Are You a Part Time Citizen?

Being a citizen in a democracy is a full time job. In other forms of government the citizenry makes up the background, appearing only in mob scenes to "yes" the rulers of the nation.

In a democracy there is no room for part time citizens. Our government is us—what we make of it. Ours is the fault if the wheels of government do not run smoothly, for the laws we make are the roadbed, and the men we elect are the machine.

Do you fulfill all your duties as a voter? Do you show up just at election time to cast your vote without due consideration of the full qualifications, record and principles of all candidates? Do you neglect to help select the proper candidates at the primaries? Are you a part time citizen?

Do you obey the laws you have had a hand in making? Is your only thought, when you break what seems like an inconsequential little law, how you can get away with it? Are you a part time citizen?

Do you evince interest in all issues - or only in those problems which directly concern you, and then object when other groups do the same and infringe on your prerogatives? Only as citizens work for the common good of all can democracy progress. Are you a part time citizen?

Do you lend an ear to subversive elements who tell you how much better conditions are or would be for you were there a different form of government? Do you thoughtlessly pass on these tales without checking on their accuracy or considering their source? Are you a part time citizen?

Do you stand up for democracy or do you condemn its mistakes without consideration of the good it has to offer? Do you stress only its shortcomings and never its long range program which, slowly but surely, and in spite of stumblings, discriminations and detours has made this country of ours the best in which to live. Are you a part time citizen? Now as never before the United States needs the full time allegiance of all of its people. Don't be a part time citizen!

Working For The Markets

Sweet potato growers in this section and especially those in Martin County have made splendid progress in producing a quality product. And someone deserves much credit for the accomplishment.

Reports from the Martin County Yam Growers headquarters declare that the quality of the crop is pushing on toward perfection, virtually free of disease, uniform in size and carefully packed. It is admitted that the price is not up to expectations, but the old growers still maintain that there is money in the sweets. The "green" market has been ranging around \$1.40 per bushel, and those farmers who chose to cure their potatoes stand to make more money.

The sweet potato got mixed up in bad company of the Irish potato and is without support price this season, but it is expected that something will be done to stabilize the market another year.

During the meantime, Martin County farmers, it is believed, will do well to hold on to the sweet potato to supplement their cash income.

Serious Charge

The highly paid and highly tooted columnist Westbrook Pegler, makes some rather serious charges when he tackled the school teachers of this nation a short time ago.

He called them racketeers. He said they were in the "racket" for strictly selfish reasons. He charged that the teachers exploited the children, and, as a parting shot, he referred to "education" as an industry or trade and one that is not actually education "at all in any satisfactory meaning of the word."

Pegler has a right to say those things. But he and others of his ilk are doing more to tear down America than all the communists combined. And those who dare carry his venom is a partner in the nefarious business.

Enjoyed

"We've enjoyed Bamby for years at our house. Now that I've seen their fine bakery, I know why it's so good."

Many are the warm praises for Bamby and the Bamby Bakery from those women who know best—visitors who have seen the care with which Bamby is made.
