Korea

Probably no one is so naive as to fail to understand the development in Korea. Communism, which was hell-born, is challenging the forces of Christianity and civilization by assaulting a weak member of the Family of Nations.

The reaction of the average American citizen is a bitter one: "Every time peace-loving peoples try to get settled down to the business of making the world a better place to live in, some gangster government starts a fight!" That is a simple way to look at it, and yet not so simple after all, because that's just exactly the fact of the matter.

Wouldn't it be a good thing to begin right now to strengthen the United States? We might quit throwing money around like a drunken sailor in uneconomic private and public expenditures. We might get back to a sound basis of moral idealism. We fought the last war with one shoe off; maybe if we begin right now to use elementary common sense, the same kind of common sense that a football player or even a prize-fighter uses in training, we might get by without fighting another war at all.

In the meantime, just give a little thought to the fact that this whole weak international situation was created at a conference where the vodka was flowing freely.—Chip-sheet.

Paying Off

A drainage project in the Farm Life section of Griffins Township really paid off during the recent period when excessive rains fell in that and other sections of the county.

Reports from the area indicate that the project limited damage to crops and highways, that had it not been for the newly cut canal portions of the highway would have been washed away and untold damage would have resulted to crops as a result of the excessive rains.

Similar drainage projects are being considered in other parts of the county. The promoters can find much consolation in the great benefits resulting from the completed project in rushing their own to completion.

Cost, it is admitted, run into big figures, but in return, drainage pays big dividends. Martin County can well afford to give drainage serious consideration.

It's All So Quiet Now

Much has been said about deficit spending of a balanced economy right here at home. It seems that deficit spending was all right as long as big industry received the subsidies, but it was all wrong when done in the name of the masses.

Now comes along the Korean war, and nothing is said about the huge appropriations for financing that struggle. If a debt dollar is going to carry us down into the depths of ruination it matters little whether it was spent for finance or to keep some poor soul from starving to death.

The self appointed complaints are mighty quiet on the deficit attacking front just now.

Proud Of It?

The Industrial Press Service points out that where the average worker received \$23.86 a week in 1939 he is now receiving \$54.78 per week now.

Surely, the industrialists can't be proud of the accomplishment because they fought it all the way.

Perfect Control

Monopoly spokesmen have great power of control. When a few millions are spent to balance the economy on the farm front, the spokesmen whoop and shout about socialism. When billions are spent for armaments manufactured by their clients, they don't even bat an eyelid.

The spokesmen know when and how to shout and when not to shout when their selfish interests are at stake.

First of the Fine Cars in Value

BIG BOY that parks like a midget

YOU look at the king-size wheel-base on this strapping Buick ROADMASTER.

You look at those long Buick-tapered fenders sweeping from bumper to "double bubble" tail beacon.

You step inside and luxuriate in leg-room and hiproom and headroom generous as old-time hospitality.

You ride it—and wonder if wings were ever so soft.

You feel that big bonnetful of Fireball power whisk you from standing start to road speed with the honeyed magic of Dynaflow Drive.

And you tell yourself this is entirely too perfect.

All this automobile must be hard to handle, too big for your garage.

Good sir, just slide over and take this ROADMASTER's wheel.

Pick a curb space you'd ordinarily pass by, and back this Buick into it or your very first try.

Here Buick has done a neat job of reducing over-all inches while keeping interior king-size comfort. When you wheel this whopper into your own garage, you'll be tickled pink at the room all around it.

So come on! Head for your Buick dealer's now for a tryout of a Buick ROADMASTER.

You will find it in a selection of body types, in finishes to suit a queen's taste — and at prices to make you wonder why anyone ever pays more.

FOUR-WAY FOREFRONT

This rugged front end (1) sets the style note, (2) saves on repair costs — vertical bars are individually replaceable, (3) avoids "locking horns," (4) makes parking and garaging easier.

Tune in HENRY J. TAYLOR, ABC Network, every Monday evening.
