New York, May 31 .- Though the tide of immigration has begun to flow again into the United States from Europe so that incoming ships have their lower decks crowded with homeseekers from other lands, there is little prospect that relief is in sight for the American housewife who has been promising herself a cook or a directors of the Tarboro Baseball maid-of-all service to be recruited Club and the adoption of by-laws. from the newcomers. At least that is the opinion of Superintendent P. A. Baker of the United States Immigration Station on Ellis Island.

"Immigration has been increasing by leaps and bounds," Mr. Baker the last few weeks have exceeded the number going back to their native lands by many thousands. Last week six times as many came in as qualified to leave the country.

"People who think the servant girl problem is going to be solved soon guest of her mother. will be disappointed if they are depending on the women immigrants from Ireland and the Scandinavian countries. Plenty of these are arriving on every boat, but they turn up their noses at the thought of menial labor. They have their minds set on getting work in the better factories, principally those manufacturing luxuries such as candy and women's finery. They want to, get into places where employes are well treated and into localities where housing facili-

ties are best so that they can live on the scale justified by the high wages paid them. If employers want to atgrants they had better look to the reputations of their factories for the pleasant working conditions."
