

Court Completed Criminal Docket Trials Yesterday

(Continued from page one)

were found guilty of assaults with deadly weapons. George Henry Ward was sentenced to the roads for twelve months. Smith, still crippled from a bullet in his leg, drew six months on the roads, and Jesse and John Ward were sentenced to the roads for nine months.

Oliver Rogers, charged with forging his father's name to a \$35 check, pleaded guilty. He was sentenced to the roads for eighteen months and placed on probation.

The case charging John Thomas Perry with rape was not pressed.

The case charging Leo Long with carnal knowledge was recommended to the juvenile court. It was brought out that the defendant was only 15 years of age when the alleged crime was committed, and that the prosecuting witness was only fifteen years old when she became a mother.

A continuance was announced in the case charging Walter Wilson Knight with an assault with a deadly weapon. The case is now scheduled for trial in December.

Beauty on Tour

GIVING the big town its first glimpse of her, Yolande Betbeze, the "Miss America of 1950" poses for New York photographer in the street clothes she donned for a tour of the city. (International)

Report Increase In Feed Prices

Average prices paid by North Carolina farmers for high protein and grain by-product feeds increased during the month ending August 15. Tankage meat scrap prices increased \$.70 per hundred pounds over the prices paid a month earlier and all other feeds showed an increase of five to fifteen cents per hundredweight.

U. S. feed prices followed rather closely the changes in prices paid by North Carolina farmers except that U. S. prices paid by North Carolina farmers except that U. S. prices for bran and middlings were down from the previous month where as North Carolina prices were up for these items. Soybean meal also declined slightly during the month, reflecting seasonal adjustments to a new crop basis.

Federal Taxes Gain In First Month Fiscal Year

Internal revenue collections in July, 1950, of \$2,263,000,000, surpassed those of a year ago by the small margin of \$10,000,000. While individual income and corporation income taxes dropped, employment, alcohol, tobacco, automobile and motorcycle and gasoline taxes increased.

Consumption Of Tobacco Gaining

Total disappearance of flue-cured tobacco during the year ending June 30, 1950, was 1,168 million pounds, 6 percent higher than in 1948-49 and the second highest on the record. A rise in exports together with a small increase in domestic use were responsible for the larger total disappearance over last year. Domestic use in 1949-50 was close to 723 million pounds compared with 715 million in 1948-49 — the previous high point.

It appears likely that total disappearance in 1950-51 may be above that of 1949-50. Cigarette consumption in this country will probably top the high of fiscal 1949-50. This is the major outlet for flue-cured is strong and 1950-51 exports may be almost as large as in 1949-50 if international de-

Savings In Mutual Banks Show Gain This Year

Deposits in the nation's mutual savings banks rose \$652,000,000, or 3.3 per cent in the first six months of this year. Total deposits on June 30 amounted to \$19,939,000,000. The increase in the first half of this year compared with a gain of \$548,000,000, or 2.9 per cent in the same period of 1949.

Developments do not interfere. The consumption trend for tobacco abroad continues to be toward cigarettes with many preferring those using U. S. tobacco.

CARD OF THANKS

We wish to express our sincere appreciation to everyone who tendered gifts to us through Mr. Dan Moore. We shall always remember the kindness. May the Lord bless you all.

Mr. and Mrs. Vester Coltrain
And Family.

Fumigate Potato Storage Houses

(Continued from page one)

pend from rafters and dash water around from bucket.

The amount required for a good job of fumigation is one-half pound per 1000 cubic feet of space. To find number of cubic feet, multiply length by width, by average height.

The Larvacide may be purchased at your local F. C. X. store.

Be sure read pages one and two of instruction sheet packed with each 1 pound bottle and follow each instruction.

The fumigation should take place at least ten days before potatoes are to be stored.

Farm raised hogs today are free of the tiny parasites which cause trichinosis in human beings than were the hogs of ten years ago.

GI School Abuse Brings Action From Congress

A special House Committee has been appointed to conduct a full-scale inquiry into abuses in the education program of the Veterans Administration. A report issued in January by Gen. Carl R. Gray, Jr., veterans administrator, listed more than 200 schools in which irregularities had accrued. UMT Delayed.

Most legislators agree that consideration of universal military training has been deferred until January because of the opinion held by President Truman that he sees no need for immediate action.
