Advertising Rate Card Upon Request. Entered at the post office in Williamston, N. C., as second-class matter under the act of Congress of March 3, 1879.

Go Easy

It is to be earnestly hoped that we'll go easy in returning to the old way of doing things—you know with the poor getting poorer...

Let's look back and see what's happened things that have helped rather than hurt. In the past decade, 16,000 new establishments were opened in the South.

Where were those guys when back yonder entire counties went bankrupt producing irish potatoes? It was all right then...

No one wants to see the government lose money, but it is apparent that some in this country want farmers to lose money.

And before battering against the irish potato farmer, let the attackers come forward with a solution fair to all.

Any warfare anywhere in the world in times of international tension is a serious threat to world peace and should not be dealt with lightly.

And there can be no denying that the news of hostilities in Korea enhances our feeling of insecurity.

But those alarmists among us who are predicting that the third world war will be underway in a matter of weeks not only lack basic for such wild talk.

We will help the situation if we keep our comments related to the facts.

It is a fact that North Korea is at war with South Korea. Newsman have reported that troops of the Russian-supported government of North Korea Sunday launched an invasion into the territory of the American-sponsored Republic of South Korea.

Our authorities in Washington are very much concerned over this conflict in the Far East, but they do not believe it means that the third world war is about to start.

Better Watch 'Em Young Republicans, meeting in New York State, recently heard a new leader. If they follow that leader, the Democrats had better watch'em.

The leader, said in part: "The American people are and always have been a progressive people. Reaction they want non of; conservatism they want in moderate amounts; but above all they seek a party with a leadership which is possessed with common sense and able to recognize conditions and problems as they are."

The trouble with segments of both the major political parties is that they do not recognize the problems as they are and work for their solution; they set up a false standard of their own, and they'll adhere to that standard if it means ruination.

Frank Graham's Defeat

The New York Times. It looked for a while as though the majority of the voters of North Carolina were willing to forgive Frank P. Graham for being a congenial reformer and send him back to the United States Senate...

Despite this defeat, the fact that more than a quarter of a million North Carolina voters wanted to send Dr. Graham back to the Senate indicates a growing liberalism in that state.

Got a Solution?

From California to New York, the swivel-chaired occupants are talking about the Irish potato debacle. Everyone of them to a man is so upset about the government losing a few million dollars in its efforts to save the growers.

Where were those guys when back yonder entire counties went bankrupt producing irish potatoes? It was all right then, and all right now for a farmer to go busted, but now they are shedding their tears over the government.

And before battering against the irish potato farmer, let the attackers come forward with a solution fair to all.

Same Old Error

Again, the United States cannot be held blameless for strife in the world. No, we did not launch the fighting.

But back yonder when Syngman Rhee, president of South Korea, did not lift his hand to wipe out graft and political corruption and delayed until fairly recently an election, a vacuum was created and the northern crowd was literally sucked in.

Something's wrong somewhere. It seems that just about every place we go, we create confusion, and set the stage for an invasion.

Surely, if the Koreans below the 36th parallel had been given a taste of Democracy—real Democracy—they would not have toppled over like ten pins before a comparatively weak invading force.

What Is Southern Democracy?

Not so long ago something was mentioned about Southern Democracy. Just what is Southern Democracy?

Democracy, boiled down to final analysis, is majority rule, or, at least, that's what we have been told it was. If majority rule is Democracy, then it is hard to figure out the difference between southern, western, eastern or northern democracy.

And it would seem that it is plain old good Democracy when a majority wants a living wage for labor and a living price for farm commodities, and not socialism or any other kind of ism.

Be as careful of the books you read as of the company you keep; for your habits and character will be as much influenced by the former as by the latter.—Paxton Hood.

"It is very seldom that I have to repent of saying too little; but alas! very often for saying too much."—John Baldwin.

First of the Fine Cars in Value

The Car that puts your Best Foot forward

WE think you'll agree that the whole story of an automobile isn't told in its power, its room, its styling, even in its ride.

There is the all-important point about what a car does to you—and that's where ROADMASTER really shines.

For you can't slip into this bonny beauty's broad seats without feeling like somebody pretty special.

When you take its neat wheel in your hand—when you cut loose, with a touch, the rich baritone of its big Fireball straight-eight power plant—when you feel the smooth surge of its Dynaflo-cushioned take-off—

Man, then you know you've got a real automobile!

And don't overlook this: That graceful sweep of chrome along the fender—found on no other car made today—is a mighty eye-catching note of distinction.

Those four Ventiports, too, cause many a head to turn—they mark you unmistakably as the owner of the biggest and best Buick built—a car as fine and rich as any man has need for.

There are a lot of good, solid, dollars-and-cents reasons for making ROAD-

MASTER your choice over any other: Its size. The commanding performance of its 152-hp Fireball valve-in-head straight-eight engine. Dynaflo Drive standard. A ride that's quite matchless in its gentle softness. Distinguished styling from bold, protective front end to gleaming "double bubble" taillight.

But if you're ready for a car that's more than just an automobile—if you want one that puts your best foot forward in any company—that's the real reason for seeing your Buick dealer quickly—to talk turkey about a ROADMASTER.

FOUR-WAY FOREFRONT

This rugged front end (1) sets the style note, (2) saves on repair costs—vertical bars are individually replaceable, (3) avoids "locking horns," (4) makes parking and getting easier.
