THE RECORD SPEAKS . . .

While they softpedaled when it came to death itself, motorists piled up about the ugliest wreckage on Martin County highways and streets last week of any recorded in recent months. Seven were injured, two of the vicims remaining in the hospital, one with a broken back and the other with a broken leg and broken arm.

The following tabulations offer a comparison of the accident trend: first, by corresponding weeks in this year and last and for each year to the present time.

Robi. Doughton Will Run Again

By Stanley James Washington Correspondent

Washington. - Congressman Robert L. Doughton, the man who has the most to say about whether or not your taxes will rise, says he is opposed to any more tax increases "unless the emergency rows worse.

The North Carolina mountaineer, who heads the House Ways and Means Committee, said in an exclusive interview with this paper's correspondent: "I would be willing to make some small revision in tax rates to iron out some of the so-called 'loopholes. But the trouble is, when our bill went over to the Senate, the Senate Finance Committee might rewrite it and bring out a totally new bill revising everything."

Doughton is firmly opposed to President Truman's proposal to wipe out the provision letting a husband and wife make a joint return on the husband's income. his wife, \$10,000, and thus have two returns in a lower bracket instead of one in a higher bracket.

Doughton sponsored that provision himself in a tax about four ture Exchange. years ago; it is his pride and

Sending Books To Foreign Nations

The Kansas Commission for Inesco raised enough money in 1950 to send 44,000 school books o children overseas. Encouraged y the success of the scheme, the 5,000 for 1951. Despite the disasrous floods during the year, which turned peoples' attention rom international rehabilitation t home, the necessary money was aised, and 85.00 more books have been shipped to India, Thailand, Honduras, Ceylon and the Philppines.
