

Joe E. Brown Collects on Mouth

When Joe E. Brown was a youngster back in his native Holgate, Ohio, the neighbors all thought what a pity it was that the fourth child of Mathias and Ann Evans Brown should be cursed with such enormous mouth. But Joe capitalized on this very feature and in time it zoomed him up to the top ranks of the nation's comedians. He may be seen starting Thursday at the Marco Thea-

ter with Judy Canova in the hilarious Republic re-release, "Joan of Ozark."

Joe was the only one of the seven Brown children to seek a theatrical career. He ran away from home at the age of nine and joined an acrobatic troupe known as the "Five Marvellous Ashtons." He's been on his own ever since, picking up his education through reading. He's traveled with circuses, vaudeville, stock and stage shows and boasts that he has been a troupier for almost fifty years and never once missed a show!

Between theatrical engagements, he played professional baseball with the St. Paul team and at one time was under contract to the N. Y. Yankees.

Giveaway Satire Be Shown Here

James Stewart and Barbara Hale are the lucky co-starring participants in "The Jackpot," new and highly touted Twentieth Century-Fox comedy made from a magazine article about the troubles that befell a radio jackpot recipient, opening at the Watts Theatre for three days. \$24,000 in prizes are given away as part of the action in "The Jackpot," but all is not as smooth for the winner as you would think. The quiz show calls for the right answer to "The Mystery Husband," which Jimmy Stewart supplies, but from then on it's a perpetual quandary for Jimmy, as he finds taxes mounting, his promotion cancelled and his job in doubt. It all works out in the end, however, for "The Jackpot" has been designed strictly for hilarity and from all accounts hits its target as surely as its star hits "The Jackpot."

Recent dismantling of the White House revealed timbers that had withstood 133 years of use and abuse with no indication of decay nor any structural evidence of termite infestation.

Almost Time To Renew Licenses

Motorists who obtained renewal of their driver's licenses in 1947 under the re-issuance program and whose birthdays fall early in 1951 will be required to obtain renewals in the next few months, the Department of Motor Vehicles reminded persons in this category today.

Motorists who are uncertain about the expiration date of their licenses should refer to the lower right hand corner of their present license cards. These motorists will be permitted to seek second renewal 30 days in advance of the expiration date, which falls on their birth date. The majority will have surnames beginning with A or B, but a few will fall in other alphabetical groups.

Under the driver's licensing program, licenses expire on the birthday of the motorist four days after re-issuance. Since the re-issuance program began July 1, 1947, some motorists will not have held their licenses quite four years, the department pointed out, but in setting up the re-issuance schedule, it was necessary to place the expiration date on the birthday nearest July 1. Expiration date in 1955 for these motorists will fall on their birthdays exactly four years from the 1951 renewal.

The Department requested that motorists seeking second renewal bring their present licenses with them to their examining stations. The license will be accepted as evidence that the applicant has passed the road test and he will be required to take only the rules of the road, eye and road signs phases of the examination. The number on his present driver's license will be his permanent license number.

A space will be provided on the new license cards for blood type, which will be placed on the card upon presentation of evidence of blood type. Since inclusion of this information is a public service and voluntary with applicant, failure to present this evidence will not be reason to deny issuance of the license, the Department stressed.

Nervous expectancy grips Jimmy Stewart and Barbara Hale in their quest of a twenty-four thousand dollar jackpot. All the excitement takes place in Twentieth Century-Fox's "The Jackpot," coming to Watts Theatre. The quiz satire was produced by Samuel G. Engel and directed by Walter Lang. Sunday, Monday, and Tuesday are the days it is showing.

Record Yield Of Corn Is Certain

The 1950 corn crop in North Carolina is estimated at 80,697,000 bushels as of November 1. This is 1,091,000 bushels above the October 1 estimate. The estimated 1950 corn crop would be the largest of record and exceeds the previous record 1949 crop by 5,132,000 bushels, or 6.8 percent. The estimated 1950 crop is also 45.7 percent larger than the 10-year average production of 55,385,000 bushels.

The November 1 estimated yield of 37.0 bushels per acre would also be the highest of record. A yield of 37 bushels per acre compares with 35 bushels in 1949.

What worries the Western nations: They have 2,000,000 fighting men, some poorly equipped, while the Russians are supposed to have 3,700,000, heavily armed and close to Western Europe.

Wood was first kiln-dried at Norfolk, Virginia, in 1879.

Season For Game In Martin County

November 23 marks the open season on rabbits, quail and wild turkey. With deer and squirrel season already open and the open season on duck hunting coming up on November 27, Martin County hunters are expected to take to the woods and fields in large numbers during the Thanksgiving holidays and afterwards.

Open season and game regulations and laws are listed, as follows:

- Deer - open season - October 16 to January 1, bag limits: daily, 1; possession, 1; season, 2.
- Squirrel - open season - October 16 to January 1, bag limits: daily, 3; possession, 16; season, 100.
- Rabbits - open season - November 23 to January 31; bag limits: daily, 5; possession, 10; season, 75.
- Quail - open season - November 23 to January 31, bag limits: daily, 3; possession, 16; season, 100.
- Wild Turkeys - open season - November 23 to January 31, bag limits: daily, 1; possession, 2; season, 3.
- Ducks - open season - November 27 to January 5, bag limits: daily, 14; possession, 18.

State Slaughterers More Livestock

Commercial livestock slaughter in North Carolina during September totaled 16,063,000 pounds. This was an increase of 8.6 percent over the 14,788,000 produced in August and 8.2 percent above the 14,846,000 pounds produced in September last year.

Compared with August, the number of head of cattle and hogs increased while the number of head of calves, sheep and lambs decreased.

Southern Rhodesia produced approximately 100 million pounds of tobacco this year, compared with about 25 million pounds produced annually before World War II. Reports indicate that growers plan an additional increase of from 20 to 30 per cent during the coming year.

"WHAT D'YA MEAN... MORE PAYLOAD?"

DODGE "Job-Rated" trucks GIVE IT TO YOU!

IT'S A MATTER OF better weight distribution

You can haul more payload than ever in a Dodge "Job-Rated" truck, because the load is better distributed. Most trucks carry too much of the load on the rear axle—too little on the front. Because the engine of a Dodge "Job-Rated" truck is moved forward and the front axle back, both axles carry the right proportion of the load. That means you can haul bigger payloads without overloading.

NOT THIS The payload on most trucks—like the girl in this boat—rides too far to the rear. Result: there's too much weight aft, not enough forward.

BUT THIS In "Job-Rated" trucks, the load is moved forward—as the girl is now positioned. Results: proper weight distribution—bigger payloads—easier handling.

NEW! gyrol FLUID DRIVE! Available on 1/2-, 3/4- and 1-ton models... for longer truck life, lower upkeep costs. Ask us for interesting Fluid Drive booklet.

POWER:... great truck engines—each "Job-Rated" for PLUS power.

ECONOMY:... priced with the lowest "Job-Rated" for dependability and long life.

BIGGER PAYLOADS:... carry more without overloading axles or springs because of "Job-Rated" weight distribution.

EASIER HANDLING:... sharp-er turning; parks in tight places. "Job-Rated" maneuverability!

COMFORT:... widest seats... windshield with best vision of any popular truck. Air-cushioned, adjustable "chair-height" seats.

SAFETY:... finest truck brakes in the industry... hand brake operating independently on propeller shaft on all models—1/2-ton and up.

Job-Rated for low cost transportation

With all their extra value **DODGE "Job-Rated" TRUCKS** are priced with the lowest
