TATEM SAYS OLD ROAD LAW WAS REPEALED

No Law Requiring Adherence to Population Area, and Mileage System

With reference to the oft repeated belief that the State Highway and Public Works Commission is bound by the ancient rule of "population, area and mileage," in the allotment of road funds, C. Wallace Tatem of Columbia says this system is only a policy with the Commission, and was abandoned as a law, under the administration of Governor Max Gardner in 1931.

"The legislature of that year repealed this provision," Mr. Tatem says, "and the Highway Commission has adopted it as a policy, and has been adhering to it ever since."

The legislature of 1935 incorporated within the appropriation to the Highway Commission a Betterment Fund, which was earmarked to apply to ours, and other like sections of the state, which had been more favored in the past.

HYDE LUNCH ROOMS PLAN OPEN HOUSE

The WPA lunch room projects are to hold Open House during the week of April 15, through April 19. The public is invited to visit the project from one o'clock until four each day.

There will be one employee on each project to receive the guests, explain the functions of the lunch room, the number of underprivileged and undernourished children fed, the number of other lunches served and the type of menu served.

Lunch rooms in Hyde County began operating as a WPA project in 1936. In some cases a three burner oil stove, a soup bowl and a spoon comprised the equipment.

Interested sponsors, such as PTA (Parents Teachers Association), civic clubs and other organizations, necessary equipment has been secured. However, meals are served in rather crowded space in some of the schools and the ideal lunch room cafeteria is a goal yet to be obtained.

Parents and interested citizens are cordially invited to visit and inspect the projects and see just what, where and how the children are served.

ATTEMPTED ROBBERY OF MORRISSETTE'S STATION

Bandits Who Robbed New Hope Postoffice, Come to Grief in Dare

When they attempted to rob the filling station operated by A. H. Morrisette, near the Currituck Bridge in Dare County Sunday afternoon, by flourishing a pistol, and other weapons, Mr. Morrisette called for officers, they departed at high speed over the Currituck Bridge. Hence Highway Patrolman Louis Lane, and Tom Brown did good work in capturing them.

The bandits were Shelby Casper and Oscar Bogue of Elizabeth City and Joe Roughton of Norfolk. They were lodged in the Pasquotank jail, and Doc Phelps, who broke jail recently in Elizabeth City was also implicated with the men in the recent robbery of the Durants Neck post office and the New Hope Mercantile Co., in Perquimans County.

On the men was found \$725, part of the loot taken in the robbery. Hearing will be given them in Perquimans County, and the postoffice robbery charge will take them to Federal court.

PUTTY FAILURE OFTEN DUE TO POOR APPLICATION

When you see the putty cracking away from your windows in big chunks, don't be too quick about blaming it on the putty. The chances are the putty failure is due to the way the putty is put on.

Like so many other things there is a right and a wrong way to apply putty. The right way takes a little more time and material, which is the reason you do not find it on windows that are made to sell at a price.

In one sketch, we show you the ordinary way that putty is applied to windows. This method is quick and cheap, but it is usually temporary because swelling of the wood from the inside causes the putty to crack off.

In the other sketch is shown the proper way to apply putty. It is known as "bedding." Notice here the layer of putty on all sides of the glass. It actually is resting in a "bed" of putty. Wood and glass do not come in contact with each other. Notice also the putty groove which anchors the putty.
