THE STORE OF QUALITY

"Our Yield Larger than any Other in this Vicinity."

Mr. Thomas Earle, Steelton, Pa., says: "This season we used Bowker's Pyrox on about half an acre of potatoes. We had an exceedingly dry season, but we had a larger yield per acre than any other in the vicinity—due largely, we believe, to the use of Pyrox—as the plants kept green and healthy longer than those that were not sprayed."

This voices the experience of potato growers everywhere. Pyrox kills the bugs; prevents blight and, as it sticks like paint on the leaves, one application does the work of several applications of Paris Green. Follow the lead of the big potato growers and orchardists—there is no sentiment about their enthusiastic use of Pyrox—it gets them the money. We sell Pyrox—any quantity you want, in small crocks, kegs or barrels. Ask for the new and interesting Pyrox booklet.
