

Buys "Old" Shoes From Fellow Trader

Larned, Kan.—After trying on practically every pair of shoes in the store, an elderly man was leaving, without finding anything he liked. He noticed those worn by another customer. He was persuaded Crane to sell him his slightly worn, comfortably broken-in shoes. Crane walked out with a new pair of shoes, paid for by the old man.

Employment Continues To Show Rapid Gains

The number of employed persons increased by 120,000 during August to a total of 62,354,000, according to Secretary of Commerce Charles Sawyer. Unemployment dropped in August to about 1,604,000 from 1,942,000 in July, with part of the reduction resulting from job-seekers from the labor market.

The average 1952 flue-cured tobacco yield in North Carolina is estimated at 1,143 pounds per acre.

News As Reported In The Enterprise Years Ago

OCTOBER 11, 1912

Friday afternoon at 2:30

Gov. W. W. Kitchin made his first appearance here since the Senatorial campaign began. The crowd in the City Hall was not large, but was very enthusiastic. The pupils of the Graded School were given a half holiday as a mark of respect to the Chief Executive of the State and many of them heard the speech to its close.

A number of friends were invited to the home of Mrs. F. U. Barnes on Wednesday afternoon in honor of the birthday of Mrs. James G. Staton. The guests knew of the nature of the affair, but it was not disclosed to her who was to receive special honors. This made the occasion an unusually pleasant one to all. Tables were arranged for cards, and handsome score cards distributed to each. Mrs. Staton was the recipient of many gifts which together with the graciousness of the hostess were highly appreciated.

Miss Mattie Gurganus, the oldest daughter of Eli Gurganus, is studying art in the Maryland Institute, Baltimore. She has always shown marked genius for drawing and painting.

W. B. Watts with a party of friends from Plymouth spent Sunday here with his parents.

of permanent and winter lawns. Because there are situations where grass will not grow—such as heavily shaded spots, steep banks, or stony areas. There are a number of plants that may be used as ground covers, namely: English ivy, vinca (periwinkle), Pachysandra (Japanese Spurge), a junga (Bugle weed), and Ophiopogon japonicum (lily-turf). All of these are evergreen and most of them are hardy throughout the state except possibly Ophiopogon which is hardly east of the mountains.

Of the above named plants English ivy and periwinkle are well known to most gardeners and we will not discuss them. They are viny plants and are commonly used to cover steep banks. Pachysandra (Japanese Spurge) is an upright evergreen plant growing about 4 to 6 inches in height and spreading by means of underground root-stocks. It thrives in shade and is well adapted to our cooler areas. Ajuga (bugle weed) is probably the least desirable of the ground cov-

ers. It belongs to the mint family, spreads by means of underground root-stocks, and sends up flower stalks in the spring.

Ophiopogon (lily-turf) has become very popular in the eastern part of the state. It grows about 4 inches high and the leaves are dark green and resemble grass leaves. It will thrive in deep shade and in stony ground where real grass will not grow. It spreads by means of underground root-stocks. In order to obtain a good stand the plants should be set about a foot apart in each direction. Ophiopogon should not be cut with a lawn mower but may need occasional thinning out.

Mrs. F. U. Barnes returned from Montrose Tuesday after an absence of several months.

Miss Marie Everett, of Brunswick, Ga., is visiting Mrs. A. H. Smith.

You'll discover this about a Buick: The more you drive it, the more you like it; the longer your trip, the louder your praise. That's what people tell us. And we'll tell you why. You can drive a Buick three, four, five hundred miles in a single day, and feel fresh enough to keep right on going. You can romp up high hills, cruise straightaways, ease through traffic-tangled towns, clock off hour after hour of relaxed and pleasurable driving—and be no more tired than a neighborhood jaunt would make you. How come this comfort-rich ground-covering ability in a Buick?

There's the ease of deep, soft seats for one thing—and plenty of move-about room for arms, legs, shoulders. There's Dynaflo Drive* taking all the chore out of driving, and giving your whole ride a satiny smoothness without trace of jerkiness or driving tension. There's a hostful of thrilling, tireless power from a high-compression, valve-in-head Fireball 8 Engine that whips out miles like a tarrot reels off line. There's the soft, steady, solid, swerve-free going of a coil-spring-cushioned ride that's well worth the million-plus dollars it cost to engineer.

There's all this and more—much more—that makes your heart grow fonder of this trim and thrifty traveler. But words can't do justice to a Buick in motion. Only you can. When will you come sample this experience yourself?

Equipment, accessories, trim and moders are subject to change without notice. *Standard on Roadmaster, optional at extra cost on other Series. †Optional at extra cost.
