

### Dan Burroughs Died Saturday

C. Danford Burroughs, son of Mrs. Orissa Berry Burroughs of Scotland Neck, and the late Frank Burroughs of Martin County, died at his home in Charlotte last Saturday, the victim of a heart attack.

His father, born and reared in Robersonville for several years before locating in Scotland Neck, where his son made his home until after his graduation from the University of North Carolina in 1925. Since that time he had been associated with the Standard Oil Company with headquarters in Charlotte.

Surviving besides his mother are his widow, the former Miss Nora Stephenson of Washington, and two sons.

Funeral services were conducted at the home Sunday afternoon.

### Discuss Scouting At Club Meeting

The Oak City Ruritan Club held its regular monthly meeting Thursday night, March 12th, in the school lunch room with twenty-eight members present. The meeting was called to order by the president N. L. Hyman. Secretary H. M. Ainsley led the club.

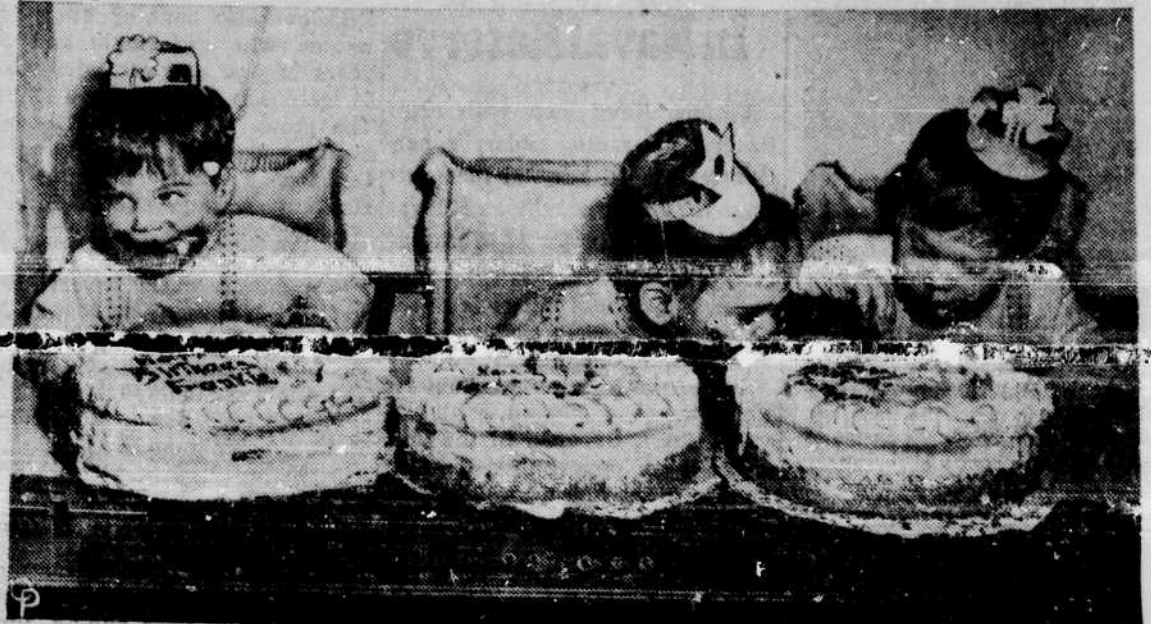

Sidney Mallory gave the invocation. The secretary read the minutes of the previous meeting, which were approved as read.

The Food Committee: Jack Smith, H. M. Ainsley, and John Hassell, served the club a fish fry.

J. B. Whitfield and Nat Johnson gave a report on the possibilities of reorganizing a Boy Scout Club in the community and stated that a Scout Master had been secured.

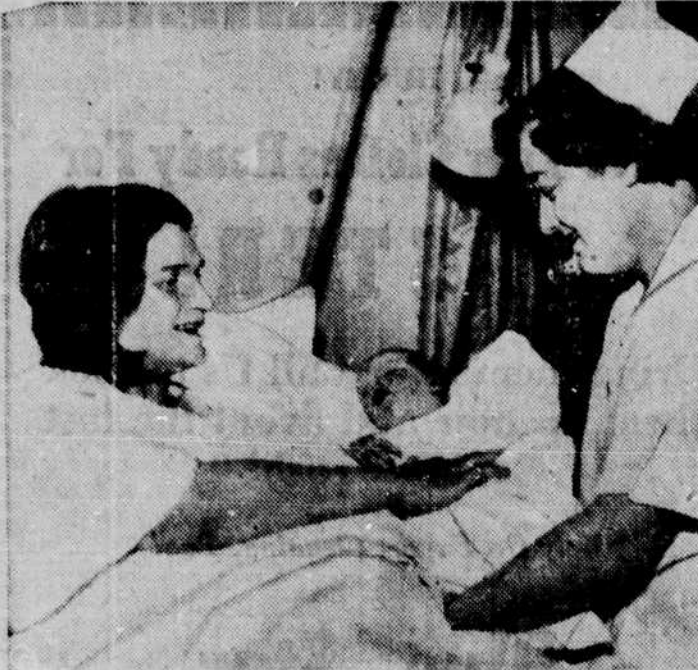

The club has as its guests: Mr. K. P. Lindsley and four Boy Scouts from Williamston. Mr. Lindsley spoke briefly about Scouting and the importance of training and working with the

### TRIPLETS HAVE SWEET TIME OF IT ON BIRTHDAY

**HAVING THEIR CAKE** and eating it too is something of a problem for the Zappala triplets of the Bronx, New York, who get a bit mused up with frosting as they dig into the fancy pastry on their second birthday. The babies are Frank, Carmine and Anthony, sons of Mr. and Mrs. Anthony Zappala. (International)

### HE WILL HAVE 17 PLAYMATES

**DAVID JAMES JOHNSON**, the 18th child to be born to Mrs. Adeline Johnson, is presented to the proud mother by nurse Naomi Pulver in the Community Hospital at Culver, Ill. Being a boy, he evens the family score at 9 boys—9 girls. (International Soundphoto)

### Ford Museum To Reopen June 1

The Ford Rotunda, Detroit's biggest tourist attraction and gateway to the famous Rouge plant, will be reopened about June 1 as part of Ford Motor Company's 50th anniversary observance.

Thereafter, it will be open to the public seven days a week, including holidays, from 9 a. m. until 10 p. m.

With an accent on the future, artists, designers and architects have completely remodeled the 110-foot-tall gear-shaped structure which was built for the Chicago World's Fair in 1934 and later moved to its present location in Dearborn, Mich.

Animated displays, sculptures, murals and dioramas in the air conditioned building will tell the story of progress in the automotive industry—how science and manufacturing skills have been combined to produce a better way of life, and what they hold for the future.

The exhibits will portray the conversion of raw materials into finished products; the effect of industrial advancement on standards of living; the role of research and engineering in automotive production, and the potentialities of a modern industrial organization.

A renovated theater, with a seating capacity of 385 persons, will present film programs daily.

The W. B. Ford Design Corporation has developed a scale-model "city of the future" to show what life will be like in years to come.

Marshall Fredericks, the sculptor, has fashioned 16 massive reliefs to depict the contribution of basic industries to the making of

I also do custom work with broadcast equipment, and for sale one-row gravity-flow equipment, broadcast equipment and breaking plow equipment.

## NOTICE

Due to the misunderstanding which has arisen concerning the vaccination of dogs for rabies in Martin County, at its meetings held at the Court House, Monday, March 16, 1953, the Board of County Commissioners of Martin County directed me as County Attorney to publish this notice relating to the laws of North Carolina applying to Martin County concerning the vaccination of dogs for rabies.

The law requires the appointment of one or more Rabies Inspectors, who are under the law to be appointed by the Martin County Health Officer. The Martin County Health Officer has appointed Dr. W. F. Coppage, Rabies Inspector and he is the only duly appointed Rabies Inspector in Martin County.

The Board of Commissioners has nothing to do with the appointment of the Rabies Inspector.

Section 106-365 of the General Statutes of North Carolina is as follows:

**ANNUAL VACCINATION OF ALL DOGS**  
—In all counties where a campaign of vaccination is being conducted, it shall be the duty of the owner of every dog to have same vaccinated annually by a rabies inspector in accordance with the provision of Sections 106-364 to 106-387. And it shall be the further duty of the owner of said dog to properly restrain same and to assist the rabies inspector in administering the vaccine.

Section 106-372 of the General Statutes of North Carolina further reads as follows:

**FEE FOR VACCINATION; DOG TAX CREDIT; PENALTY FOR LATE VACCINATION** — The rabies inspector shall collect from the owner of each dog vaccinated as provided for in Section 106-368, not more than one dollar (\$1.00), to be fixed by the board of county commissioners for each day, the same to be credited on the dog tax when certificate of vaccination is presented to the sheriff or tax collector of said county.

Under the law, the County Commissioners have ruled that only owners who have their dogs vaccinated by the duly appointed Rabies Inspector will be allowed credit on their dog tax.

Respectfully submitted, in my official capacity as County Attorney,  
**ELBERT S. PEEL.**

### County Is Represented At Greensboro Meeting

The four scouts, Philip Coltraine, Eddie Daniels, Jimmy Byrum, and Joe Clayton, presented several acts of Scout learning.

John Hassell spoke briefly about the Fat Stock Show, which is to be held in Williamston April 9th, and asked the club to help sponsor the show with a cash contribution. The club responded favorably.—Reported.

Ear corn should not be stored until its moisture content is 20 per cent or lower.

As of February 13, the United States had certified for export 23,621,472 pounds of honey.

### Almost every legume commonly grown for hay in the United States grows well over the greater part of North Carolina.

## NOTICE TO ALL MARTIN COUNTY DOG OWNERS

For six years the undersigned Veterinarian has been conducting the Annual Dog Rabies Clinic in Martin County. According to the State Board of Health this Clinic has always been conducted with the Best in the State.

**Do Not Be Confused**  
I will personally conduct the Dog Rabies Clinic Again This Year From

**March 30 Through April**

**Dog Owners Please Be Advised There Is No Connection Between This Rabies Clinic and Any Other That May Be Held In This County.**

**DR. BILL COPPAGE**

Rabies Inspector appointed by the North Carolina State Board of Health for Martin County. Working in cooperation with Sheriff Holloman and Dr. John Williams of the Martin County Health Department.

You are requested to bring your dogs to this clinic that an accurate record will be kept with the Sheriff's office and the County Tax Collector. In this way proper credit will be allowed on your taxes.

### Spring Coming At 5:01 P. M. Friday

The vernal equinox, which heralds the beginning of Spring, occurs at 5:01 o'clock on the afternoon of March 20th this year. At that moment, the earth's axis is at a right angle to the direction of the sun. At the vernal equinox day and night are equal all over

The other time during the year when this occurs is in September, at the autumnal equinox, which will occur on September 23rd in 1953. In addition to the equinoxes, there is a Summer and Winter solstice, which ushers in Summer and Winter, respectively.

The Summer solstice begins in June, when the North Pole is tilted twenty-three degrees and twenty-seven minutes toward the sun and therefore in the Northern hemisphere the days are longer than the nights. At the same time, the days in the Southern hemisphere, where the South Pole is pointed away from the sun, are shorter than the nights.

This difference, which is caused by the tilting of the earth's axis is often misunderstood by many who know only that the vernal equinox marks the beginning of Spring and that the "some kind of day" in June, September and December herald the other three seasons.

Another question which is often not clear in the minds of many is why the hottest days of Summer seem to come after the Summer solstice, on which day there is more sunshine than any other day in the year. The reason for this is that the earth continues to build up heat after the Summer solstice, while losing only a portion of it at night, and therefore

the automobile.

R. Buckminster Fuller, structural theorist and designer, has developed a geodesic dome that will cover the circular inner court of the Rotunda.

On the grounds, a half-mile roadway will contain sections of different road surfaces that have evolved with highway transportation over the world.

More than five million persons visited the Rotunda in Dearborn before World War II, when its display areas were converted to office space.

### THE OUTLET STORE

Is Offering a Big Stock Of Easter Goods on Lay-A-Way Plan. \$1.00 Holds Your Selection until Easter.

Washington St. Williamston

it is July or August when the maximum temperature is reached—and when the heat loss at night begins to match the heat gain in the day.

Because of the tilted axis of the earth, when the Northern hemisphere is tilted toward the sun, experiencing long days and warmer weather, the Southern hemisphere is tilted away, experiencing short days and colder weather. Therefore the beginning of Spring in the Southern hemisphere is September 23rd, the Summer solstice is December 21st, etc.

Farmer's net income in 1953 is expected to be several percentage points below that of 1952.

Beef prices continue to decline because of a surplus of supplies.

March 16-28

## FRANCISCAN

Presents

### "LUNCHEON FOR TWO"
