

Expanded Facilities—A More Modern Service Department Now Offered Our Patrons

Through The Recent

Renovation and Modernization Of Our Building

Extensive renovation recently has been completed at our building on Washington Street and Charles H. Jenkins and Company now affords a much larger show room for the display of automobiles, a more efficient and compact arrangement of offices and working space, a larger, better stocked parts department and a spacious service department. We extend a cordial invitation to all of our friends and customers to visit our modern plant and look over the changes that have been made.

VISIT OUR UP-TO-DATE SERVICE DEPARTMENT

In remodeling and expanding we have made every effort to make available to our patrons a modern, well-equipped service department, as good as, or better than, any to be found in this section of the state. Our enlarged service area now includes a front entrance as well as a separate drive to and through the back. The very newest in lubrication equipment has been installed, making it possible for our experienced mechanics to specialize in lubricating jobs. Drive in, you'll find that motoring is easier, safer and more economical when your car is checked regularly and repaired expertly by a long established, well-equipped shop such as ours.
