that the smoke was from a passing train.

#### Series Of Prayer Services Scheduled In October

The series of prayer services scheduled for next week in preparation for the evangelistic meeting beginning in the Christian Church will not begin until October 8-12. A full schedule of places and leaders will appear later. Dr. H. Glenn Haney, pastor of Eighth Street Christian Church, Greenville, will be the guest evangelist.

#### Many Cases On Docket In County Recorder's Court

Between forty and fifty cases are on docket in the county recorder's court. Most of the cases are scheduled for trial on Monday, October 8, it was learned.
