The Circle of Success

Life is but a great wheel, or circle, made up of many different segments. Money is one of those segments, and a comparatively small one.

Many wealthy people have awakened to find that they are really failures. They have succeeded in accumulating money, but failed in other respects.

A man does not fulfill his mission in life by merely supplying the physical needs. The ability to make a fortune, to pile up luxuries for himself, does not constitute all of success.

It is by the quality of your manhood, Mr. Man of Today, that you will be judged. What sort of life have you lived? How much have you added to the wellbeing of your neighborhood?

Character assets—their manhood. Character is the first and the last segment in the success circle.

Where Have We Failed?

It seems that everyone on our side runs for shelter when it comes time to stand up, be counted and fight.

The North Koreans had the will to fight, and the South Koreans did not have such a will. Possibly the brothers to the South did not have matching weapons.

Something is wrong somewhere. Where have we failed? Could it be that we are trying to restore Chiang Kaishek and his hated, corrupt and ruthless regime?

And to add to the picture, we are trying to play ball with such fascists as Franco and Peron.

Should Have Been Paying All the Time

The plan to eliminate various war-time excise taxes and shift the obligation to the corporations, should call for no tears. The corporations, wallowing in recordbreaking profits during and since the war, had their taxes reduced after the war.

The corporations, now ready to start out with dark glasses and a tin cup, should not forget that they had their taxes lowered by billions back yonder when other folks' taxes continued to climb.

"It doesn't do any good if the Army, Navy and Air Force are perfect if, in achieving are invisible. They are not bank accounts, that, we bankrupt America."

First of the Fine Cars in Value

This one Telescopes your Timetable

Of course you recognize it. Who doesn't know that those four Ventiports, that graceful sweep of fender-chrome, mark ROADMASTER—best of all the Buicks, unquestioned "big buy" of the fine-car field? But have you tried it? Have you matched this sweet-stepping bonny against the tall hills, and the call of the straightaway? Ever tooled it across town — and seen how Dynaflo's quick surge and smooth take-off slip you through traffic with minimum of foot-motion and maximum of timesaving? Ever known the good-feel of a light and easy wheel, swinging almost at a finger's touch — the soul-satisfying lift in a big 152-hp Fireball engine just waiting for the release your toe-pressure gives it? Ever sampled that famous Buick ride—steady, level, unperturbed, soft with the special gentleness of coil springs on all four wheels, sweetly restful in both front and rear seats? There's no reason, really, to wait longer for such satisfying experience. There's a Buick dealer near you. He delights in showing off ROADMASTER. He'll arrange — unless all his demonstration cars have been snatched away from him by eager buyers—to put you behind a ROADMASTER wheel. Why not see him now — to find out what's finest in today's fine cars, and how little it takes to buy one? Only Buick has Dynaflo\* and with it goes!

Modern American Family Minus Electricity

WHAT WOULD you do without electricity in your home? Well—you could use candles. And build fires. And entertain each other. Substitute elbow-grease for all the jobs electricity does automatically. You'd be surprised how much it would cost, in money, time and trouble. In fact, it almost takes a cartoon like this to remind us how much electricity does—and how little it costs. In your whole family budget, VEPCO electric service is about the smallest item—and the biggest bargain. What else gives you such value in comfort, health, ease and fun—as cheap electricity in VEPCOland! NOTE: This family does not live in territory served by Veeco, where the supply of good electric service is adequate to meet the requirements of every customer. VIRGINIA ELECTRIC AND POWER COMPANY
