## Be Quick To Treat Bronchitis

Chronic bronchitis may develop if your cough, chest cold, or acute bronchitis is not treated and you cannot afford to take a chance with any medicine less potent than Creomulsion which goes right to the seat of the trouble to help loosen and expel germ laden phlegm and aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes. Creomulsion blends beechwood creosote by special process with other time-tested ingredients to produce a genuine no narcotic. No matter how many medicines you have tried, tell your druggist to call you a bottle of Creomulsion with the understanding you must like the way it quickly allays the cough, permitting rest and sleep, or you are to have your money back. ## PUREBRED HOGS SO SCARCE SALES HAVE BEEN CANCELLED

Some time ago three purebred sales were scheduled but only one will be held, and that one at Rocky Mount on February 14, when 25 bred gilts and 10 boars will be offered.

Ellis Vastal of Kenansville, secretary of the N. C. Swine Breeders' Association and former swine specialist at State College, says that breeders have already had such great demands for breeding stock that enough animals for holding additional sales are

not to be found. "The demand for purebred hogs has been so great that very little desirable breeding stock remains," he commented.

We take this means of expressing our great appreciation to all those who were so helpful to us during and after the recent fire that destroyed our apartment and most of our personal property in the home of Mr. and Mrs. K. B. Crawford. We are indeed thankful for every kind deed done in our behalf. MR and MRS. C. C. PARKER.
