

Increase Use Of Sugar In Making Illicit Whiskies

(Continued from page one)
of burner, cooler and doubler. They poured out 150 gallons of sugar beer.

About three hundred yards away, the officers found and destroyed an unusually large distillery. The plant was equipped with a 200-gallon capacity wood still, two 400-gallon capacity fermenters, coolers, oil burners and other gadgets. Other

supplies were found and the officers poured out 800 gallons of sugar beer.

Wife Of A Former Prisoner Of War Writes To Friend

(Continued from page one)
would be wonderful and I could go with you to Sunday school, and we will become very good friends, because I need so much love. "Dear Mrs. Hoell, in your last letter you wrote about Hattie" and about Sarah, she says hallo-

and Richard should not forget? Well Richard cannot remember what you meant by that. Please detail this again. You sure have much fun with that little girl. "Please give our best regards to all in the basket-factory who know my husband and who had been so kind to him. If they all would give a little food to send Richard a package, or some money for such a wonderful care-package, that would help us so much and he is very thankful for it. Maybe you Mrs. Hoell would make the proposal in the basket factory. I will close my letter now. God bless you!"

"I want to add a few lines to mother's letter, to let you know that I would like to come to the States with my parents. I think it is wonderful that you will help us to emigrate to the States, but there are 2 points I like to ask about:

"1. I am studying as an architect and in June I finish my practical work. Then I have to go to a carpenter another half year and after that to an architect in the office. After I went through all this I can go to a builder-high school for 2 1-2 years. So would you please inquire how that could be done in the States and how much it would be to go in such a school over there. For us young people it is very hard to get on, as the schools are frequented.

"2. The immigration papers and the tickets. As far as I know has the tickets to be paid in the States, well we cannot do anything here with our money. You said we could live with you till we find an apartment, I would build us a brick-house I can do that all myself.

"Dear Mrs. Hoell I would be so grateful if you would write us more detail what we have to do to emigrate to the States. I guess only you can do something to send the papers, here we cannot do anything before we get the Affidavit form.

"Soon it is Easter and I make a trip to Aalen to play football-games. I am so anxious what the Easter-bunny will bring me? I hardly can wait. I know it will not be much.

"May I ask you for a great favour Mrs. Hoell? Would you please draw me some of the people for drawing? I enclose a sample. I need it badly and we cannot get it here."

Ask \$1 Donations For Local Scouts

The regular dinner meeting of the local Lions Club was held at Chimley Corner Inn, where the members gathered last Thursday evening to discuss various items and to enjoy a delicious fried chicken dinner. Invocation was pronounced by Lion H. P. Mobley.

Following the dinner, Lion D. V. Clayton was presented with a "Past Treasurer" lapel button by President Worrell. Lion Clayton recently completed six years of faithful service as treasurer of the local Lions club.

Following a suggestion by Lion Hack Gaylord, chairman of the Civic Improvement Committee, it was moved, seconded and a vote taken favoring the club's sponsorship of a project to provide more parking space for shoppers near the business section of town.

Arrangements are being made to have the vacant lot adjacent to the local Christian Church on South Smithwick street cleared and parking spaces provided. This project is to receive immediate attention. It was pointed out by Mr. C. J. Brady, a guest of the club, that there is considerable parking space at the rear of the hotel that can be used for parking during the day. Mr. Brady is manager of the George Reynolds Hotel here.

A gum machine committee report by chairman George Hatton Gurganus revealed that the club's share of the receipts for the period ending recently amounted to only \$39.00. Lion Gurganus urged all members of this committee to work hard towards the servicing of these machines.

Considerable discussion was centered around the project of accepting donations of one dollar on the local scout hut fund, the donation entitling the donor to a chance on a 1947 Buick sedan and two other prizes that are to be given away during September. It was pointed out by Lion Clarence Griffin that it was his opinion that this was in the same category as similar projects that have been carried out by other clubs in the state. It was moved, seconded and a vote favored the continuation of this project.

Lions James Herbert Ward, Exum Ward, Jr., William Griffin, D. C. McLawhorn and E. Ross Froneberger were the holders of the lucky numbers in the drawing for tickets at the meeting, and the fellowship prize awarded by Lion Wheeler Manning, was won by Lion D. C. McLawhorn.

In Washington, D. C., Mr. Roberts said that the total motor fuel tax collections by the forty-eight states and the District of Columbia reached a total of \$1,058,605,000 during the year as compared with \$778,662,000 during 1945.

at an all time high last year," the A. A. A. official said, "even topping the pre-war record established in 1941. Gas tax increases voted by several state legislatures this year, together with the prospect of continued high vehicle mileage, indicate that the motorists will be forced to pay an even higher annual bill for their use of this heavily taxed commodity." Mr. Roberts pointed out that these figures applied only to state gas tax collections and were in addition to taxation of motor fuel by the federal government and some local units of government.
