He Doesn't Care Who Passes /im!

ONE OF the rarest satisfactions a 1950 a little faster than he does, let him know. ... the lower-priced models in the Cachillae Cadillac brings to its owner is serenity.

Watch him briefly in the stream of trafficand, if he is a normal Cadillac driver, you will quickly sense what we mean. He drives as befits his mood and his requirements, and is quite content to let other people do the same.

Unless he happens to be in a hurry, it is all right with him if another driver wants the honors when the light turns green. He knows that the surplus power in that eager, dynamic engine was put there for his safety and driving ease-and not for dramatic display on the get-away.

And so on the open road. If you wish to drive

He understands that his last two inches of throttle were not put there for the ungracious purpose of dominating the highway. They are there for an emergency-and for that lovely, floating, cruising ride which only a great reserve of power can provide.

So roll along, if you're in a hurry-and the top o' the mornin' to you!

It's a wonderful thing, this feeling of calm confidence in your motor car. It lessens the strain, and increases the pleasure, of every mile

And we're wondering if you realize how easily and practically it can be your own. Listen . . . line cost less to buy than the highest-priced models of numerous other cars!

... Cadillac's great high-compression engine is so efficient that a single tankful of gasoline will suffice for a normal full day's drive!

. . . and when it comes to endurance, the Cadillac record stands by itself. The lifespan of a Cadillac car has never been fully measured!

Surely, these are such practical facts that they should point your way to the joys of a Cadillac. And the car itself can quickly reveal how great these joys can be. Why not come in -and see?
