

THE FAMILY

The family is the basic unit of organized society. From it have grown the tribe, the nation, and the race. Its development marked man's first step from primitive to civilized life.

In the protection of his family and the pursuit of its comfort and happiness, man has developed all of his arts, sciences, industries, and institutions. The home is the greatest factor in human progress.

Nations grow strong and great as their family life improves, and they deteriorate and fall when the family breaks down.

Our hope as a nation lies in restoring and strengthening the home life of our people. Influences which tend to undermine the family have crept in, so that today the American home is in serious jeopardy.

The strength of the family is in its faith—faith in God, faith in the right, faith in each other. We must restore these. We must turn to the Church and the teachings of the Bible if our country is to survive.

THE CHURCH FOR ALL . . . ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.
