If one of the prominent women educators of the state is willing to come here and speak in the interest of democracy it is at least the duty and pleasure of the ladies of Tarboro to be present on Tuesday afternoon next and hear her.

The biggest campaign event for Tarboro will be the joint speech of Miss Mary O. Graham, president of Peace Institute, and Senator Overman on Tuesday afternoon next at three o'clock at the court house. The ladies are specially requested to be present.

The Chamber of Commerce states the report is going the rounds that Farmville is contemplating building a commercial ice plant. Whether this is true or not is not definitely known. However, it does indicate that they are thinking. Such a plant here could supply Farmville and many other places with ice and if they can build a plant, there is no reason why we shouldn't do so. Farmville is all right, but Tarboro is better and there is no use letting them build something there that we need here.

SKIN TROUBLES

Boils, pimples, sores; yellow, flabby skin, and similar skin troubles, are often signs of impure blood. Men and women with red, iron-fed blood, usually have clear, healthy skins, good complexions, rosy cheeks and feel as well as they look. If your blood is in a bad fix, weak in iron, you should profit by the experience of Mr. Frank Armstrong, of Varnell Station, Ga., who writes: "I wish to say that I have taken

ZIRON

Greetings, Pete!

Here I am tonight in Winston-Salem where more tobacco is manufactured than in any other place on the face of the earth! And, W-S is some speed city, as well as the largest in North Carolina! They're rushing up a million dollar hotel, got a corking league ball team, regular skyscraper buildings and as much action as you look for in New York!

When I knocked off for the day, I buzzed around like a hungry bee in a buckwheat field—up and down long streets of R. S. Reynolds Tobacco Co. factories!

As the Reynolds enterprise proved out more and more gigantic and I talked with more men about it, I got the real and true answer as to why Camels are so good and so entirely different from any other cigarette! I'll spin it for you, old top—listen—

Every man I talked with made the one big point that the officials and the more than 350 Reynolds foremen have an inborn knowledge of the tobacco business; that (putting it into a North Carolina expression) they were virtually born and raised in a tobacco patch; that they know tobacco; how to grade it; blend it and how to manufacture and sell it!

And, what's most important of all, Pete, these Reynolds folks sure give men what they want—the best that can be produced! Why, Peter, it took months to perfect Camels Turkish and Domestic blends—and that refreshing flavor—and wonderful mild, mellow body—before a single Camel cigarette was sold! Guess that will repay your interest, old liberty bond!

Tomorrow, I'm going to meet some of the Reynolds folks. Got to see inside of those factories!

And, you know me!!
Shorty.
