Plank Blown Through Tree. Each day brings to light some new freak of the recent tornado which caused death and destruction in Georgia. As an evidence of the freakish force of the wind a big pine tree and a large plank on the property of the Hon. S. M. Roberts, about twelve miles from Atlanta, are now joined as if done by an expert carpenter. Although the tree was a large one the plank was picked up and driven through the center as neatly as if shot from a gun. Not only was the plank shot through the tree, but went through without tearing the tree. The plank was picked up in the yard of Mr. Roberts' sawmill and other planks in the pile were not molested by the wind. So singular does Mr. Roberts consider this action of the tornado that he has posted a notice telling how the plank was driven through the big pine and ordering that it shall not be cut down.

Wealth doesn't bring happiness because there are so many people who want to tell you how to dispose of it.

Pleasure ought to be the greatest business in the world, just as business ought to be the greatest pleasure.

Man showed his egotism when he called it reason in himself and instinct in animals.

"Good" at Breakfast, Lunch or Supper. Delicious Post Toasties

A new dainty of nearly white corn, by the makers of Postum and Grape-Nuts.

Toasties are fully cooked, rolled into thin wafers and toasted a crisp, golden-brown.

Ready to eat direct from the box with cream or good milk. The exquisite flavour and crisp tenderness delights the most fastidious epicure or invalid.

CADETS GET DIPLOMAS FATAL TEXAS TORNADES

Secretary Dickinson Compliments the Class on Its Appearance.

Grand Wind-Up of Four Years' Hard Study For a Large Class of Young Soldiers.

West Point, N. Y.—The class of '03 of the United States Military Academy, 103 sturdy youngsters, immaculate in gray coats and white trousers, received their diplomas from the hands of Secretary Dickinson, of the War Department. And while they blushed somewhat at his praise and threw out their chests and talked gaily among themselves about the joys of getting away from the academy, when train time came around a few hours later it was noticeable that some of the abouted "good boys" and "good-lucks" were a trifle lousy and choky, and the hand claps were almost immoderately tight.

It was the grand wind-up of four years' work for the youths, four years of mighty hard work, too, they will tell you. But then, too, it was the end of four years of pleasant associations under pleasant conditions furnished by a kindly Government, years studied with close friendships. So not even the treasured diploma, not even the presence of proud parents, beaming sisters and adoring younger brothers—not even the presence of a bevy of the pretty girls who seem to grow especially for army graduates and West Point-Annapolis football games, could quite blot out a little feeling of melancholy as the train came pounding into the station.

The presentation of diplomas took place according to the general merit of the graduates. Stuart C. Godfrey, of Milford, Mass., headed the list. Secretary Dickinson, when the cheering which followed the calling of Cadet Godfrey's name had stopped, grasped the young man's hand warmly and told him he had incurred rigid obligations by reason of having stood at the head of his class during his four years at the academy.

"You have made a notable record, and your country will expect great things of you," said the Secretary.

Then, as his name was called, each cadet stepped to the platform and took his diploma. There was applause for all, but it was noticeable that the football and baseball men got rousing cheers.

RICH BOY UNLAPPY.

Heir to \$6,000,000 Says He Wants Mamma, Not Money.

Chicago.—Five-year-old William McClinton, an orphan, was told by relatives that through the death of his mother he had inherited \$6,000,000, and had become one of the richest children in the world.

"I don't want money," was the pathetic response of the little fellow, "I want my mamma back."

Nevertheless, the money will be safely guarded for him, and when he grows up he will come into full possession of the big estate.

The death of his mother made an orphan of the boy. His father, William McClinton, who was sixty-six years old, was killed recently in an automobile accident. His mother was thirty-three years old at the time of her death.

The tiny heir lives with his aunt in a big mansion at No. 2226 Calumet avenue. He is a well-mannered, gentlemanly little fellow of sturdy nature.

PHYSICIANS' "O. K." NECESSARY.

New Law in State of Washington Affecting Marriage Licenses.

Seattle, Wash.—The new State law providing that applicants for marriage licenses must undergo medical examination, except where the woman is at least forty-five years old, has gone into effect. Ten couples appeared at the license clerk's office with physicians' certificates, and two couples, when informed of the new law, they would go to British Columbia to marry.

County officials say the law will result in many Americans marrying in Canada.

BAD LIGHTS AT ANNAPOLIS ACADEMY.

Naval Cadets' Weak Eyes Thus Explained—System to Be Changed Before Next Term.

Washington, D. C.—Officials of the Naval Department are now thoroughly aroused over the physical condition of the cadets at Annapolis. Their showing, as compared with the cadets at the Military Academy, suffers severely. Falling eyesight and heart troubles have become so frequent that the special board now at work to ascertain the causes has been reinforced by the addition of Surgeon-General Ritzy.

The board is still pursuing its investigation, but the members already have reached the conclusion that the lighting system at the Academy is to blame for the failure in eyesight. The lights in the Naval Academy lack certain color rays, making the lamps give out a blinding glare of white light so intense as to be highly injurious to the eyes.

Secretary Meyer announced that the whole system would probably be changed before the next class enters.

The cause of the increase in heart trouble is being investigated, however. The young men successfully pass a rigorous examination before entering the Academy, and some of

Two Towns Nearly Wiped Out—Train Blown From Bridge.

Village of Hillman, Maine, Totally Destroyed by Flames—Inhabitants Escape by Train.

Fort Worth, Texas.—In a tornado at Leuders, Texas, 100 miles west of Fort Worth, four persons were killed, two others were seriously hurt, thirteen houses were wrecked and scores of cattle were killed. Another tornado almost destroyed the little town of Hamlin, in Central Western Texas. Three persons were seriously injured. In a terrific windstorm a Kansas City, Mexico and Orient passenger train was blown from the bridge across the Rio Grande River, between Knox City and Benjamin, Texas. J. E. Stafford, of Crowell, Texas, a passenger, was killed. Several persons were injured. Cloudbursts occurred in sections west of Fort Worth, killing at least one person and injuring scores of others.

Fire Destroys Village.

Smyrna Mills, Me.—Flames that consumed the forests in northern Aroostook, four persons were killed, two others were seriously hurt, thirteen houses were wrecked and scores of cattle were killed. Another tornado almost destroyed the little town of Hamlin, in Central Western Texas. Three persons were seriously injured. In a terrific windstorm a Kansas City, Mexico and Orient passenger train was blown from the bridge across the Rio Grande River, between Knox City and Benjamin, Texas. J. E. Stafford, of Crowell, Texas, a passenger, was killed. Several persons were injured. Cloudbursts occurred in sections west of Fort Worth, killing at least one person and injuring scores of others.

Cambelton, N. B.—Driven from their homes by a fire, which pursued them through the forests, ninety refugees arrived here. They made up the entire population of a village on the one of the International Railway known as Cambelton. A young man, Lumber Mills. Few of the party of men, women and children saved anything except the clothes they wore, and some were thinly clad.

RIGHT TO HIGH TEMPER.

Missouri Judge So Holds in Denying Divorce Application.

Macon, Mo.—"A woman has a right to be high tempered, and her husband ought to be man enough to yield her that privilege," remarked Judge Shelton, of the Circuit Court, to a young man who had filed a plea for divorce against his wife on the ground that she was of an irascible disposition.

The wife did all the work of the house and cared for their four small children.

Judge Shelton continued: "Most good women have some spirit, and they can't help showing it once in a while. A wife has just as much right to possess a temper as her husband has, and the husband's duty is to indulge her when she wants to express herself. Now I am not going to entertain for a moment the idea of divorce between you. You must go back home and make it up."

DIED BY TAKING POISON.

Mrs. J. C. P. Jones, of Toledo, Ohio, Committed Suicide.

Toledo, Ohio.—Mrs. Jane Clark Procter Jones, a widow, sister of Edward Procter, of the soap manufacturing firm of Procter & Gamble, is dead, a suicide. She died from the effects of carbolic acid she took ten days ago.

Another brother of the dead woman, the late William A. Procter, committed suicide here in March, 1907. At that time he was president of the corporation.

Every effort was made to conceal the real cause of death, and although the woman was in the hospital for twelve days, it was not until after her death that it was learned that she had taken carbolic acid.

Mrs. Jones was sixty-nine years old.

NEWS FROM WASHINGTON

The most important happenings in the national capital Monday were as follows:

Whiskey, in the legal meaning of the word, is whiskey even when colored, or flavored in any way, according to an opinion rendered to President Taft by Lloyd M. Bowers, solicitor general of the United States. He holds that as such coloring and flavoring have been used in all the history of whiskey, such addition cannot be illegal or incompatible with the name whiskey. The decision, however, is not the final word in the case.

The Porto Rican bill, unamended, was passed by the House. It provides that when the Porto Rican Legislature fails to pass an appropriation bill the same appropriations shall hold as provided in the last bill passed.

The cotton schedule was considered in the Senate. Little progress was made in voting on various schedules because of much debate, especially between Senator Aldrich for the conservatives, and Senator Beveridge for the "progressives," as to the duty of members to hold to party lines and to platform principles in voting on the bill. By the narrow margin of 32 the amendment of Senator Dilliver to strike out the finance committee's provision fixing a duty of one cent a square yard on mercerization was lost.

The most important happenings in the nation's capital Saturday were as follows:

President Taft sent a special message to Congress transmitting the final report of Charles E. Masgon, former Provisional Governor of Cuba, and praising the latter and Major General Thomas H. Barry, who was in command of the army of pacification, for their services in the land.

Owing to the state of Mrs. Taft's health, the President announced that he had abandoned his proposed trip to Alaska during the coming summer but had not yet given up hope of being able to attend the Seattle Exposition.

That danger lurks in the transportation of these who have died from infectious diseases was made evident at Saturday's session of the twenty-fourth annual meeting of the conference of State and provincial boards of North America. The committee appointed to report on the subject found fault with the present system of shipping bodies from one State to another and recommended that greater care should, in the future, be exercised in this regard through the application of measures, which would secure better preparation and the casing of bodies preparatory to shipment.

In connection with the discussion Tuesday in the Senate of the woolen schedule of the tariff bill, Senator Carter, of Montana, with a large box of various grades of wool by his side, gave a lecture on the woolen industry from beginning to end. Many Senators flocked about him to examine the samples. Most of the day was occupied by Senator Dilliver, who proposed among other things, an amendment to assess duties on woolens on an ad valorem basis according to the shrinkage of the wool. Senator Smoot and Warren upheld the finance committee's recommendations on the schedule.

A proposed amendment to the interstate commerce law to give shippers the same right of appeal to the courts now enjoyed by the railroads, was presented to President Taft by a delegation of citizens from Spokane, Wash.

In the Senate where the woolen schedule of the tariff bill was under discussion Friday, Senator LaFollette declared that Senator Aldrich had forfeited the confidence of other Republican Senators and had stated "half truths, which have discredited his leadership before this body and before this country." When the chair called Mr. LaFollette to order because of his personal allusion, the latter said he had not noticed that the rule forbidding personal allusions had been applied equally to all Senators. Twenty-four amendments to the wool schedule offered by Mr. LaFollette and voted on—en bloc were voted down, as also several amendments by Senator Bacon and one by Senator Gore.

Consideration on the income question was postponed by the Senate until June 15.

Department of Agriculture decided to investigate charges made by J. E. Hazza against the meat inspection system at the National Yards East, St. Louis.

Secretary Ballinger eliminated the common carrier, the so-called confederacy clauses of the old oil and gas pipe line regulations in operation in Oklahoma.

The American National Red Cross Society sent \$5,000 for relief work in Asia Minor.

In the consideration of the woolen schedule of the tariff bill by the Senate Wednesday, the finance committee won several victories, three of its amendments to increase the rates by the House on wool top and other wools on shoddy and on tops being adopted. The increase was from 30 cents to 90 cents per pound. Senator Dilliver, declared that he had discovered a rare trust, which was denied by Senator Warren. Senators Warren and LaFollette were the principal speakers, the former speaking in favor of increased and the latter in favor of lower duties.

John Norris, chairman of the committee on paper of the American Newspaper Publishers' Association, addressed the finance committee in a plea for free wood pulp and lower duty on print paper.

The Interstate Commerce Commission an dthe shippers and railroads interested in the Spokane rate case agreed to postpone until fall the phases of the case still in controversy.

YOUR BACKACHE WILL YIELD

To Lydia E. Pinkham's Vegetable Compound

Rockland, Maine.—"I was troubled for long time with pains in my back and side, and was miserable in every way. I was doctoring until I was discouraged, and thought I should never get well. I read a testimonial about Lydia E. Pinkham's Vegetable Compound, and thought I would try it. After taking three bottles I was cured, and never felt so well in all my life. I recommend Lydia E. Pinkham's Vegetable Compound to all my friends."—Mrs. WILL YOUNG, 6 Columbia Avenue, Rockland, Me.

Backache is a symptom of female weakness or derangement. If you have backache do not neglect it. Try permanent relief you must reach the root of the trouble. Nothing we know of will do this so safely and surely as Lydia E. Pinkham's Vegetable Compound. Cure the cause of these distressing aches and pains and you will become well and strong.

The great volume of unsolicited testimony constantly pouring in proves conclusively that Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has restored health to thousands of women.

Mrs. Pinkham, of Lynn, Mass., invites all sick women to write her for advice. She has guided thousands to health free of charge.

Who would win must learn to bear. A Domestic Eye Remedy. Compounded by Experienced Physicians. Conforms to Pure Food and Drug Laws. Wins Everywhere. Used. Ask Drug Store for Murray's Remedy. Try Murray's Remedy. The less said the sooner mended.

For Charge Customers, New York Sun.

When the trade of a department store is so large that the floorman and sales people cannot recognize credit customers readily various expedients have been adopted for establishing their identity.

The usual system provides for long waits while the customer's name is looked up, but a quicker method is based on an identification card bearing the registered number, which is sent to the cashier with the credit payment if the customer takes the purchase with him. One New York store has augmented this system by small books containing gummed and perforated slips bearing the customer's printed name and address.

When making purchases, says System, the customer merely tears off two of the address slips and hands them to the salesgirl. One slip is stuck into the package as an address label if the goods are to be delivered and the other is attached to the cashier's account.

The scheme saves time and trouble and eliminates the chances of error in transcribing the name and address. It is said to avoid more errors than any other plan in use.

There is a whole lot of religion in everything a fellow does if he does it well.

PRESSED HARD Coffee's Weight on Old Age.

When prominent men realize the injurious effects of coffee and the change in health that Postum can bring, they are glad to lend their testimony for the benefit of others.

A superintendent of public schools in one of the southern states says: "My mother, since her early childhood, was an inveterate coffee drinker, had been troubled with her heart for a number of years and complained of that 'weak all over' feeling and sick stomach."

"Some time ago I was making an official visit to a distant part of the country and took dinner with one of the merchants of the place. I noticed a somewhat peculiar flavor of the coffee, and asked him concerning it. He replied that it was Postum.

"I was so pleased with it, that after the meal was over, I bought a package to carry home with me, and had wife prepare some for the next meal. The whole family were so well pleased with it, that we discontinued coffee and used Postum entirely.

"I had really been at times very anxious concerning my mother's condition, but we noticed that after using Postum for a short time, she felt so much better than she did prior to its use, and had little trouble with her heart and no sick stomach, and her general condition much improved. This continued until she was as well and hearty as the rest of us."

"I know Postum has benefited myself and the other members of the family, but not in so marked a degree as in the case of my mother, as she was a victim of long standing 'Road,' 'The Road to Wellville,' in pgs. 'There's a Reason.'"

Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

These Farmers are Building a Rural Telephone Line

It is the most valuable thing for a community to possess. It puts the doctor, merchant, broker, depot, post office, relatives and friends all within immediate reach. It protects the home and does away with the isolation of farm life that drives the boys and girls to the big cities.

Have You a Rural Telephone? If you have not, cut out this advertisement, write your name and address on the margin and mail it to our nearest house-to-day. Upon receipt of your address we will send you at once a copy of our Free Bulletin No. 101 on "How to Build Rural Telephone Lines and their Costs"

We have sold nearly fifty thousand farmers' telephones since March 1st. The cost is very low where each subscriber helps build the line. Get your family doctor and merchant interested, it helps them and the whole community as well as you.
