SAFETY

Industry spares no pains or expense when it comes to protecting the bodies of factory workers. Spark-proof helmets, sturdy shoes, non-slip floors, easy exits—the list of precautionary devices is long. They call it "Safety Engineering."

Is it too much to say that the Church too is engaged in a type of safety engineering? Through the religious faith on which it is founded the Church knows that the souls of people need protection even more than do their eyes and limbs.

The Church believes that human hearts yearn for a comforting arm just as human frames require safe-guarding. It believes that physical safety is not enough; that to bring peace of mind is a more important mission than to insure absence of bodily risk.

As long as lives are saved from the blight of godlessness, the institution contributing to such saving is entitled to all the encouragement and support you can give it.

THE CHURCH FOR ALL ... ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.
